Farm Lands for Sale!

The Illinois Central Railroad Company

IS NOW PREPARED TO SELL Over Two Millions of Acres

OF FARMING LANDS, IN TRACTS OF 40 ACRES AND UPWARDS, ON LONG CREDITS AND AT LOW RATES OF INTEREST. ment, to aid in the construction of this

most fertile Prairies in the State, interspersed Chicago, on the North-East, to Cairo at the South, and from thence to Galena and Dunleith, fine Silk, Fur and Slouch Hats, of the latest the lands to any of these points and from thence style, all colors and sizes, -- white, black, to Eastern and Southern markets. Moreover, brown, tan. blue, drab, fawn. &c. Also, a the rapid growth of flourishing towns and villarge assortment of Men's and Boys' fine Calf, lages along the line, and the great increase in Kip, and Grain Boots & Shoes, -Gent's fine population by immigration, etc., afford a substantial and growing home-demand for farm

produce. The soil is a dark, rich mould, from one to five feet in depth, is gently rolling and peculiarly fitted for grazing cattle and sheep, or the cultivation of Wheat, Indian corn, etc. Economy in cultivating and great produciveness are the well known characteristics of llinois lands. Trees are not required to be

cut down, stumps grubbed, or stone picked off, as is generally the case in cultivating new land in the older States. The first crop of Indian the best, the land abounding in fine springs. corn, planted on the newly broken sod, usually

repays the cost of plowing and fencing. Wheat sown on the newly-turned sod is sure to yield very LARGE PROFITS. A man with a plow and two yoke of oxen will break one and a half to two acres per day. Contracts can be made for breaking, ready for corn or wheat, at from \$2 to 2,50 per acre. By judicious management, the land may be plowed and fenced he first, and under a HIGH STATE OF CULTIVA-

TION the second year. Corn, grain, cattle, etc., will be forwarded at reasonable rates to Chicago, for the Eastern market, and to Cairo for the Southern. The larger yield on the cheap lands of Illinois over the high-priced lands in the Eastern and Mid-. dle States, is known to be much more than sufficient to pay the difference of transportation to the Eastern market.

Bituminous coal is mined af several points along the Road, and is a cheap and desirable fuel. It can be delivered at several points along the Road at \$1,50 to \$4,00 per ton; Wood can be had at the same rates per-cord. Those who think of settling in Iowa or Min-

nesota, should bear in mind, that lands there, all of which will be sold as cheap as they can of any value, along the water courses and for and considering the advantages of good soil, be had at any retail establishment in the many miles inland, have been disposed of ;--

27,000 ACRES of good FAUM AND COAL LAND in Elk county, Benzinger township, Pennsylvania, for sale. giving a Farm of 25 Acres for \$200, payable in installments. of \$1 per week, or at the same rate monthly. Farms of 50, 75, 100, or more acres adjoin-

ing in proportion." Each Farm fronts upon a road thirty feet in width. The Noil is a rich limestone loam, and es-

pecially adapted to cultivation, as it is wither hilly nor stony, but gently rolling or fine table land. Around and through this property there are already some 20,000 acres under cultivation, and its fertility has been established from the crops produced. Upon this subject it is easy to be fully satisfied. There is a ready cash market for produce which is much better than trade. It is the

Cheapest, as land of a similar quality is selling at much higher prices adjoining, and especially such as contains coal.

The Coal.-This in particular is the Coal District, several veins underlaying the whole property, and the attention of miners, and those acquainted with coal lands, is specially called to it. It has the advantage of being the nearest to the great lake market, with which here and there with magnificent groves of oak | it will be connected by the Sunbury and Erie and other timber. The Road extends from Railroad now under contract and in course of completion from Eric to Ridgeway, with descending grade the whole way: The soil over in the North-west extreme of the State, and as bituminous coal is the best, for instance Engever bought before, remember it is at CUBEAN all the lands lie within fifteen miles on each land and other countries. The price per acre & PAXTON'S, where they are to be had in side of this Road, ready and cheap means are is trifling for the coal alone, as it will certaingreat variety, consisting of Gent's and Boys' afforded by it for transporting the products of 1y, in so favorable a locations within a short time pay largely. This is important as an immense coal trade will soon open. Four coal companies have already been started to work mines in the vicinity, and there are now fifteen openings around St. Mary's.

The Timber, Stockholders also receive.-There is no reservation whatever cither of timber or coal. It is very valuable, and will paya for a great part of the land. On account of the excellence of streams there are fine opportunities for mills.

For Health, the location is much recommended by Physicians. The chills and fevers are unknown, also pulmonary complaints, being protected from the north east winds by the Alleghenies. The water is pure and amongst

Four Railroads will shortly be completed, connecting it by a *direct* communication with New York, Philadelphia, Pittsburg, Erie, Buffalo, and all the cities on the Lakes. They are the Sunbury and Erie, the Allegheny Valley, the Pittsburg and Buffalo, and the Venango. Energetic exertions are also being made for the building of the Tyrone and Clearfield, which also passes through this property. The effect of this upon trade, and general development, as well as the coal. may be imagined.

The large and flourishing town of St. Mary's is in the centre of the tract, numbering near 3,000 inhabitants. It has Hotels, good public schools, saw and grist mills, stores, well stocked and every thing desired. There are 235 half acre lots in the town of St. Mary's, which will be sold and the proceeds equally divided. amongst those who buy farms. Ridgeway, the county seat, where an extensive business is done, adjoins the tract on the west. The whole district is intersected by good turnpike, and other roads.

This is a rare opportunity offered to those

who wish to farm or have a good investment'

for the future. By making proper inquiries,
