A Marvellous Remedy for a Marvellous Age! Holloway's Ointment.

THE GRAND EXTERNAL REMEDY. By the aid of a microscope, we see millions of little openings on the surface of our bodies. Through these this Ointment, when rubbed on the skin, is carried to any organ or inward part. Diseases of the kidneys, disorders of the Liver, affections of the heart, Inflammation of the Lungs, Asthma, Coughs and Colds, are by its means effectually cured. Every housewife knows that salt passes freely through bone or meat of any thickness. This healing Ointment far more readily penetrates through any bone or fleshy part of the living body, curing the most dangerous inward complaints, that cannot be reached by other means. Erysipelas, Salt Rheum, Scrofula, Hemorrhoids. No remedy has ever done so much for the cure of diseases of the Skin, whatever form they may assume, as this Ointment. No case of Salt Rheum, Scrofula, Sore Throat, Scrofula, or Erysipelas, can long withstand its influence. The inventor has travelled over many parts of the globe, visiting the principal hospitals, dispensing this Ointment, giving advice as to its application, and has thus been the means of restoring countless numbers to health. Store Legs, Sore Breasts, Wounds & Ulcers. Some of the most scientific surgeons now rely solely on the use of this wonderful Ointment, when having to cope with the worst cases of sores, wounds, ulcers, glandular swellings, and tumors. Prof. Holloway has, by command of the Allied Governments, dispatched to the hospitals of the East, large shipments of this Ointment, to be used under the direction of the Medical Staff, in the worst cases of wounds. It will cure any ulcer, glandular swelling, stiffness or contraction of the joints, even of 20 years' standing. Cuts and Fistulas. These and other similar distressing complaints can be effectually cured if the Ointment be well rubbed in over the parts affected, and by otherwise following the printed directions around each pot. With the Ointment and Pills should be used in the following Cases:

Blisters, Burns, Rheumatism, Chapped Hands, Chilblains, Erysipelas, Sore Throat, Sore Breasts, Sore Throats, Venereal Sores, Wounds of all kinds. Piles, Hemorrhoids, Sprains, Swellings, Swelled Glands, Still Joints, Ulcers, Venereal Sores, Wounds of all kinds. Sore Throat, Sore Breasts, Sore Throats, Venereal Sores, Wounds of all kinds.

Farm Lands for Sale!

The Illinois Central Railroad Company IS NOW PREPARED TO SELL Over Two Millions of Acres OF FARMING LANDS.

IN TRACTS OF 40 ACRES AND UPWARDS, ON LONG CREDITS AND AT LOW RATES OF INTEREST. THESE lands were granted by the Government, to aid in the construction of the Railroad, and include some of the richest and most fertile Prairies in the State, interspersed here and there with magnificent groves of oak and other timber. The Road extends from Chicago, on the North-East, to Cairo at the South, and from thence to Galena and Dunleith, in the North-west extreme of the State, and as all the lands lie within fifteen miles on each side of this Road, ready and cheap means are afforded by it for transporting the products of the lands to any of these points and from thence to Eastern and Southern markets. Moreover, the rapid growth of flourishing towns and villages along the line, and the great increase in population by immigration, etc., afford a substantial and growing home-demand for farm produce. The soil is a dark, rich mould, from one to five feet in depth, is gently rolling and peculiarly fitted for grazing cattle and sheep, or the cultivation of Wheat, Indian corn, etc. Economy in cultivating and great productiveness are the well known characteristics of Illinois lands. Trees are not required to be cut down, stumps grubbed, or stone picked off, as is generally the case in cultivating new land in the older States. The first crop of Indian corn, planted on the newly broken sod, usually repays the cost of plowing and fencing. Wheat sown on the newly-turned sod is sure to yield very large profits. A man with a plow and two yoke of oxen will break one and a half to two acres per day. Contracts can be made for breaking, ready for corn or wheat, at from \$2 to 2.50 per acre. By judicious management, the land may be plowed and fenced the first, and under a high state of cultivation the second year. Corn, grain, cattle, etc., will be forwarded at reasonable rates to Chicago, for the Eastern market, and to Cairo for the Southern. The larger yield on the cheap lands of Illinois over the high-priced lands in the Eastern and Middle States, is known to be much more than sufficient to pay the difference of transportation to the Eastern market. Bituminous coal is mined at several points along the Road, and is a cheap and desirable fuel. It can be delivered at several points along the Road at \$1.50 to \$4.00 per ton; Wood can be had at the same rates per cord. Those who think of settling in Iowa or Minnesota, should bear in mind, that lands there, of any value inland, have been disposed of, not for ventures located in the interior, there are no conveniences for transporting the produce to market, Railroads not having been introduced there. That to send the produce of these lands, one or two hundred miles by wagon to market, would cost much more than the expense of cultivating them; and hence, Government lands thus situated, at \$1.25 per acre, are not so good investments as the land of this company at the prices fixed.

The same remarks hold good in relation to the lands in Kansas and Nebraska, for although vast lands may be found nearer the water courses, the distance to market is far greater, and every hundred miles the produce of those lands are carried either in wagons, or interrupted water communications, increases the expenses of transportation, which must be borne by the settlers, in the reduced price of their products; and to that extent precisely are the incomes from their farms, and of course on their investments, annually and every year reduced.

The great fertility of the lands now offered for sale by this company, and their consequent yield over those of the Eastern and Middle States, is much more than sufficient to pay the difference in the cost of transportation, especially in view of the facilities furnished by this Road, and others with which it connects, the operations of which are not interrupted by the low water of summer, or the frost of winter.

Price and Terms of Payment.

The price will vary from \$5 to \$25, according to location, quality, etc. Contracts for Deeds may be made during the year 1856, stipulating the purchase money to be paid in five annual installments. The first to become due in two years from the date of contract, and the others annually thereafter. The last payment will become due at the end of the sixth year from the date of the contract. Interest will be charged at only ten per cent per annum. As a security to the performance of the contract, the first two years' interest must be paid in advance, and it must be understood that at least one tenth of the land purchased shall yearly be brought under cultivation. Twenty per cent from the credit price will be deducted for cash. The Company's construction bonds will be received as cash. READY FRAMED FARM BUILDINGS, which can be set up in a few days, can be obtained from responsible persons. They will be 12 feet by 20 feet, divided into one living and three bed-rooms, and will cost complete set up on ground chosen anywhere along the Road, \$150 in cash, exclusive of transportation. Larger buildings may be contracted for at proportionate rates. Special arrangements with dealers can be made to supply those purchasing the Company's lands with fencing materials, agricultural tools, and an outfit of provisions in any quantity, at the LOWEST WHOLESALE PRICES. It is believed that the price, long credit, and low rate of interest, charged for these lands, will enable a man with a few hundred dollars in cash and ordinary industry, to make himself independent before all the purchase money becomes due. In the mean time, the rapid settlement of the country will probably have increased their value four or five fold.—When required an experienced person will accompany applicants, to give information and aid in selecting lands. Creditors, containing numerous instances of successful farming, signed by respectable and well-known farmers living in the neighborhood of the Railroad lands, throughout the State—also the cost of fencing, price of cattle, expense of harvesting, threshing, etc., by contract—or any other information—will be cheerfully given, on application, either personally or by letter, in English, French, or German, addressed to JOHN WILSON, Last Commissioner of the Illinois Central R. R. Co. Office up to the 1st of May, 52 Michigan Avenue, CHICAGO, Ill.; after that date to the new stone Passenger Depot, foot of South Water Street. April 21, 1856. 6m

Farms, after the 1st of June, \$300.

A FARM WITHIN THE REACH Of Every Man!

27,000 ACRES of good FARM AND COAL LAND in Elk county, Benzer township, Pennsylvania, for sale, giving a Farm of 25 Acres for \$200, payable in installments of \$1 per week, or at the same rate monthly. Farms of 50, 75, 100, or more acres adjoining in proportion. Each Farm fronts upon a road thirty feet in width. The Soil is a rich limestone loam, and especially adapted to cultivation, as it is neither hilly nor stony, but gently rolling or fine table land. Around and through this property there are already some 20,000 acres under cultivation, and its fertility has been established from the crops produced. Upon this subject it is easy to be fully satisfied. There is a ready cash market for produce which is much better than trade. It is the Cheapest, as land of a similar quality is selling at much higher prices adjoining, and especially such as contains coal.

The Coal.—This in particular is the Coal District, several veins underlying the whole property, and the attention of miners, and those acquainted with coal lands, is specially called to it. It has the advantage of being the nearest to the great lake market,—with which it will be connected by the Sunbury and Erie Railroad now under contract and in course of completion from Erie to Ridgeway, with descending grade the whole way. The soil over bituminous coal is the best, for instance England and other countries. The price per acre is trifling for the coal alone, as it will certainly, in so favorable a location within a short time pay largely. This is important as an immense coal trade will soon open. Four coal companies have already been started to work mines in the vicinity, and there are now fifteen openings around St. Mary's.

The Timber, Stockholders also receive.—There is no reservation whatever either of timber or coal. It is very valuable, and will pay for a great part of the land. On account of the excellence of streams there are fine opportunities for mills. For Health, the location is much recommended by Physicians. The chills and fevers are unknown, also pulmonary complaints, being protected from the north east winds by the Alleghenies. The water is pure and amongst the best, the land abounding in fine springs. Four Railroads will shortly be completed, connecting it by a direct communication with New York, Philadelphia, Pittsburg, Erie, Buffalo, and all the cities on the Lakes. They are the Sunbury and Erie, the Allegheny Valley, the Pittsburg and Buffalo, and the Venango. Energetic exertions are also being made for the building of the Tyrone and Clearfield, which also passes through this property. The effect of this upon trade, and general development, as well as the coal, may be imagined.

The large and flourishing town of St. Mary's is in the centre of the tract, numbering near 3,000 inhabitants. It has Hotels, good public schools, saw and grist mills, stores, well stocked, and every thing desired. There are 235 half acre lots in the town of St. Mary's, which will be sold and the proceeds equally divided amongst those who buy farms. Ridgeway, the county seat, where an extensive business is done, adjoins the tract on the west. The whole district is intersected by good turnpike, and other roads.

This is a rare opportunity offered to those who wish to farm or have a good investment for the future. By making proper inquiries, and considering the advantages of good soil, an abundance of coal, healthfulness of climate, Railroad facilities, and its location, a correct judgment may be formed of its present advantages and ultimate increase. By writing to the office directions will be given to those who wish to visit the land. A system of excursions will shortly be adopted. There is an excellent opening for various branches of mechanical business, especially tanneries, wheelwrights, axe handle makers, shoemakers, carpenters and others.

Farms can be bought by enclosing the first instalment. Ladies can hold shares in their own right. Title unquestionably good, and warrant deeds given. Address or apply to Samuel W.
