WASHINGTON, June 30, SENATE.—The bill-authorizing the issue of an additional number of arms for use in

California has passed, Mr. Douglas, from the committee on territories, to which was referred various hills relative to affairs in Kausas, made a voluminous

report on the subject. The report was confined to an elaborate discussion of the bill which the committee reported, which provides for the appointment of five commissioners, to be selected from different sections of the Union, to represent fairly all political parties. They shall take a consus of all the legal votes in the Territory, and make a fair apportionment of delegates to be elected in each county, to assemble and make a constitution and State government. When the apportionments shall have been thus made, the commissioners are to remain in session every day, excepting Sunday, at places most convenient to the inhabitants of the Territory, to hear all complaints, examine witnesses and correct all errors in the said list of voters, which shall be previously printed and circulated throughout the Territory, and posted in at least three of the most public places in each

voting precinct in each county.

So soon as all errors shall have thus been corrected in said lists, the commissioners are required to cause lists of the legal voters to be printed and copies furnished to each judge of election, to be put up at the places of voting, and circulated throughout every county in the territory before the day of election. No person shall be allowed to vote whose name does not appear as a legal voter. The election for delegates to take place on the day of the Presidential election, and the convention to 11. Frs. W. Hughes, 23. Thos. Cunningham, assemble on the first Monday in December, to 12. Thus. Osterhout, 24. John Kealty, de side: first, whether it be expedient for Kansas to come into the Union at that time, and, if so decided, proceed to form a constitution and Scate government, which shall be republican in form, and admitted on an equal footing with the original States.

The bill provides that no law shall be of force or enforced in the territory infringing the liberty of speech, or the liberty of the press, or the right of the people to bear arms, Also, for publishing illegal voting, or fraud, or violence at the election, and to use the military force for that purpose. The main point is "the present inhabitants shall decide all points in dispute in Kansas, at a fair election, without fraud or violence, or any other improper influence.". "All male white inhabitants over the age of twenty-one years to be allowed to vote, if residing in the county and ferritory three months previous to the day of election, and no other test is to be required; no oath to support the fugitive slave liw, or any other law, nor any other condition

Passage of the Kansas Bill.

The Baltimore Sun of Friday says: It will be seen by our Congressional report that the Senate, after an exciting session extending through the whole of Wednesday night, passed the bill for the pacification of Kansas, which had been introduced on Monday from the committee on territories. It provides for a commission for ascertaining the legal voters, who shall elect delegates on the day of the Presidential election, and the convention to assemble on the first Monday in December to decide: first, whether it be convenient for Kansas to come into the Union at that time, and, if so decided, proceed to form a constitution and State government, which shall be republican in form, and admitted on an equal footing with the original States.

All offensive territorial laws against the liberty of speech, the press, and requiring an oath to support the fugitive slave law, &c., are repealed thereby, and for the prevention of fraud or violence at the election, military force is to be used. The bill was amended in one or two important particulars, one of which amendments strikes out a provision which allowed any white male above twentyone years old, who has resided in the country and Territory three months, to vote at the election. It is to be hoped that the bill may pass the House, and succeed in giving quiet to the country.

The amendment of Mr. Seward, for the admission of Kansas with the Topeka constitution, was promptly voted down, as were also

several others of kindred nature. The House, however, yesterday reconsidered its former vote rejecting by one majority the Kansas Topeka bill, and passed it by yeas 101,

The intercourse of these two great states: men was always friendly. In their delates in the Senate they treated each other with paper in the bnited States, and published in the greatest kindness and the highest respect. Once only was the smooth current of their er upon the Black Republican candidate, and relations disturbed by a ripple, and then Mr. CLAY was in fault. During the famous extra session-of 1841, Mr. C., in harling shafts smong his political opponents, quoted the "ten cent" charge of the hard cider campaign; mont, to know all about him. Listen, there-Mr. Buchanan rose with accustomed dignity and deliberation, and said: "I have listened with my usual gratification to the reply of the distinguished Senator from Kentucky, with the exception of a single remark. I refer to great question which agitates the country," his allusion to the electioneering slang of the late contest on the subject of low wages .-That remark was wholly unworthy of that Senator, and I intend to answer it as it deserves," But Mr. CLAY did not wait for the answer. Begging permission to explain, he said his remark had been uttered in a playful manner, and he had no intention whatever to wound the feelings of the Senator from Pennsylvania. Mr. Buchanan replied: "I am entirely satisfied, and am glad we are friends No one, (truly remarks the Valley Spirit,)

It is altogether useless for the Know Nothings, who have broken down the party and deserted the principles of HENRY CLAY, to attempt to injure Mr. BUCHANAN by calling him the "slanderer of CLAY." We. defy them to point out an instance in which Mr. B. spoke disrespectfully of Mr. C.

We make no special appeal to the old line Whigs to join our standard. We take it they have sense enough to know where to go. If side both at once, they will come over to Mr. BUCHANAN. Opinions of the Neutral Press.

The Pittshurg Chroncle is an independent journal with strong anti-slavery proclivities. It cannot be accused of any peculiar sympathy with the Democratic party. In the Saturday number of that paper an able article appeared, reviewing the present position of the political parties of the country. It concludes with the following language:

"In the present state of things, the election of Mr. Buchanan seems to us certain. "In expressing this opinion, we speak from a stand-point outside of all party lines or obligations, with no desire or intention to favor the interests of one party more than another. We simply give utterance to a solemn truth, Union is: Shall our next President be a true, which the people will not hear from any oth- firm and Union-loving Democrat; or a pieor source than that of the independent press."

Horrible Catastrophe!

The extensive wharf of Merrick & Son, at the foot of Reed street, Philadelphia, gave way on Tuesday evening, resulting in a lamen table loss of life. It seems that a large number of women and children were in the habit of resorting to the pier at the extremity of the wharf, during the warm summer evenings, to enjoy the breeze from the Delaware, and on the evening mentioned the crowd was unusually great. At about half-past seven, when all were in the height of innocent enjoyment, the foundations of the wharf gave way, precipitating a large number of old and young into the river. The scene that ensued baffled description. While some women and children were floating in the stream, struggling and shricking for help, mothers were running about, almost frantic, searching for their little ones, so suddenly missed from their side .-The boats of the Receiving Ship Union, and others put off from the shore, saved a considerable number of the struggling ones from a watery grave, but it is feared that many sunk.

Later intelligence fixes the probable loss of life at 20, but it may be more. The river is still being dragged for dead bodies. Some 12 have been recovered thus far.

INDEPENDENCE DAY .- Friday last, the 80th anniversary of the declaration of American Independence, was very generally observed by our citizens. At dawn of day, cannon were fired, and the church bells; rung. A few hours later, parties were to be seen in all quarters of the town, starting for the country, mostly to Marsh creek, to spend the day in pic-nic style. The "Independent Blues," (commanled by Captain C. H. BUERLER,) as previously announced, celebrated it at Bream's. At half-past ten o'clock, they with the citizens there assembled, organized beneath the large spreading willows on the south bank of Marsh creek, near the hotel, by calling H. J. STABLE to the Chair; Serg. WM. J. MIL-LER, (of Baltimore,) and Serg. John Culp were appointed Vice Presidents, and Lieut. WM. J. MARTIN and DAVID McCREARY, Secretaries. The Declaration of Independence was read by Chas. X. Martin, after which Hon. Moses McClean delivered an appropriate and eloquent oration, which was listened to with the most profound attention by all present. We suppose it will be published.

The party then sat down to dinner, furnished by Mr. Bream, and a capital one it was. The tables fairly groaned beneath their weight of good things, and appreciating justice was, of course, done the ample repast. After-all had partaken, soldiers and citizens were again called to order along the extensive table, and the usual number of regular toasts read by Lieut. E. G. FABNESTOCK, all of which:were received with fitting demonstrations. Volunteer toasts followed, which brought out a number of short, but happy responses, and an hour or more was thus most agreeably spent.
