## Farm Lands for Sale!

The Illinois Central Railroad Company 13 NOW PREPARED TO SELL Over Two Millions of Acres OF FARMING LANDS,

IN TRACTS OF 40 ACRES AND UPWARDS, ON LONG CREDITS AND AT LOW RATES OF INTEREST. FullESE lands were granted by the Govern-I ment, to aid in the construction of this Railroad, and include some of the richest and most fertile Prairies in the State, interspersed here and there with magnificent groves of oak and other timber. The Road extends from Chicago, on the North-East, to Cairo at the South, and from thence to Galena and Dunleith, in the North-west extreme of the State, and as all the lands lie within fifteen miles on each side of this Road, ready and cheap means are afforded by it for transporting the products of the lands to any of these points and from thence to Eastern and Southern markets. Moreove

the rapid growth of flourishing towns and villages along the line, and the great increase population by immigration, etc., afford a substantial and growing home-demand for farm

The soil is a dark, rich mould, from one to five feet in depth, is gently rolling and peculiarly fitted for grazing cattle and sheep, or the cultivation of Wheat, Indian corn, etc.

Economy in cultivating and great productiveness are the well known characteristics of Illinois lands. Trees are not required to be cut down, stumps grubbed, or stone picked off. as is generally the case in cultivating new land in the older States. The first crop of Indian corn, planted on the newly broken sod, usually repays the cost of plowing and fencing. Wheat sown on the newly-turned sod is sure

to yield very LARGE PROFITS. A man with a plow and two yoke of oxen will break one and a half to two acres per day. Contracts can be made for breaking, ready for corn or wheat, at from \$2 to 2,50 per acre. By judicious management, the land may be plowed and fenced the first, and under a nigh STATE OF CULTIVA-TION the second year.

Corn, grain, cattle, ctc., will be forwarded at reasonable rates to Chicago, for the Eastern market, and to Cairo for the Southern. The larger yield on the cheap land; of Illinois over the high-priced lands in the Eastern and Muldle States, is known to be much more than sufficient to pay the difference of transportation to the Eastern market.

Bituminous coaleis mined at several points along the Road, and is a cheap and desirable fuel. It can be delivered at several points along the Road at \$1,50 to \$4,00 per ton; Word can be had at the same rates per cord. Those who think of settling in Iowa or Minnesota, should bear in mind, that lands there, no conveniences for transporting the produce to market, Railroads Sol having been introduced there. That to send the produce of these lands, one or two hundred miles by wagon to market, would cost much more than the expense of cultivating them ; and hence, Government lands thus situated, at \$1,25 per acre, are not so good investments as the land of this company at the prices fixed. The same remarks hold: good in relation to

L. Wilmarth, Esq., Pittsburg, Pennsylvania. Borough Conneil of St. Mary's to the Public. This is to certify that, having been over the

tract owned by the Ridgeway Farm and Coal Company, and given it a thorough examination, we find the representations of that Company to be correct. We find the soil to be the most fertile-the Coal and Iron Ore to lie in inexhaustible quantities, through the whole district-the Farms in excellent order, and the intelligence and prosperity of the people to be of the most gratifying character. We know that there is no healthier location in the State, and we consider it a most desirable place of

settlement. We make this declaration, as we believe there may be many persons who are unacquainted with these lands, and we are satisfied, from our knowledge of the subject, that infor-Elk county,

their products; and to that extent precisely are the incomes from their farms, and of course on their investments, annually and every year reduced.

The great-fertility of the lands now offered for sale by this company, and their consequent yield over those of the Eastern and Middlo States, is much more than sufficient to pay the difference in the cost of transportation, especially in view of the facilities furnished by this Road, and others with which it connects, the operations of which are not interrupted by the low water of summer, or the frost of winter.

## Price and Terms of Payment.

The price will vary from \$5 to \$25, according to location, quality, etc. Contracts for Deeds may be made during the year 1856, stipulating the purchase money to be paid in five amsual installments. The first to become due in two years from the date of contract, and the others annually thereafter. The last payment will become due at the end of the sixth year from the date of the contract.

Thterest will be charged at only THREE per cent. per annum. As a security to the performance of the contract, the first two years' interest must be paid in advance, and it must be understood that at least one teath of the land purchased shall yearly be brought under cultivation. Twenty per cent. from the credit price will be deducted for cash." The Company's construction bonds will be received as

cash. FRANCE FRAMED FARM BUILDINGS, which can be set up in a few days, can be obtained from responsible persons. They will be 12 feet by 20 feet, divided into one living and three bed-rooms, and will cost complete set up on ground chosen anywhere along the Road, \$150 in cash, exclusive of transportation .--Larger buildings may be contracted for at proportionate rates.

Special arrangements with dealers can be made to supply those purchasing the Company's lands with fencing materials, agricultural tools, and an outfit of provisions in any quantity, at the LOWEST WHOLESALE PRICES.

IT It is believed that the price, long credit, and low rate of interest, charged for these lands, will enable a man with a few hundred dollars in cash and ordinary industry, to make himself independent before all the purchase money becomes due. In the mean time, the rapid settlement of the country will probably have increased their value four or five fold. --When required an experienced person will accompany applicants, to give information and aid in selecting lands.

Circulars, containing numerous instances of successful farming, signed by respectable and well-known farmers living in the neighborhood of the Railroad lands, throughout the Statealso the cost of fencing, price of cattie, expense of harvesting, threshing etc., by contract-or any other information-will be cheerfully given, on application, either personally or by letter, in English, French, or German, addressed to
