**Farm Lands for Sale!**  
The Illinois Central Railroad Company IS NOW PREPARED TO SELL Over Two Millions of Acres OF FARMING LANDS, IN TRACTS OF 40 ACRES AND UPWARDS, ON LONG CREDITS AND AT LOW RATES OF INTEREST. THESE lands were granted by the Government, to aid in the construction of this Railroad, and include some of the richest and most fertile Prairies in the State, interspersed here and there with magnificent groves of oak and other timber. The Road extends from Chicago, on the North-East, to Cairo at the South, and from thence to Galena and Dunleith, in the North-west extreme of the State, and as all the lands lie within fifteen miles on each side of this Road, ready and cheap means are afforded by it for transporting the products of the lands to any of these points and from thence to Eastern and Southern markets. Moreover, the rapid growth of flourishing towns and villages along the line, and the great increase in population by immigration, etc., afford a substantial and growing home-demand for farm produce.  
The soil is a dark, rich mould, from one to five feet in depth, is gently rolling and peculiarly fitted for grazing cattle and sheep, or the cultivation of Wheat, Indian corn, &c.  
Economy in cultivating and great productiveness are the well known characteristics of Illinois lands. Trees are not picked off, cut down, stumps grubbed, or stone removed, as is generally the case in cultivating new land in the older States. The first crop of Indian corn, planted on the newly broken soil, usually repays the cost of plowing and fencing.  
Wheat sown on the newly-turned soil is sure to yield very LARGE PROFITS. A man with a plow and two yoke of oxen will break one and a half to two acres per day. Contracts can be made for breaking, ready for corn or wheat, at from \$2 to 2.50 per acre. By judicious management, the land may be plowed and fenced the first, and under a high state of CULTIVATION the second year.  
Corn, grain, cattle, etc., will be forwarded at reasonable rates to Chicago, for the Eastern market, and to Cairo for the Southern. The larger yield on the cheap lands of Illinois over the high-priced lands in the Eastern and Middle States, is known to be much more than sufficient to pay the difference of transportation to the Eastern market.  
Bituminous coal is mined at several points along the Road, and is a cheap and desirable fuel. It can be delivered at several points along the Road at \$1.50 to \$4.00 per ton; Wood coal had at the same rates per cord. Those who think of settling in Iowa or Minnesota, should bear in mind, that lands there, of any value along the water courses and for many miles inland, have been disposed of—that for those located in the interior, there are no conveniences for transporting the produce to market, Railroads not having been introduced there. That to send the produce of these lands, one or two hundred miles by wagon to market, would cost much more than the expense of cultivating them; and hence, Government lands thus situated, at \$1.25 per acre, are not so good investments as the land of this company at the prices fixed.  
The same remarks hold good in relation to the lands in Kansas and Nebraska, for although vacant lands may be found nearer the water courses, the distance to market is far greater and every hundred miles the produce of these lands are carried either in wagons, or interrupted water communications, increases the expenses of transportation, which must be borne by the settlers, in the reduced price of their products; and to that extent precisely are the incomes from their farms, and of course on their investments, annually and every year reduced.  
The great fertility of the lands now offered for sale by this company, and their consequent yield over those of the Eastern and Middle States, is much more than sufficient to pay the difference in the cost of transportation, especially in view of the facilities furnished by this Road, and others with which it connects, the operations of which are not interrupted by the low water of summer, or the frost of winter.

**Price and Terms of Payment.**  
The price will vary from \$5 to \$25, according to location, quality, etc. Contracts for Deeds may be made during the year 1856, stipulating the purchase money to be paid in five annual installments. The first to become due in two years from the date of contract, and the others annually thereafter. The last payment will become due at the end of the sixth year from the date of the contract.  
Interest will be charged at only THREE per cent per annum. As a security to the performance of the contract, the first two years' interest must be paid in advance, and it must be understood that at least one tenth of the land purchased shall yearly be brought under cultivation. Twenty per cent from credit price will be deducted for cash. The Company's construction bonds will be received as cash.  
READY FRAMED FARM BUILDINGS, which can be set up in a few days, can be obtained from responsible persons. They will be 12 feet by 20 feet, divided into one living and three bed-rooms, and will cost complete set up on ground chosen anywhere along the Road, \$150 in cash, exclusive of transportation. Larger buildings may be contracted for at proportionate rates.  
Special arrangements with dealers can be made to supply those purchasing the Company's lands with fencing materials, agricultural tools, and an outfit of provisions in any quantity, at the LOWEST WHOLESALE PRICES.  
It is believed that the price, long credit, and low rate of interest, charged for these lands, will enable a man with a few hundred dollars in cash and ordinary industry, to make himself independent before all the purchase money becomes due. In the mean time, the rapid settlement of the country will probably have increased their value four or five fold.—When required an experienced person will accompany applicants, to give information and aid in selecting lands.  
Circulars, containing numerous instances of successful farming, signed by respectable and well-known farmers living in the neighborhood of the Railroad lands, throughout the State—also the cost of fencing, price of cattle, expense of harvesting, threshing, etc., by contract—or any other information—will be cheerfully given, on application, either personally or by letter, in English, French, or German, addressed to  
JOHN WILSON, Land Commissioner of the Illinois Central R. Co.—Office, in the City of Chicago, No. 53, Exchange Street. Circulars will also be sent to the nearest Post-Office, on application, and will be sent to the lowest station on the Road, free of charge.

**Diamond Tonsor.**  
JOHN W. TIPTON, Fashionable Barber and Hair Dresser, can at all times be found prepared to attend to the calls of the people, at the Temple, in the Diamond, adjoining the County Building. From long experience, he flatters himself that he can go through all the ramifications of the Tonsorial Department, with such an infinite degree of skill, as will meet with the entire satisfaction of all who may submit their claims to the keen ordeal of his razors. He hopes, therefore, that by his attention to business, and a desire to please, he will merit as well as receive, a liberal share of public patronage. The sick will be attended to at their private dwellings.

**LET US REASON TOGETHER! HOLLOWAY'S PILLS.**  
WHY ARE WE SICK?—It has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAY'S PILLS are specially adapted to the relief of the WEAK, the NERVOUS, the DELICATE, and the INFIRM, of all climes, ages, sexes, and constitutions.—Professor Holloway personally superintends the manufacture of his medicines in the United States, and offers them to a free and enlightened people, as the best remedy the world ever saw for the removal of disease.  
These Pills Purify the Blood.  
These famous Pills are expressly combined to operate on the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions purifying the blood, the very fountain of life, and thus curing disease in all its forms.  
Dyspepsia and Liver Complaints.  
Nearly half the human race have taken these Pills. It has been proved in all parts of the world, that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and stomach complaints generally. They soon give a healthy tone to these organs, however much deranged, and when all other means have failed.  
General Debility, Ill Health.  
Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses. Learned Colleges admit that this is the best medicine ever known for persons of delicate health, or when the system has been impaired, as its invigorating properties never fail to afford relief.  
Female Complaints.  
No female, young or old, should be without this celebrated medicine. It corrects and regulates the monthly courses at all periods, acting in many cases like a charm. It is also the best and safest medicine that can be given to children of all ages, and for any complaint; consequently no family should be without it.  
Holloway's Pills are the best remedy known in the world for the following Diseases:  
Asthma, Debility, Liver Complaints, Bowel Complaints, Fever and Ague, Losses of Spirits, Coughs, Female Complaints, Piles, Colic, Headaches, Stone and Gravel, Costiveness, Indigestion, Secondary Syphilis, Dropsy, Inflammation, Venereal Affections, Diarrhoea, Dropsy, Inward Weakness, Worms of all kinds.
