ness as they do—in this branch especially—
they have every facility for prosecuting it to
the best advantage, and can offer facilities su-
perior to any other house here or elsewhere, as
regards low prices, variety and particularly
superior quality.
The success and patronage with which they
have met heretofore, is gratefully appreciated,
for which they return again, as formerly, their
sincere acknowledgments and thanks, and
trust, by strict and prompt attention to busi-
ness, a continuance of the liberal patronage
hitherto extended to them.

Farm Lands for Sale!
The Illinois Central Railroad Company
IS NOW PREPARED TO SELL
Over Two Millions of Acres
OF FARMING LANDS,
IN TRACTS OF 40 ACRES AND UPWARDS, ON
LONG CREDITS AND AT LOW RATES OF INTEREST.
THESE lands were granted by the Govern-
ment, to aid in the construction of this
Railroad, and include some of the richest and
most fertile Prairies in the State, interspersed
here and there with magnificent groves of oak
and other timber. The Road extends from
Chicago, on the North-East, to Cairo at the
South; and from thence to Galena and Dunleith,
in the North-west extreme of the State, and as
all the lands lie within fifteen miles on each
side of this Road, ready and cheap means are
afforded by it for transporting the products of
the lands to any of these points and from thence
to Eastern and Southern markets. Moreover,
the rapid growth of flourishing towns and vil-
lages along the line, and the great increase in
population by immigration, etc., afford a sub-
stantial and growing home-demand for farm
produce.
The soil is a dark, rich mould, from one to
five feet in depth, is gently rolling and peculiarly
fitted for grazing, cattle and sheep,—or the
cultivation of Wheat, Indian corn, &c.
Economy in cultivating and great produc-
tiveness are the well known characteristics of
Illinois lands. Trees are not required to be
cut down, stumps grubbed, or stone picked off,
as is generally the case in cultivating new land
in the older States. The first crop of Indian
corn, planted on the newly broken sod, usually
repays the cost of plowing and fencing;
Wheat sown on the newly-turned sod is sure
to yield very large crops. A man with a
plow and two yoke of oxen will break one and
a half to two acres per day. Contracts can be
made for breaking, ready for corn or wheat,
from \$2 to 2.50 per acre. By judicious man-
agement, the land may be plowed and fenced
the first, and under a good state of CULTIVA-
TION the second year.
Corn, grain, cattle, etc., will be forwarded
at reasonable rates to Chicago, for the Eastern
market, and to Cairo for the Southern.
The larger yield on the cheap lands of Illinois over
the high-priced lands in the Eastern and Mid-
dle States, is known to be much more than
sufficient to pay the difference of transportation to
the Eastern market.
Bituminous coal is mined at several points
along the Road, and is a cheap and desirable
fuel. It can be delivered at several points
along the Road at \$1.50 to \$4.00 per cord;
Wood can be had at the same rates per cord.
Those who think of settling in Iowa or Min-
nesota, should bear in mind, that lands there,
of any value, along the water courses and for
many miles inland, have been disposed of—
that for those located in the interior, there are
no conveniences for transporting the produce
to market, Railroads not having been intro-
duced there. That to send the produce of these
lands, one or two hundred miles by wagon to
market, would cost much more than the ex-
pense of cultivating them; and hence, Govern-
ment lands, thus situated, at \$1.25 per acre,
are not so good investments as the land of this
company at the prices fixed.
The same remarks hold good in relation to
the lands in Kansas and Nebraska, for although
vacant lands may be found nearer the water
courses, the distance to market is far greater
and every hundred miles the produce of those
lands are carried either in wagons, or inter-
rupted water communications, increases the
expenses of transportation, which must be
borne by the settlers, in the reduced price of
their products; and to that extent precisely
are the incomes from their farms, and of course
their investments, annually and every year
reduced.
The great fertility of the lands now offered
for sale by this company, and their consequent
yield over those of the Eastern and Middle
States, is much more than sufficient to pay the
difference in the cost of transportation, espe-
cially in view of the facilities furnished by this
Road, and others with which it connects, the
operations of which are not interrupted by the
low water of summer, or the frost of winter.

Price and Terms of Payment.
The price will vary from \$5 to \$25, accord-
ing to location, quality, etc. Contracts for
Deeds may be made during the year 1856, stipu-
lating the purchase money to be paid in five
annual installments. The first to become due
in two years from the date of contract, and the
others annually thereafter. The last payment
will become due at the end of the sixth year
from the date of the contract.
Interest will be charged at only THREE
per cent per annum. As
