

Local Matters.

FIRES IN EMMITSBURG.—About 9 o'clock on Saturday night week, a large Hay Rick, with several tons of hay, the property of Mr. JOHN BERRY, in Emmitsburg, was destroyed by fire—doubtless the work of an incendiary.

Between 12 and 1 o'clock the same night, a clever-sized Barn, the property of Dr. ANXAN, about 200 yards from the scene of the previous fire, was discovered to be in flames, and before they could be checked, the entire building was consumed; together with hay, grain, a wagon, a cow, &c. But for the calmness of the night and the extraordinary exertions of the citizens, we are informed that much greater destruction would have ensued. The Catholic Church was at one time thought to be in imminent danger. This fire was also the work of some heartless incendiary.

COURT adjourned on Thursday. Quite a number of the smaller grade of larceny and assault and battery cases were disposed of, none of general interest. In the case of the Commonwealth against Daniel Lee, charged with the firing of Warrens' Factory, the jury returned a verdict of not guilty.

NEW MUSIC.—HORACE WATERS, 333 Broadway, New York, Music Publisher, and Agent for the sale of Pianos, Melodeons and Harmoniums, has sent us the following popular piece of music:

"We'll all Meet Again in the Morning."—Ballad—Words by HENRY CLAY PRESS; Music by THOMAS BAKER. Price 25 cents.

A highly interesting and affecting incident gave rise to the above ballad, affording a general and extended scope for the conceptive powers of both poet and musician, and that the inspiration received therefrom was of more than an ordinary character, we cite their joint production in witness. The melody is of that natural flowing character so acceptable to our people, and which gives an indelible effect to the soothing sentiment of the words; it is arranged in the key of two flats. Mr. Baker is well known as the most popular ballad composer in the country, and the present production certainly exceeds any thing we have before seen from his "facile" pen. The following we quote from the title page—

"We'll all meet again in the Morning."—It was a beautiful exclamation of a dying child as the red rays of the sunset streamed on him through the window, "Good bye, papa, good bye; mamma has come for me to-night. Don't cry, papa; we'll all meet again in the morning." And the heart of that father grew lighter under its burden, for something assured him that his angel had gone back to the bosom of Him who said, "Suffer little children to come unto me, for of such is the Kingdom of Heaven." Mr. W. forwards Music free of postage, and gives five pieces twenty-five cents each for \$1.

"H's" communication came to hand too late for this issue. It will appear in our next.

We give below a list of all the cases removed to the Supreme Court from this Judicial district, and decided at this term. We doubt whether any other district in the State can present as complete a list of cases affirmed: Baltimore & Susquehanna Railroad Co., vs. Truitt, York co., affirmed; Same vs. Musselman, York co., affirmed; Loudon vs. Blythe, Adams county, affirmed; McNaair vs. The Commonwealth, Adams co., affirmed; Yonner's Ex'r. vs. Kopp, York county, affirmed.

The World's Benefactor.

Who, that has had opportunities of reading, but has heard of the philanthropist, Howard, the greatest part of whose life was spent in visiting the prisons of Europe, and administering relief to countless numbers of suffering inmates, and whose name will go down to remotest time, crowned with the honors which millions yet unborn will bestow upon it? In the same category we may place the name of Miss Nightingale, the devoted, self-sacrificing heroine of the Crimea. But while we give due honors to such names, we should do injustice to a noble and generous heart, were we, for one moment, to forget the name of Holloway. The possessor of an immense fortune, which would allow him to traverse the world in search of pleasure, he chooses, instead, to devote his leisure and his talents to the benefit of his fellow-creatures, by dispensing among them the most remarkable remedies ever yet compounded, and which he himself discovered after years of unremitting toil and research throughout the vast continent of nature. To these researches Professor Holloway was first incited by various diseases which he everywhere saw art to meet and the sad inefficiency of medical art, and the success which has met him at every step—yet no greater than he anticipated—has proved his well-earned reward. So great, indeed, has become the popularity of his medicines, even in the remotest corners of the earth, that his present establishment in London outstrips the largest in the world; and their marvellous virtues have been extolled in almost every language from pole to pole. We have seen innumerable testimonials from persons who have used these remedies—stamps upon stocks—in which their wonderful powers are attested in the highest degree. In a climate so variable as ours, the most insidious diseases are likely to take root before the patient himself is aware of it, and an immense amount of suffering is thereby entailed, in many cases causing death in fault of ignorance of the proper remedies, which, applied in time, would have prevented the fatal result. In every case of incipient disease, and even in cases far gone, recourse to Professor Holloway's never-failing remedies will save months of painful illness, if not life itself. We do not overrate the man, nor his medicines; but what we are confident of, is we are willing to bear testimony in its favor, and as far as our absolute knowledge extends, covering a space of years, we feel competent to speak upon the subject in the warmest terms. Therefore, it is our earnest wish that not a family in the land should be ignorant of the Professor's remedies, and that they should always be kept on hand to use in cases of sudden illness, as they will operate as well as preventives as curatives; while there is no possibility of danger to the system arising from their use.—Boston Intelligencer.

The Disastrous Storm at New Orleans.
THREE HUNDRED LIVES LOST.

NEW ORLEANS, August 15.—Accounts from Last Island verify the sad story of yesterday. It is positively ascertained that 108 persons were lost.

It is feared that Grand Caillon Island, another watering place, shared the same fate. The corn, cotton and sugar crops are injured to an incalculable extent.

The Texas steamer Nautilus and Preservation are several days overdue, and the steamship Texas has gone in search of them. The storm extended as far up the Mississippi as heard from. At the Government Hospital, Baton Rouge, fourteen inches of rain fell between Sunday evening and Tuesday evening.

P. S. The survivors of the Last Island disaster reached this city this morning. They estimate the loss of life at 200 souls—one hundred and eighty-two had already been counted. Many of the survivors are wounded, bruised, or have broken limbs. The dead bodies were plundered by a set of pirates who inhabit the island.

Later.—The steamer Preservation, from Galveston, has just arrived. The steamer Nautilus has not been heard from. There is nothing definite from Caillon Island, but there has undoubtedly been great loss of life. It is reported that 30 bodies were found at one end of that island. The loss of property is estimated at \$83,000, and the loss of property at Last Island is estimated at \$100,000. It is supposed that \$10,000 in money, packets belonging to the victims fell into the hands of the pirates, besides \$5,000 worth of baggage.

NEW ORLEANS, August 16.—The late storm was the most terrible ever experienced in this section. There was a number of vessels, besides the Manila, wrecked, and it is supposed all on board perished. Many other vessels went ashore of which we have no particulars as yet. It is believed that the Nautilus foundered with all on board. The names of the passengers are unknown. She was under command of Captain Thompson. The total number of dead is now estimated at over three hundred.

The cotton crop in Louisiana mostly escaped, but gloomy accounts are anticipated in Mississippi.

NEW ORLEANS, Aug. 16.—It is now believed that two hundred and fifty men, women and children perished by the storm! One hundred and ninety bodies have been recovered at Last Island. The total loss of property is estimated at a half million of dollars. The passengers of the Star, it is believed, were all rescued.

Col. Benton on Fremont.

The Hon. Thomas H. Benton, in a letter dated the 10th inst., recommending the withdrawal of the Benton Electoral ticket in Missouri, thus refers to Colonel Fremont:

There is a design here, on the part of some to put up an electoral ticket for Fremont, about which no one speaks to me, as I have character enough to keep at a distance all that class of persons who, dishonorable themselves, could approach a man with a dishonorable proposition. But my sentiments are known, and that I should consider such a step as injurious under every aspect—morally, to Fremont himself from the small vote to ticket would receive—and injurious to the public by aggravating the sectional feeling which now arrays each half of the Union against the other. I was opposing the bringing out of Fremont for nearly half a year before those who charge me with promoting it knew of such design. There are cases in which public duty rises above personal consideration, though there are a great many people who cannot conceive it possible. Thus when I supported Jackson, with whom I had been on ill terms, thirty years ago, the sordid motives of office was assigned for it; now, when I support Buchanan, (with whom I am on ill terms), and support him against a member of my own family, the same class of persons can see nothing in it but falsehood and treachery. Incapable themselves of anything disinterested and patriotic, they believe others to be equally so, and attack, with base motives, all the actions which are above the comprehension of their political morality.

Fremont Ladies in Council.—At a recent picnic party held in this vicinity the "Republican" ladies proceeded to form a "Jessie circle," when a damsel who went for "Fremont, free love, and free fight" entered the ring, and pitching into a masculine acquaintance who had offended her, gave him particular Jessie, to the great detriment of his physiognomy, clothing and tout ensemble. This pugilistic feat was duly applauded, and may be considered as among the first fruits of the feminine political enthusiasm got up by the partisans of "John and Jessie."—Let the Parisian ladies look to their laurels! The fast women of America are also getting to be adepts in politics and other manly accomplishments!—Boston Post.

First Sale of Lands in Kansas Territory.—The President has issued his proclamation authorizing the sale of the eastern portion of the Delaware trust lands, in Kansas Territory. The sale is to take place on the 20th of October, at Fort Leavenworth. These lands, says the Union, have been classified and appraised, and will not be sold for less than the appraised value. The towns and cities laid out on these lands will be sold in lots or blocks. The number of acres to be offered for sale is about 208,823, and the quality of the land is unsurpassed, perhaps, by any other equal body of land in the United States; and the location of the tract, lying and being around Fort Leavenworth, is very eligible, and most desirable for a residence.

The Lost Steamer Pacific.—On Thursday the will of Mr. Joseph Steere, a passenger in the Pacific on her last voyage from Liverpool, was admitted to probate by the Surrogate of New York, the application being among the first that has been made by heirs of parties who took passage in the ill-fated steamer.

The Baltimore Patriot condemns the practice of running excursion trains on railroads, which, it alleges, has been the cause of a large proportion of the railroad accidents that have occurred in this country.

Great Yield.—Sixteen acres on the Elk Island estate of Julien Harrison, of Gouchland, Va., produced the large amount of six hundred and forty bushels of wheat—averaging fifty-three and three quarters bushels per acre.

Fatal Accident.—On Monday, a Mr. McGrim, a farmer residing near Freedom, York county, Pa., was killed by his horse running away, whereby he was thrown from his wagon.

A Big Gun.—A wrought iron cannon has been manufactured in Liverpool, Eng., which weighs 22 tons, and it is said, sends a ball of 300 pounds weight a distance of four miles.

The taxation in St. Louis is \$2 60 on the \$100. In New York it is \$1 38.

In Kentucky the tobacco crop is said to be almost an entire failure.

HOLLOWAY'S PILLS.—Thousands, who live by the sweat of their brows, in all sections of the Union, rely upon this great remedy as the best protection against the disorders of the stomach, liver, and bowels, so prevalent in this climate during the Spring and Fall. In the crowded city, and the frontier settlements, on the sea coast, and on the alluvial soil of the southern and western rivers, they are equally indispensable; for whenever internal disease exists, either in an endemic or epidemic form, they are taken by the cautious as a preventive, and by the sick as a means of cure.

Arrest of a Cut-Purse.—A fellow was arrested on Tuesday morning for cutting a purse out of the pantaloons of a stranger. The latter complained much of the damage to his unmentionables, when Mayor Vaux, who is known as a man of taste, advised the sufferer to obtain a better pair at the Brown Stone Clothing Hall, of Bechtel and Wilson, Nos. 205 and 207 Chesnut streets, Philadelphia.

VALUABLE REAL ESTATE AND MILL PROPERTY, AT PRIVATE SALE.

WISHING to retire from the farming and milling business, I will sell at Private Sale the following valuable Real Estate, known as **Loonst Grove**, situated about one and a half miles S. West from Littlestown, Adams county, Pa.

No. 1.—32 Acres of Meadow bottom of a superior quality of red gravel soil, well adapted to timothy, 2000 bushels of lime having been put on it. The improvements are a large and very beautiful MERCHANT MILL, Saw Mill, Cooper Shop, two Dwelling HOUSES, a Store Room, two Bake Ovens, two Stables, three Hog Pens, Lime-kiln, and all necessary out-buildings. The Mill is built upon the most modern and improved plan. The dam and race are not surpassed by any. Four county roads centre at this Mill.

No. 2.—37 Acres of State land, very susceptible of a high state of cultivation, 8 or 10 acres of which are heavily timbered, with about 10 acres of meadow. The improvements are a large and very complete GRIST MILL and Dwelling HOUSE. This property adjoins No. 1.

No. 3.—A Farm, containing 156 Acres, mostly the red gravel soil, and produces well, 40 to 50 Acres of which are heavily timbered and about 20 Acres of meadow bottom. 10,000 to 12,000 bushels of lime have been put upon the land. An abundance of fruit trees upon the premises. The improvements are a Kitchen, Smoke House, a large Bank Barn, with Wagon Sheds, Corn Crib, Hog Pen, and all necessary out-buildings. This property is also a part of No. 1, and known as above. There is not a more desirable property in the county than **Loonst Grove**, either separately or together. Call and see it. These properties will be sold separately or together, as may best suit purchasers. I will sell on accommodating terms. Any person wishing to view the property will please call on Edward Stable living on the premises, or myself in Gettysburg.

Health or Sickness? CHOOSE BETWEEN THEM.

Holloway's Pills.—The blood furnishes the material of every bone, muscle, gland and fibre in the human frame. When pure, it secures health to every organ; when corrupt, it necessarily produces disease. HOLLOWAY'S PILLS operate directly upon the elements of the stream of life, neutralizing the principle of disease, and thus radically curing the malady, whether located in the nerves, the stomach, the liver, the bowels, the muscles, the skin, the brain, or any other part of the system.

Used Throughout the World!
HOLLOWAY'S PILLS are equally efficacious in complaints common to the whole human race, and in disorders peculiar to certain climates and localities.

Alarmng Disorders.
Dyspepsia, and derangement of the liver, the source of infirmity and suffering, and the cause of innumerable deaths, yield to these curatives, in all cases, however aggravated, acting as a mild purgative, alterative and tonic; they relieve the bowels, purify the fluids, and invigorate the system and the constitution at the same time.

General Weakness—Nervous Complaints.
When all stimulants fail, the renovating and bracing properties of these Pills give firmness to the shaking nerves and enfeebled muscles of the victim of general debility.

Delicate Females.
All irregularities and ailments incident to the delicate and sensitive organs of the sex are removed or prevented by a few doses of these mild—but infallible alteratives. No mother who regards her own or her children's health should fail to have them within her reach.

Scientific Endorsements.
"The London 'Lancet,' the London 'Medical Review,' and the most eminent of the faculty in Great Britain, France and Germany, have eulogized the Pills and their inventor."

Holloway's Pills are the best remedy known in the world for the following diseases:

Asthma	Debility	Liver Complaints
Bowel Complaints	Fever and Ague	Lynx of Spittle
Coughs	Female Complaints	Scalding of the Bladder
Croup	Hemorrhoids	Stone and Gravel
Cholera	Headaches	Secondary Symp-toms
Constipation	Indigestion	Swelling of the Feet
Dysentery	Intoxication	Various Affections
Diarrhoea	Inflammation	Worms of all kinds
Dropy	Inward Weakness	

*Sold at the Manufactory of Professor HOLLOWAY, 80 Maiden Lane, New York, and 234 Strand, London, and by all respectable Druggists and Dealers in Medicine throughout the United States and the civilized world, in boxes at 25 cents, 62 1/2 cents, and \$1 each.

There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box.

Gettysburg Female Academy.

PRINCIPAL—MRS. REBECCA REYNOLDS EYSTER.

THIS Institution, having now passed into the hands of Mrs. R. EYSTER, aided by her husband, the Rev. D. EYSTER, A. M., will commence the Fall term on the fourth Monday of September, (Sept. 22, 1856.)

The studies pursued in this institution embrace all those branches of the mental, moral and natural sciences, usually taught in any of our female Academies or Colleges of the first order, together with the Latin, French and German languages, Music and Drawing.

As the institution is designed to be a Boarding, as well as Day School, the Principals are prepared to receive young ladies from a distance into their family; and parents and guardians may be assured that every arrangement will be made for their comfort.

The morality, refinement and intelligence of the community, together with the remarkable salubrity of its climate, contribute to make Gettysburg a location peculiarly well adapted for an institution of this kind.

For terms per session, list of studies, and references, see circular, or inquire of the Principals.
