THINK OF IT! Friends of Buchanan and Breckinridge -in-Adams-county-in-Pennsylvania-do-fouproperly appreciate the importance of the October election, and the momentous bearing it will have upon the great Presidential battle in November! A letter from an old line Whig of Maryland, to a friend in this place, says that the true friends of the Union-of Buchanan and Breckinridge—throughout that State, are looking in anxious expectation for a glorious result at our first election-been use with it, Maryland is safe for the candidates of the only national party new in existence. Think of this, Democrats, and act upon it!

REMEMBER!

Bear this in mind, for what these political tricksters would once have done, they will, and least of all by voting their ticket.

Henry Clay in Favor of Popular Sovereignty.

HENRY CLAY was no earnest advocate of the doctrine of Popular Sovencianty, as has been and is now the Democratic party of the country. It is the only national view which can be taken of the Slavery question-and because it is so, the Black Republican party, which is sectional in its aims, seeks by every means to weaken our position on the point.-To this end, the Star and the Sentinel are publishing an extract from a speech of Mr. Clay, in which he declared that he "would not vote to extend slavery over territory where it did not exist;" and they would create the impression thereby that he favored the fatal notion of the Abolitionists. We do not know where the extract is taken from, but it may be from his speech of 1850, in which language something like it is to be found. If it is had from that source, however, we would advise our candid neighbors to look twenty lines farther in the same column, and they will find these significant words, asserting emphatically his adhesion to the principle of Popular Sovereignty, as recognized in the Kansas-Nebraska Act. MARK THEM! Mr. Clay, in speaking of the territory acquired from Mexico, said:

"If the citizens of those Territories chose to establish slavery, and if they come here with constitutions establishing slavery, I am for admitting them with such provisions in their constitutions, but then it will be their own work, and not ours.'

At the same time Mr. Clay introduced a resolution in the Sonate, declaring that "it is inexpedient for Congress to provide by law either for its introduction into or exclusion from any part of said territory; and that appropriate territorial governments ought to be established by Congress in all of said territory, not assigned as the boundaries of the proposed State of California, without the adoption of any restriction or condition on the subject of slavery."

Could words go farther to prove HENRY CLAY's cordial and emphatic endorsement of the position of the Democratic party on this Beating around the stump" will not do for important question? If our Know Nothing Black Republican neighbors are not satisfied with these items of testimony on the part of one whom they once professed to respect, we

"Who threaten to dissolve the Union?"-

Who? We will answer the question, cool and unblushing as it is. It is at least the larger wing of that party which has placed in the field a sectional candidate for the Presidency, John Charles Fremont!-nominated as he was by the delegates from one section of the country, to be elected by that section .-It will not do for the Star or Sentinel to pre tend to nationality for their candidate, when the unanswerable fact is borne in mind that But there is individual testimony, "strong as holy writ."

Where stands Garrison, the notorious Atheist, Abolitionist and Disunionist? With Fremont. To PROVE this assertion, let us quote what he says:

"As against Buchanan and Fillmore, it seems to us the sympathies and best wishes of every enlightened freeman must be on the side of Fremont; so that if there were no moral barrier to our voting and we had a million votes to bestow, we should east them all for the Republican candidates."

Where is that other noted Disunionist, Gerrit Smith? He shows it by saying:

"But the true question is not, what is the oust of Mr. Fillmore and Col. Fremont on BREWER, Esqs., and probably others. Slavery, but what is their present on the TURN OUT! The country's good requires subject; and here we find that, whilst Col. Fremont has out-grown his pro-slavery edueation, Mr. Fillmore has apostatized from his anti-slavery education; that whilst COL. FREMONT IS NOBLY ASCENDING THE ANTI-SLAVERY LADDER, AND WILL ERE LONG, REACH THE ABOLITION OR TOP-ROUND, Mr. Fillmore has descended it.

It undertook, some two weeks ago, in order to break the force of Henry Clay's honestly avowed position on the Slavery question, to say that an extract which we had made from his report on that subject in 1850, as it ap peared in the Congressional Globe, was "gar bled." The editor hoped, by his very boldness, to wipe it all away. But he missed his mark. The extract was made with a perfect knowledge of its truth and fulness. We knew that we had the editor, and defied him to show wherein it was "garbled."

Does he do it in his last? "Not a bit of it." But coolly says that he read the "Life and Speeches of Henry Clay," and didn't find it there! Is not that the very quintessence of

The extract was not quoted as from one of his Speeches, but from his Report on the Compromise bills, as it is printed in the Congressional Globe, the official journal of Congress, the page itself being referred to .-Why didn't the editor of the Star apply to that source? He did not wish to. He knew better. He knew that he would find Henry Clay's language there precisely as we have given it—and as it is here repeated. Said

Mr. Clay in that report: "The true principle which ought to regulate the action of Congress in forming territorial governments for each newly acquired domain, is to refrain from all legislation on the subject (of Slavery) in the territory acquired, so long as it retains the territorial form of government --leaving it to the people of such Territory, when they have attained to a condition which entitles them to admission as a State, to decide for themselves the question of the allowance or prohibition of domestic slavery."-(See Congressional Globe, May 10, 1850, page

Ponder the subject well, Democrats of Adams-and bring up your entire force to the first battle:

The State Ticket. The Democratic party is aware that in the ontest that comes off on the 14th of October, it is called upon to fight single handed what our opponents call "the Union State Ticket." That is, some months since, when the materals of their party, if it-is deserving of the name, were more discordant than now, a few political schemers met in Harrisburg and nominated first Thomas E. Cochran for Canal Commissioner, purporting to be an old line Whig, Bartholomew Laporte for Surveyor General, Republican, and Darwin Phelps, for Auditor General, Know Nothing.—The Fremont and Fillmore papers of Pennsylvania both have this ticket flying at their mast head, and the idea-prevails that the friends of each are to vote this Union ticket.

necessity of arousing every man to do his ducy actively, and earnestly at the first election. If there is any man professing our principles and anxious to have our efforts crowned with success, let him go to the polls at the October election, even if he stays at home in November. If there is any one in our ranks who cannot make up his mind to go to both elections, we counsel him to stay away from the second rather than the first. A great many persons are anxious to vote for James Buchauan, and they make up their minds to do so without fail, and they will pay little attention to the October contest, promising themselves to be up and doing in November. The man who acts thus does Mr. Buchanan a positive injury. We wish every man to make up his mind to vote at both elections, but particularly let him exercise his right of suffrage on the 14th day of October. Our opponents are pouring money and political lecturers into every part of this State, in order that the so-called Union State Ticket may be elected. We heard it stated in Philadelphia, last week, that Boston alone had sent \$90,000 into Pennsylvania on its flags, with the pledge that "Mountto aid in the election of Fremont. We must meet this desperate party and foil it in our State election. We have the strength to do it, and it must be forthcoming at the hour of to order, and proposed the following gentleneed. Let, then, every Democrat and every true friend of James Buchanan, be on-the election ground on the 14th day of October.

One word, in conclusion, to Fillmore men in regard to voting the "Union State Ticket." Is there one single man on that State Ticket who will vote for, or desires the election of Millard Fillmore? Not one! It is well known that all three of the candidates are Fremont men. They are only anxious that the vote for him. He had accompanying him a Fremont party should carry the State. All their efforts are for Fremont, and against Fillmore, and yet the friends of Fillmore propose to vote a ticket that can only aid and assist lin county on account of his extraordinary de- the cause of the so-called Republicans. Will they do it? The Fillmore presses and speakors everywhere denounce the Black Republicans, as they do not hesitate to call them, in the most unsparing manner, and yet the honest men of that party, the union loving men in the ranks of Filmore, are called upon to vote a Fremont State ticket—a ticket made up of persons who are deadly hostile to Mr. Fillmore. Will they vote this ticket? Are But the falsehoods without number which | they to be duped by so transparent a decepnionists who are in his train, with far greater Fillmore will do so.

"The principles there asserted by him are those of the highway robber, when he asserts it a duty, if Spain refuses to sell Cuba, that we must take possession, because necessary to our self-preservation."

Rather than accept Mr. Barney's version of the Osten I manifesto, let us quote the precise words of that instrument upon the subject brought in review. They are as follows:

"After we shall have offered Spain a price or Cuba far beyond its present value, and this shall have been refused, it-will then be time to consider the question, Does Caba in the possession of Spain seriously endanger peared in the Ledger, recently, proposing the our internal peace and the existence of our cherished Union? On last Thursday evening about senset, according to previous notice, there was a delegation from Gettysburg, numbering some twelve or fifteen persons, arrived in our quiet rillage, and after some "shuffling" about the proper place for a stand—the meeting, consisting of some twenty or twenty-five of these latter-day saints, the above delegation, and about the same number of Simon pure Jackson Democrats-was called to order in front of Mr. Hugh King's dwelling, the services commencing with two hymns, depicting in terrible colcurs the wrongs of "bleeding and outraged Kansas," after which Mr. D. But I wish to slip over that and call your attention to an incident that transpired during the evening. Previous to the organization of the meeting, the sky had remained as clear as the eye of man ever rested upon, without a "star obscured," but shortly after the meeting was called to order there was noticed rising in the South-western portion of the heavens, a singular black cloud, only one, which taking a course across the firmament, directly over the heads of the assemblage, where for a moment it seemed to linger, and then continuing on, it hid itself behind the north-eastern hills, at the very moment the meeting closed. I am not disposed to be superstitious by any means, but why this one black cloud, yes, black as the very principles which those men avowedwhy was it that there was not any more than that one to be seen in the vast heavens, and its course, its lingering over that benighted crowd? Can any one explain it?
