The Star and that "Vile Story."

For the Compiler. Mr. Epiren:-The Know Nothings object to Fremont because they say he is a Catholic. although they will contend that the religious A spirited Democratic meeting took place test has been abolished. This is but another at Caledonia Springs on Monday afternoon and a stronger proof of their intolerance and bigotry, for while they pretend to telerate the Catholic in their platforms, they continue to proscribe and point him out in their speeches and journals). The same deception and the Robert Bleakney, Thomas A. Marshall, Jacob | same low, mean and truly sordid and rectarian bigotry are also plainly manifested on the part of the Black Republican sheets, in their stremuous endeavors to contradict and refuto this to them vile charge of the Know Nothings, in regard to Fremont's Catholicity.

> While these Know Nothings and Black Republicans are thus quarrelling and wrangling among themselves about the qualifications and religion of their candidates for the Presidency, they notwithstanding are uniting and lovingly fusing on the County and State tickets, and their leaders in this county are now lustily and loudly calling on Know Nothings and Catholics, Nacive Americans and Foreigners. Fillmoreites and Fremonters, to come up to the trough together, and vote for such men as Squire Kepner and Doctor Stuart, who have no other qualifications or claims for the positions they occupy, than that they clung to the Democratic party until the order of the dark lantern was instituted, for the sole purpose of picking up such Democrats as could be rulled through religious bigotry, and caught with the chaff and cheat of Know Nothingism.

The Star in its last number again shows its "cloven foot," on the Catholic question, although it has been trying to hide it for some time past, with the view of catching Catholic votes. It makes the following comments on a letter which it publishes contradicting the vile story of Fremont's Catholicity. "What more can any man ask than the emplistic denial of Col. Fremont himself of the vile story of his being a Catholic."

Can Catholies or liberal Protestants conscientiously and consistently fuse with these two parties, on the State or County ticket, while one of them in seeking to prejudice the claims of Fremont for the Presidency, thinks there is no more certain or successful mode of doing so than by charging him with being a Catholic; and the other, in contradicting and repelling a charge which no liberal man, and no true American would consider prejudicialor criminal, considers and proclaims it a "rile story." Therefore, according to the habits and practices of Fremonters as well as Fillmoreites, it is a vile thing to be a Catholic. S.
