The Farmer.

VALUE OF SHEEP TO THE FARMER.

It is of more importance to the farmer than is generally supposed, that a certain portion of his farm-stock should consist of sheep. Speaking on this point, R. S. Fay, of Lynn, recently remarked at an Agricultural meeting in Boston, (as reported in the N. E. Farmer,) "Sheep are gleaners after stock, and will help keep the cattle pasture in good condition by being turned into them occasionally, to eat the coarser plants which have been left. They will enrich the land; there is no manure so fertilizing as that of sheep, and it does not so readily waste by exposure as that of other animals. Sheep may be made exceedingly useful in helping to prepare land for a crop. A German agriculturist has calculated that the droppings from one thousand sheep, during a single night, would manure an acre sufficiently. By that rule a farmer may determine how long to keep any given number of sheep on a particular piece of land. Mr. Fay said he was accustomed to fold his sheep upon land which he designed for corn and other crops; and in so doing he shut them there by a wire fence, which was easily moved from place to place. In this way his land was well manured without the labor of shoveling and carting."

These ideas are worth reading by the farmer. We believe any farm will bear a certain number of sheep, in proportion to the other stock, not only without loss to the amount of grazing which it will yield to the cattle and horses, but to the increase of the same. Mr. Fay, by his management, makes the lambs and manure pay for keeping the sheep, and the wool is clear profit.

How to Protect Fruit Trees injured by Mice.

E. M. Bradley, Esq., of East Bloomfield, in a letter to the Rochester Democrat, says:

I noticed in your paper of to-day, an article copied from the Buffalo Express, relative to damage sustained by mice eating the bark from the young trees during the late severe winter; and stating that individuals have suffered from $800 to $1000 each from this cause alone. I write for the purpose of suggesting to all who may have suffered in this way, that if they will take the trouble to protect the injured part of the tree from the air, in nine cases out of ten the tree will thrive and show but very little injury from the wound. A very economical and expeditious method of accomplishing this is to take a dish of grafting wax, kept sufficiently warm to spread easily, and apply the wax to the wounded part with a common paint brush, and pressing on to this a small piece of wrapping paper or cotton cloth, to keep the wax from running when the sun shines upon it. Pieces of tarred or waxed cloth tied tightly about the wounded part, will effect the same end, but the former method is cheaper and more easily applied.

I have in this way saved many valuable trees that had been badly eaten, and any one not acquainted with the process would be surprised to see how many trees could be saved in this way in a single day. A single man will dress from two to four hundred trees in one day in the above manner, with his material conveniently prepared, and at a very trifling expense.

How to Plant Potatoes.

A pamphlet has been published in Scotland, by a farmer named Craig, on the potato disease and its cure.—By planting three different kinds of potatoes together last year, very favorable results were achieved. Two out of the three varieties planted had been, on previous occasions, affected by the disease, but all were found to be perfectly healthy and sound when dug, and experience has shown that they kept well during the winter.—He believes that the potato disease may be safely attributed to the violation of one of the laws of nature, the plants being too closely bred, or in other words, "sub-breeding."

The lesson we derive from this is that two or more varieties of potatoes should be planted in each hill.

It is only necessary to say, that after very many years of experience, and being fully conversant with all of the various kinds of Stoves which have been invented on the down-draft principle, that I have taken advantage of every well known improvement that has from time to time been made, particularly in reference to the formation and construction of the flues, which are always necessary to be large, and I have fully applied every improvement and combined them all in the "*Sunrise Air-Tight Cooking Stove.*" This Stove is made very heavy and is a good substantial article: I have made them *extra heavy* in all parts where long experience has proved it to be important, and I can assure my customers, that I have spared neither pains nor expense in getting it up: and it will not be excelled by any stove now known, of a similar character. I am convinced that it will at once become a Standard Stove.

I have fully tried them in every way, with WOOD and COAL and strongly recommend them to the public. They operate in the most satisfactory manner.

Health or Sickness?

CHOOSE BETWEEN THEM.

Holloway's Pills.—The blood furnishes the material of every bone, muscle, gland and fibre in the human frame. When pure, it secures health to every organ: when corrupt, it necessarily produces disease. HOLLOWAY'S PILLS operate directly upon the elements of the stream of life, neutralizing the principle of disease, and thus radically curing the malady, whether located in the nerves, the stomach, the liver, the bowels, the muscles, the skin, the brain, or any other part of the system.

Cure Thyself, for the World!

HOLLOWAY'S PILLS are equally efficacious in complaints common to the whole human race, and in disorders peculiar to certain climates and localities.

Alarming Disorders.

Dyspepsia, and derangement of the liver, the source of infirmity and suffering, and the cause of innumerable deaths, yield to these curatives in all cases, however aggravated, acting as a mild purgative, alterative and tonic: they relieve the bowels, purify the fluids, and invigorate the system and the constitution at the same time.

General Weakness—Nervous Complaints.

When all stimulants fail, the renovating and bracing properties of these Pills give firmness to the shaking nerves and enfeebled muscles of the victim of general debility.

Delicate Females.

All irregularities and ailments incident to the delicate and sensitive organs of the sex are removed or prevented by a few doses of these mild, but infallible alteratives. No mother who regards her own or her children's health should fail to have them within her reach.

Scientific Endorsements.

The London "Lancet," the London "Medical Review," and the most eminent of the faculty in Great Britain, France and Germany, have eulogized the Pills and their inventor.

Holloway's Pills are the best remedy known in the world for the following diseases:

Ague and Fever	Debility	Liver Complaints
Bowel Complaints	Fever and Ague	Lowness of Spirits
Coughs	Female Complaints	Piles
Colds	Fistula	Stone and Gravel
Chest Diseases	Headaches	Secondary Symptoms
Costiveness	Indigestion	Venereal Affections
Dysentery	Influenza	Worms of all Kinds
Diarrhœa	Inflammation	
Dropsy	Inward Weakness

This Association is founded upon honest and fair principles. Each book purchaser gets the value of his money in the book, and on account of the great number sold, becomes a share holder in much valuable property. A certificate will be presented to each book purchaser entitling the holder to an interest in the above valuable property. As soon as the books are all sold, notice will be given to the stockholders and a convention will be held at Newville, at the Institute's Hall, when a committee will be chosen, to whom the property will be delivered, to be distributed among the shareholders. All the articles that can, will be exhibited at the Institute's Fair on the 12th August. From the very flattering manner in which this Joint Stock Association is received and patronized, and from the number of tickets already sold, it is confidently believed that the property can be delivered to the shareholders in a few months. For the character of the "BIG SPRING LITERARY INSTITUTE," and those connected with it, we are permitted to refer to the following gentlemen:

References:—Hon. James Pollock, Gov. of Penn'a.; Hon. Thaddeus Stevens, Lancaster; Hon. Judge Frederick Watts, Carlisle; Senator Wm. H. Welsh, York; Hon. Wm. F. Murry, Harrisburg; Wm. F.
