The lowa Legislature is now in session, devoting all of its time to speculating about national matters over which it has no jurisdiction-expending the peoples' money for that which is worse than nothing. The people will remember this is done by a party always preaching economy. The Ohio Legislature is soon to go through a faree meeting to legislate on that which legitimately comes under its jurisdiction, but the real object of the members is to run their heads and shoulders into the treasury, speculate over blood and. murder in Kansas, and perhaps they may attempt the passage of a law to give to the negro the privilege of voting, and compell the get his naturalization papers.—Greenville Democratic

Holloway's Pills are the only reliable remedy for the sexual disabilities and disorders of females. In cases where the functions peculiar to the organization of the sex have been suppressed, suspended, or in any way disordered, the mild and conservative action of the Pills will speedily restore their regularity. The terrible diseasus which rebuilt from a neglect of these derangoments, are well known to all physicians; and it is of the atmospimportance that the means of their prevention should be within the reach of the whole sex. The subject is one upon which it is impossible to enlarge in the columns of a newspaper, but it would a year little eyre for the sufferings of the forbler portion of the human race, to passit over in silence.

lows: -Burton, an officer of the East India No. 3. - A One-story Brick Building, Company, having by a long residence in Upper India, acquired a perfect knowledge of the Oriental language and customs, projected a visit under the auspices of the Royal Geographical Society, to the Holy City of Mecca and the Tomb of the Prophet at Medina, places rarely if ever before witnessed by any Englishman.-This he successfully accomplished in 1853-4. disguised as a Mahommedan Dervish. The history of the pilgrimage is not surpassed in interest and originality by any book of travel ever published -embracing his residence at Cairo as a Mahommedan Student; the journey agoss the desert with the great annual caravan of Pilgrims: the visit to the Tomb of Mohammed: the discovery that the sacred black-stone of Mecca is an aerolite; the annual sermon preached at Mecca to an audience of 150,000 Pilgrims, gathered from all parts of the Moslem world; his narrow escape from detection. and the only accurate account of the ceremonies of the Moslem faith.

To the religious community this work furnishes information never before made public, respecting the ceremonial laws of a large proportion of the Eastern World: while for general interest, Barton's narrative will compare favorably with either Eothen, or Clescent and whe Cross.
