Local Matters.

DESTRUCTIVE FIRE .- Mr. JACOB BREAK, Mill, in Huntington township, has met with uable horses, three wagons, a family carriage, and farming implements, three or four hundred bushels of wheat, and large quantities of hay and straw. A good stable, near the barn, was also consumed.

That it was the work of a dastardly incendiary, no person doubts who recollects that the same gentleman lost a most valuable stallion by poison about ten days previous to the burning of the barn. The fowls about the yard which ate of the grain in the trough where the horse was kept died.

It will further be recollected that Mr. Conrad Bream, a relative, who resides in the same neighborhood, had a new brick house destroyed by fire some three weeks since. No insurance on either of the properties. Mr. Jacob Bream's loss is estimated at \$3,500.

WORTH SEEING .- Apiarists and all who feel an interest in Bees, will find a "family" of them on exhibition at Wattles' Hotel, in this place, that will please them no little.-They are "working" in a hive or box of Stoddard's Patent, which is for sale here by Messrs. RITNER & MYERS-selling boxes with family rights. Our attention having been directed to the many excellencies of this patent, we can from observation bear testimony to them. All bee keepers should have these boxes.

WHITEWASHING .- As the whitewashing senson is coming on apace, we publish | houses, look over the patterns, select one to suit their the following recipe for the benefit of our tidy housewives, who are ever ambitious to make everything ab out them look "as clean as a new pin." It is said to be an excellent recipe for a wash:

CHOICE FARM LANDS

FOR SALE. THE Illinois Central Railroad Company

is now prepared to sell about 1,500,000 Acres of

GHOIGE PARMING LANDS,

and at low rates of interests. These lands were granted by the Government to aid in the construction of this Road, and are among the richest and most fertile in the world. They extend from North East and North West, through the middle of the State. to the extreme South, and include every variety of climate and productions found between those parallels of latitude. The Northern portion is chiefly prairie, interspersed with fine groves, and in the middle and Southern sections timber predominates, alternating with beautiful prairies and openings.

The clunate is more healthy, mild and equable, than any other part of the country—the air is pure and bracing, while living streams

and springs of excellent water abound. -Bituminous Coal is extensively mined, and supplies a cheap and desirable fuel, being furnished at many points at \$2 to \$4 per tonand wood can be had at the same rate per cord. Building Stone of excellent quality also abounds, which can be procured for little more

than the expense of transportation. The great fertility of these lands, which are stock of a black rich mould from two to five feet deep. and gently rolling, their contiguity to this and all Goods in that line, is extensive. Cheap Road, by which every facility is furnished for travel and transportation, to the principal markets North, South, East and West, and the economy with which they can be cultirated, render them the most valuable investment that can be found; and present the most favorable opportunity, for persons of industrious drabits and small means, to acquire a comfortable independence in a few years.

Chicago is the greatest grain market in the world-and the facility and economy with which the products of these lands can be transported to that market, make them much more profitable, at the prices asked, than therefore who are indebted to me, either by those more remote at government rates, - as the additional cost of transportation is a perpetual tax on the latter, which must be borne by the producer, in the reduced price he receives for his grain. &c.

The Title is Perfect-and when the final payments are made, Deeds are executed by the Trustees appointed by the State. and in whom the title is vested, to the purchasers, which convey to them absolute titles in Fee Simple, free and clear of every incumbrance. lien or moragage.

The Prices are from \$6 to \$30 ; Interest only 3 per cent. Twenty per cent. will be deducted from the credit price for Cash.

Those who purchase on long credit, give notes payable in 2, 3, 4, 5 and 6 years after date, and are required to improve one-tenth annually for five years, so as to have one-half the land in cultivation, at the end of that

Competent Surveyors will accompany those who wish to examine these Lands, free of charge, and aid them in making selections.

The Lands remaining unsold are as rich and valuable as those which have been dis-

posed of. Nectional Mans will be sent to any one who will enclose fifty cents in Postage Stamps, and Books or Pamphlets, containing numerous instances of successful farming, signed by respectable and well known farmers living in out the State-also the cost of fencing, price richest and cheapest stock you ever laid your of cattle, expense of harvesting, threshing, etc. -or any information-will be cheerfully given on application, either personally or by letter, in English, French or German, addres-
