

# COMPILER.

## Local Matters.

"A SIMPLE STATEMENT."—The following letter, which we received on Tuesday evening, is decidedly to the point, and fully sustains the position of the Compiler, in the McGrawn affair. We give it place most cheerfully:

LANCASTER, April 27, 1857.

HENRY J. STABLE, Esq.—Sir: As I brought the boy, McGrawn, from Mt. St. Mary's College, I suppose I am the person designated by the Star in its issue of Friday, April 10th, as the "gentleman authorized to demand his discharge from the officers of the College," although I visited the College in consequence of a letter written by the president of that institution to the boy's guardian, requesting him to have the lad taken home immediately, and authorized to obtain, if possible, permission from the officers of the College for him to remain there; but, on account of his former bad conduct, they considered his removal absolutely necessary. Neither the boy's guardian nor I thought the intermeddlers for their pains; they have not been the child's friends, but his enemies, and their interference was unequalled for, and without any authority, or reason for pretending to have any, for asserting that the boy's guardian was discontented with his treatment at the College, or took him away because of such discontent.

Yours respectfully,  
BERNARD J. MCGRAWN.

LITTLESTOWN RAILROAD.—On Friday week, the stockholders of the Littlestown Railroad located the depot at Littlestown, and on Tuesday last they located the road. This road will be pushed ahead with energy to its final completion.

—Kneffeler & Co. lately paid \$1,000 for one-third of an acre of land in Littlestown.

FOR KANSAS.—Some twelve citizens of this county left for Kansas and Nebraska, on Monday week. Among them we have learned the names of Ira Shipley, George Hildebrand, and John L. Wolf, from East Berlin, and Oliver Myers, and a son of Dr. Stewart, from York Springs. Some intend to locate permanently—others go to make observations.

Wm. W. Wright, Esq., son of Wm. Wright, near York Springs, in this county, has been selected as Chief Engineer of the Central Division of the Ocean Railroad, to be built across the State of Honduras, Central America. He formerly had charge of the Western Division of the Pennsylvania Railroad, and subsequently was engaged as Chief Engineer on an important Railroad in Alabama. Of late his home has been at Harrisburg. He is regarded as a very able man in his branch of business.

The School Directors throughout the county are to meet at the Court-house, to-day, to select a County Superintendent of Common Schools for three years, and fix his salary.

GUILTY.—A letter from a friend at York informs us that Washington C. Hartman was, last week, found guilty of firing the stable of John L. Mayer, in that place, in September, 1855. There are still two indictments pending against him.

## Medical Ultraism.

If there were health in a multitude of medical systems as there is said to be wisdom in a multitude of counsellors, sickness would be unknown in this age of so-called pathological discoveries. The homeopaths tell us that the salutation of our lives in sickness depends upon infinitesimal doses and infinite dilution; the hydropaths profess to rain health upon us from shower baths, or soak disease out of us with wet blankets; while a still newer set of exclusives propose burying us up to the armpits in the earth—putting both feet in the grave as it were, by way of saving our lives! Then, we have Sangreos, who are all for bleeding, blistering, and low diet; and mineralists, who believe in nothing but mercury and its oxides. It happens, unfortunately, however, for all these theorists that they can show no practical proof of the assumed infallibility of their methods of cure. Not so Professor H. Halloway, who has really inaugurated a new era in the history of the healing art, and whose medicines for the last twenty years have annually rescued tens of thousands from impending death. This is no assumption, but a fact verified by the unimpeachable evidence of a "cloud of witnesses." The archives of his central offices in London and New York, contain more than half a million of manuscript certificates, authenticated in the strongest manner, and placing beyond the possibility of doubt the infallibility of his Pills and Ointment in nineteen-twentieths of the maladies to which man is subject. Great Britain, the Continent of Europe, India, China, Australia, the United States, the West Indies, British America, every civilized land, and every country to which the pioneers of civilization, commercial and religious, have found their way, ring with the fame of these all-conquering remedies. There is no written language in which he cannot produce testimonials of their efficacy, no printed one in which they are not advertised and recommended. Such is the demand for them in all parts of the world that they may be justly called a great commercial staple, and the number of agencies for their sale amounts to tens of thousands!

Professor Halloway, whose comprehensive

mind is the motive principle of this immense system of popular dispensaries, is now in this country. His manufactory for the Continent is at New York, and there is no newspaper in the Union that has not endorsed his preparations; no city or town within the same limits, where they are not known and appreciated. These facts speak for themselves, and clearly show that while so many medical dogmatists have been groping in the dark, he has actually discovered and applied the true and only means of eradicating the primary causes of disease in the human system.—N. Y. Sunday Times.

Sunday Life in Chicago.—Here is a picture of Sunday life in Chicago, a city now and for some time under Black Republican administration. It is furnished by the Times:

"Here in Chicago on Sunday we have 50 churches open during the forenoon and evening; but at the same time there are no less than eighty ball rooms, each of which the 'band' plays from morning till midnight, and waltzing goes on without intermission. In addition to these 'festivities' we have two theatres, each with its performers in flights and very short garments, rivaling Kishler in their graceful evolutions. Saloons have their front doors closed by proclamation, but do a thriving business through side entrances."

What Next?—A novelsuit is before the Hunterdon county (N. J.) circuit court, brought by the Union Bank for Frenchtown against Hadnut and Snyder for maliciously conspiring to draw specie from the said bank by presenting its notes to redemption, with the object of breaking the bank! The damages are laid at \$5,000! We shall next hear of some debtor bringing a action for bail against his creditor for presenting a bill for payment at a time when his inconvenient for the debtor to be troubled with such little remembrances of the obligation he owes to others.

Heavy Damages.—A ass was tried last week in the Common Pleas of Cumberland county, Pa., for slander, a which Abraham Swartz was plaintiff and Jacob Remington defendant. The latter, it appears, declared in the public market in Harrisburg, before a number of persons, and in other places, that he believed the former had a hand in a murder committed in that county a year ago. The jury awarded the plaintiff \$2,500 damages.

We learn from the Kingston Journal that, on the 15th of April, H. B. M. brig came into St. Ann's Bay, having in tow an American schooner with 23 slaves on board, from Africa bound for Cuba. The name of the schooner is not given. Great excitement prevailed at St. Ann's in consequence of this affair.

It has become an established fact that Dr. Sanford's Investigator will cure Liver Complaint, Jaundice and General Debility. Many people, personally known to us, whose word cannot be doubted, have given their certificates to prove this, and with such a mass of evidence who can doubt.

It is truly the health's friend, and will give relief when all other remedies fail, and in some instances that have come under our observation it seemed the means of snatching its victim from the grave. We wish all our readers who need medicine would try one bottle, for it will surely give relief.

A. D. Bueler, Agent for Gettysburg; Wm. Berlin, Harrisburg; and Charles R. Henry, Abbotstown.

Wood's Hair Dress.—This admirable article is rapidly improving the hair. No article of a similar kind, now before the public, enjoys a better reputation as a restorative and invigorating hair tonic. Its peculiar chemical qualities have a beneficial effect upon the growth and character of the hair, giving a silky and glossy texture to that which was formerly of coarse and dry nature. It has, also, we understand, a tendency to preserve the youthful color and appearance of the hair, and destroying or counteracting the effects of age. With such recommendations in its favor, we hardly perceive how any lady or gentleman should be without a valuable adjunct to their toilet. The article may be had of the Druggists throughout the country.—Missouri Democrat.

MARK A BEGINNING!—Remember in all things that you do not begin you will never come to an end. The first seed sown in the ground, the first dime put in the savings institution, small important things; they make a beginning, and thereby assure, a promise, a pledge, an assurance that you are in earnest with what you have undertaken. How many a poor little dollar, worthless as it seems, is now enabling its possessor to walk through the world, who might have laid up his head and prospered, if he had only commenced to-day if he had only made a beginning with a FIRST DIME PUT SAVING INSTITUTION.

FIFTY YEARS LATER.—Bishop Clark, in a recent lecture on the subject, said, "Fifty years hence, she newly married pair will step into an emporium for the sale of houses, look over the patterns, select one to suit their tastes and means, order it, and it will be sent home in the morning, put together, and occupied at night." But fifty years hence they will find no better garments than those now sold by Lockhart and Wilson, at the Brownstone Clothing Hall, No. 205 and 207 Chestnut street, Philadelphia.

Halloway's Ointment and Pills.—Dropsical swellings in the limbs are uniformly reduced by the application of this Ointment. It must be broken rubbed in, and in due and all other cases of external disease or injury, its advisable to foment the part affected with warm water before using the preparation. As a cure for more heinous effects are wonderful. In ten minutes after applying the Ointment or internal pills, the pain and throbbing cease. Every species of sore, boil, tumor or eruption, yields readily to its soothing, healing, disinfecting influence, and, in fact, its salutary effect on superficial maladies is only equalled by that of Halloway's Pills on all internal diseases.

Wouldst thou have me well, mother, A dying maiden said, Wouldst thou have me well, mother, When death I do not dread? Wouldst thou have me well, mother, To battle with the world, To live amid temptation, Where Satan's darts are hurled? Wouldst thou have me well, mother, And then be but a slave, And sin against my Saviour, Would that I could give thee pain?

Wouldst thou have me well, mother, And absent from my land, And all the full fruition, Depend on his word? Dry those burning tears, mother, And weep no more for me, For in a few more moments, With Jesus I will be. And then my own dear mother, I'll strike the trembling strings, That vibrant heaven's music, To praise the King of kings. Now father, brother, sister, mother, We must, alas, must part—By time and distance only, For O, we'll not be parted! This world is to the other, By ties unbroken bound. By ties of love and mercy, That all mankind around. Now lay me down once more, mother, And with the saints I'll sing: O, grave where is thy victory, O, death where is thy sting.
