PROPOSALS.

PROPOSALS FOR MATERIALS FOR THE NAVY.

NAVY DEPARTMENT,
BUREAU OF STEAM ENGINEERING,
May 23, 1863.

SEALED PROPOSALS to furnish materials for the Navy for the fiscal year ending 30th June, 1864, will be received at the Bureau of Steam Engineering, until the 20th DAY OF JUNE NEXT.

Proposals must be endorsed "Proposals for Materials for the Navy," that they may be distinguished from other business letters, and directed to the Chief of the Bureau of Steam Engineering.

The materials and articles embraced in the classes named are particularly described in the printed schedules, any of which will be furnished to such as desire to offer, on application to the Commandants of the respective yards, or to the Navy Agent nearest thereto, and these or all the yards upon application to the Bureau. This division into classes being for the convenience of dealers in such portions only will be furnished as are actually required for bids. The Commandant and Navy Agent of each station will, in addition to the schedule of classes of their own yards, have a copy of the schedules of the other yards for examination only, from which may be judged whether it will be desirable to make application for any of the classes of those yards.

Offers must be made for the whole of the class at any yard upon one of the printed schedules, or in strict conformity therewith, or they will not be considered. In computing the classes the price stated in the column of prices will be the standard, and the aggregate of the class will be carried out according to the prices stated.

The contracts will be awarded to the lowest bona fide bidder who gives proper security for its fulfillment. The United States reserves the right to reject all the bids for any class, if deemed exorbitant.

All articles must be of the very best quality, to be delivered in the Navy yard in good order, and in suitable vessels and packages, properly marked with the name of the contractor, at the cost, charges and risk of the contractor, and in all respects subject to the inspection, measurement, count, weight, &c., of the yard where received, and to the entire satisfaction of the Commandant thereof.

Bidders are retained by the Commandants of the respective yards for samples, dimensions, or particular description of the articles, and, all other things being equal, preference will be given to articles of American manufacture.

Every offer, as required by the law of 10th August, 1846, must be accompanied by a written guarantee, the form of which is hereunto given.

And also by a certificate, signed by the Collector of Internal Revenue for the District in which the bidder resides, that he has a license to deal in the article for which he proposes, or by an affidavit signed by himself and sworn to before some magistrate authorized to administer such oath, that he is a manufacturer of, and regular dealer in, the articles which he offers to supply.

Those only whose offers may be accepted will be notified, and the contract will be forwarded as soon thereafter as practicable; which they will be required to execute within ten days after its receipt at the Post-office or Navy agency named by them.

The contracts will bear date the day the notification is given and deliveries can be demanded.

Security in the full amount will be required to sign the contract, and their responsibility certified to by a United States district Judge, United States District Attorney, Collector, or navy agent. An additional security twenty per centum will be withheld from the amount of the bills until the contract shall have been completed; and eighty per centum of each bill approved in triplicate by the Commandants of the respective yards, will be paid by the Navy Agent at the points of delivery in certificates of indebtedness or Treasury notes at the option of the Government.

It is stipulated in the contract that if default be made by the parties of the first part in delivering all or any of the articles mentioned in any class bid for in the contract, of the quality and at the time and place above prescribed, then, and in that case, the contractor and his sureties will forfeit and pay to the United States a sum of money not exceeding twice the amount of such class, which may be recovered from time to time, according to the act of Congress in that case provided, approved March 3, 1843.

Bids must not contain clauses for more than one yard in the same envelope, and bidders are requested to endorse on the envelope the Navy-yard for which the bid is made.

Form of Offer.

Which from a firm must be signed by all the members:

I, ——, of ——, in the State of ——, hereby agree to furnish and deliver in the respective Navy Yards all the articles named in the classes hereunto annexed, agreeably to the provisions of the advertisement of the Bureau of Steam Engineering of May 23, 1863. Should my offer be accepted, I request to be addressed at ——, and the contract sent to the Navy agent at ——, or to ——, for signature and execution.

Signature, A. B.

Witness.

The schedule which the bidder encloses must be pasted to his offer, and each of them signed by him. Opposite each article in the schedule the price must be set, the amount carried out, the aggregate footed up for each class, and the amount likewise written in words. If the party who bid did not reside in the place where the articles are to be delivered, they must name in their offer a person to whom orders on them are to be delivered.

Form of Guarantee.

The undersigned, ——, of ——, in the State of ——, and ——, of ——, in the State of ——, hereby guarantee that in case the foregoing bid of ——, for any of the classes therein named, be accepted, he or they will, within ten days after the receipt of the contract at the post office named, or Navy Agent designated, execute the contract for the same with good and sufficient sureties; and in case the said —— shall fail to enter into contract, as aforesaid, we guarantee to make good the difference between the offer of the said —— and that which may be accepted.
