

Union State Ticket. FOR GOVERNOR: ANDREW G. CURTIN, of Centre. FOR JUDGE OF THE SUPREME COURT: DANIEL AGNEW, of Beaver.

REVEREND in our columns, to-day, will find the reply of the Ministers of Pittsburgh and Allegheny to the Address of the Anti-Slavery Conference held in Manchester, England, June 1, 1868.

Why a Democrat Supports Curtis. The Hamilton Globe, a journal of the Democratic party, has published an article in which it is stated that the Democratic party in Hamilton county for many years, and earnestly opposed Curtis's election in 1860.

Missouri—The Lesson it Teaches. A recent letter from St. Louis says: "The indignation visited upon the commanding general and his subordinate officers of this department, which has been long accumulating, has now burst forth in the Lawrence massacre, is not confined to the widows and orphans of that locality, nor yet the loyal people of that border, who never cease to dread the crack of the guerrilla's rifle; nor to the Unionists of that State, and in the vicinity of St. Louis, who have been struggling under the lead of a so-called 'conservative,' a man whose name is known to every citizen of Missouri, and who has been the cause of all our troubles."

Important Discovery in medicine—Bromine as a Remedy for Gonorrhoea. The Memphis Bulletin informs us that a great success has been achieved in the treatment of gonorrhoea. The experiments which have led to this discovery were conducted by Dr. HANCOCK, Surgeon-General of the United States Army, and followed by Professor BRAINARD, of Chicago. But three gentlemen conducted the experiments, and the results were as follows: In the first case, a patient was treated with bromine, and the result was a complete cure in ten days.

A Letter from Thurlow Weed. Mr. Weed has long been in the Albany Journal, from which we make a few extracts: DEMOCRACY DIVORCED. As a party they are either controlled, or beguiled, or paralyzed, by disloyal influences. If in their speeches and resolutions the rebellion is spoken of, it is with "cautious breath." They treat it tenderly. With treason and traitors, they "rear up their gentleness."

Our Irish readers will be interested to learn that the city of Boston, the Northern city, has just been elected, in any part of the city at any time of the day or night, you have saved 40 per cent of the yearly expense of administering the government of the city. For Heaven's sake, put off the election as long as you can.

The National Elite in New Orleans. A correspondent writes: "We find that the military city government has paid debts repudiated and over due, and necessary expenses additional to the expense of any former government, the enormous sum of \$300,000, and yet the sum total of the expenses is \$720,000 less than in the year before, while the city was governed by Secessionists duly elected by the people."
