THE WORK TO-DAY

We never saw a time when there was so little occasion for a rallying cry to the rebels as now. The people are thoroughly aroused, and this night will tell a story that will do more to restore the Union and free the slaves than any victory that has been achieved since the war began.

The time for talking is past, that for working has come. Bear in mind, friends of the Union, that at every election, however important, some votes are lost through ignorance and neglect. As far as possible this loss should be avoided to-day. Let each man work to bring out a full vote, and every man should be given the opportunity to vote for the Union, and for the free man.

The Election and the County Ticket. The people of the county of Allegheny have every motive to turn out to the polls to-day in all their strength—that strength which has given to this community the glorious title of the Banner County.

Non-Mosses have, for many years occupied public positions. With a private character they represent a public record without a flaw, which is a record of many years, with superior qualities of mind and heart, no man in the county could be selected more eminently qualified for reelection to the position which for the last ten years he has so well adorned, than James H. Stewart.

James H. Stewart is before the public for the first time. An upright and an able man, whose name is a good omen, he will adorn the position. No man in the county has more ardent friends, and no one deserves them more than he.

Wm. H. Davis, although a young man, has a large acquaintance with legislative duties, which will prove of great benefit to his constituents. He has given evidence of great ability in the campaign, and his future is looked forward to by his friends with hope and pride.

The Hon. T. J. Brown, but little need be said. He is well known to the community as a legislator who is possessed of great experience and intimate acquaintance with legislative rules and practice. He will be, as he has already proved himself, a valuable man for the county in that position.

The Copperheads and the National Debt

The Copperheads and the National Debt. The Copperheads and the National Debt. The Copperheads and the National Debt. The Copperheads and the National Debt.

If any one wishes to keep the national debt at the lowest possible figure, let him vote the Union ticket to-day; for the success of that ticket will deprive and subvert the rebels more effectually than anything else. That will stop the national debt, and the debt need not be increased any further.

The First says, "There will be another draft." Non-sense! Why are we going to give the left wing of the rebel army such a day that there will be no further need of a draft. That done, our gallant soldiers will make short work of the right wing.

CITIZENS OF FOREIGN BIRTH!—Can you be deluded by party-leaders to degrade yourselves so far as to vote for George W. Woodward, a starchy farmer, an unfeeling lover of his country, an honest man, in our candidate for Governor.

Remember that your brothers in arms, who are perhaps this day offering their lives in defense of our rights as citizens, are by Judge Woodward and Lewis, deprived of theirs. Cast your votes, for their honor and your own, and thus overtop a party, which disgraced not merely your sacred rights, but which would not hesitate to hand over the Government to the enemies of your country.

SOLDIERS! Who have been duly enlisted, and who have paid taxes within two years, and are entitled to vote, if you arrive at home on the day of the election!
