In April, 12%, as near as I can remember, a small pluple made its appearance on my upper lip, which soon became enlarged and sore. I used positions of sorrol, and a weah of blue vittel, without effort. Finding the sure extending, I caided on Dr. Riy, of Shellsburg, whe pronounced it CANCES, and precribed a weah of sugar of lead and bread positions. Finding these remedies of no avail, I called upon Dr. Shaffer, of Davidsville, Someriset county, who also pronounced the disease Cancer, and gave me internal and oxternal remedies—the latter consisting principles of the control of the contr and outernal remedies—the latter conditing princi-pally of caustic—but all to ny purpose, as the disease continued agreeding toward the nose. It next used a preparation of arsenic, in the form of salve. This or a time checked the disease, but the inflammation soon increased. I next called upon Pr. Statler, of St. Chairwille, Bedford county, who also prenounced the disease Cuncer, and applied a salve, and to be a newer failing remedy, but it had no effect whatever in checking the spread of the sore. In December, in the same year, the disease had esten away a greater part of my lip, and had attacked the nose, when I went to Chndinnati, where I consulted Prof. B. S.
