of the exchange of prisoners.

General Butter, it is to be presumed, is
thereughly in earnest in the work he has
undertaken to accomplish, and having absotate authority will alopt decided measures,
taking pains, however, to inform himself on
all the points involved in order that no inall the points involved in order that no injustice may be done.

and the taking pains however, to inform himselfon all the points involved in order that no inplace, of course under proper guard, where, without sheliter of any kind, they will have me apportunity to acquire the experience with which our prisoners on Belle Island save been so long familiar.

It is believed also that all the robels will be deprived of coffee, with which they have been heretofore supplied, and should the Biokmond authorities persist in dealing out lassefficient food to the Union soldiers in their hands, from Buller will without doubt diminish the rations of all the prisoners placed moder his conform. systy day and night, that they cause to be taked about, though they are promptly replaced under size control.

It is not impossible that Gen. Butler may have an inferview, before retailatory neasures are finally edopted, with Mr. Hatch, who now acts as the rebel Commissioner, or with Judge Onlid, or both. In a recent interview as City Foint with Mr. C. Clement.

Barclay of Philadelphia, who visited the Peint on his own responsibility, Mr. Hatch admitted that our prinoners had not been treated as immanity, would have dictated, and actually shed tears as the conduct of the rebel authorities was commented upon by Mr. Barclay.

It is hoped by some that the rebel Government will yet abandon the position it has so obstinately held; but the gentlemen from whom these facts are guthered is not inclined to this conviction, believing, on the oostrary, thit our propleashould prepare themselves for the protracted confinement of all the prisoners now in the rebel hands.

ARI.—Swent attacement of David McCreary, of Ma-pies Township, B-dford County.

In April, 1856, as near as I can remember, a small pimple made its appearance on my syper lip, which soon became enlarged and sore. I used positions of serrel, and a wash of blue vitrici, without affect. Finding the sore axtending, I called on Dr. Ely, of Shellickurg, who pronsunced it GARGER, and pre-scribed a wash of sugar of lead and bread positions. Thoding these remedies of no avail, I called upon Dr. Shaffer, af Davidsvilla, Somerest county, who also pronounced the disease Cancer, and gave us internal and external remedies—the latter countries prime: THE CREAT PURITIES THE WARLD OF A

I maxt used n preparation of arsenic, in the ferm of salve. This or a time checked the discase, but the inflammat or a time sheeked the disease, but the inflammation soon increased. I next called upon Dr. Statist, of St. (Bairwills, Bedford county, who also pronounced the disease Cancer, and applied a saire, said to be a never falling remely, but it had no effect whatever in checking the spread of the sore. In Docember, in the same year, the disease had enten away a greater part of say lip, and had attacked the nose, when I wont to Cincinnati, where I consulted Prof. R. S. Newton, of the Edectic Medical College. He prenounced the disease "a cutaneous Cancer, superiaduced by an incretinate use of maccury." He applied mild sinc cintment, and gave me internal remedies My face healed up, but the inflammation was not boroughly removed. In February, 1857, he prounced me cured, and I left for home. In Apri
