eboles was left to delegates so situated to secret a negative vote upon the proposition.

Allegheny Cattle Yards-Important Action by Butchers and Drovers.
Purpuant to call, about two bundred butchers and drovers assembled at the cattle yards, in the Second Ward of Allegheny city, on Mondây, ših inst., to take action as to whether their business shall continue to be carried on at the old stand, or removed to the new yards at East Liberty.

Mr. N. Carr was chosen chairman, and those present called upon for an expression of their views. After some disensaion a resolution in the second wards and the second was the old stand, but the second was a secon

At East Liberty.

Mr. N. Carr was chosen chairman, and those present called upon for an expression of their views. After some discussion a resolution was offered that the business be continued as heretofore at the Allegheny yards, butchers and drovers being unwilling to lose the time and spend the moneywhich would be required in a removal. Upon a vote being taken on the resolution, it was adopted unanimously, those voting pledging themselves not to buy or sell stock at any yards which have lately been or may be established in this ricinty, and that they would continue to buy from or sell for all those who may see fit to bring stock to this market.

Those engaged in the trade, it was stated, did not feet disposed to make a change—to remove to a locality distant from everything needed to carry on a successful business, with all the expense to which they are subjected, in addition to what would necassarily be entailed upon them in case of removals. Drovers, it was urged, should feel it their bounden duty to preserve unanimity among themselves, in order to farnish all the stock needed in this market.

Another reason urged against removal, was, that all stock coming from the West would be unloaded at the Allegheny yards, if required, and hence there was no necessity to butchers going elsewhere to purchase.

The butchers would fool it a heavy tax upon that the heavy tax upon that the heavy tax upon them to heablingst during their stock sight.

them to be obliged to drive their stock eight miles, a distance unknown in any market in the United States. After driving their stock this distance, in warm weather, they could not kill it, as, being overheated, the ment would be unfit for ase, and this difficulty uight exist for days.

Again, the drovers and butchers think that by removing to the yard at East Liberty they would be killing their own interest and building up that of a few who have no claims upon them, much less the cittes in which they reside. They had to decide whether the Pennsylvania Railroad should be allowed to force them to go to East Liberty. The city of Alieghapy has received thousands of dollars
