chased, says: "The action of Congress on taxing crude petroleum is watched with some concern, for it is feared that if such a tax is imposed, it wil greatly affect the quantity now exported to Europe. The petroleum trade has grown so extensive and profitable, that all the European assurces of sapply are now drawn upon, and by the last European advices 202 tons of it had been sent to London from the Black Sea, and about 60,000 correlation which will seen arise, and how carrefully, therefore, the matter should be touched by Contracted.

gress, so as not to injure a trade of so much importance. The Chemistry of the Atmosphere. Professor Rienards' lecture and experiments upon the Chemistry of the Atmosphere, last evening, kept his large audience intensely interested and often astonished, as he unfolded

before them, in a rapid series of beautiful illustrations and eloquont language, the wonders of the atmospheric ocean in which we live and move. We shall not attempt any description, but ask everybody to go and see for themselves. r themselves.

This afternoon he gives a motinee for the
