Governor Qurtin tendered militis before the heattle of Chancellorwille, to garrison the fortifications around Washington city, and he has ever since been in readiness to fernish troops when needed by the national authorities. If the militis were taken from the State now, to be of service to the Government, it would be necessary for each forces to go to Virginia; and the points there are too important and too much exposed to be garrisoned by green troops; and in cate of invasion, the military force of the State would be thus exhausted, and our border left at the mercy of the invader. Last evening, a number of young men, under the influence of liquor, entered the taver Vierheller, near the corner Grant and Fifth streets, and asked for some liquor, which was refused them, when they commenced an enslaught upon the occupants with tumblers, but fortunately no one was nined. They then left the house, when th loe were sent for, and upon their arrival, police were sent for, and upon their arrival, two of the parties were taken into custody. A reserve was attampted by some of the ricters companions, and during the melee which ensued, Mr. Larimer, a court officer, was struck on the head with a stone and severely injured. The Hollidaysburg Whig. Our attention has been called to an article in the last number of the Holliday aburg Whig, in which something is said about the Pittsternal arrangements of that office. Personally we do not care a great about the Whig's slan-der, for such it is, manufactured out of the whole cloth, but as innocent persons other than whole cloth, but as innocent persons other than conselves are unjustly assailed by Jons Bronnesters, we take the illberty to denounce his column of dreary dribble, so far as it affects this office or any of its employees, or the late foreman of the Whig, as an unmitigated, unproveded ealumny. His foreman, irred of the head work and low-wages of the Whig, applied to this office for a situation and we gave it to him. He maker just twice the wages that he did in the Whig office. And if Mr. Brothansters have been any mere foremen in his smploy who are competent workmen and desirous of matter and desirous of wages. The second wages well strong the situations.
