RELIGIOUS INTELLIGENCE.

The *Watchman and Reflector*, a leading Baptist paper in Boston, in an article entitled "Baptists and the Bible" expresses the belief that the hearts of the masses of the Baptist Church have never been deeply alienated from the American Bible Society. It says some of our best churches have adhered to it through evil and good report; and a very slight concession made by the Society, just now, to the views of our people, would bring them again, in a body, to the platform which, under evil counsels on both sides they were led to abandon. They have never ceased to cherish the name, nor to bless the work of the American Bible Society.

——The work of revival, which commenced several weeks ago in Newark, New Jersey, is extending into other towns. It is estimated that a thousand persons have been hopefully converted within a few weeks in Newark.

——According to the New York *Observer*, a movement is on foot by the Episcopal clergy of New York, with a view to the promotion of union among Christians of different denominations.

——The *Friends' Review*, of Philadelphia, says that Isaac Sharp, a member of the Society of Friends in England, has been commissioned "to pay a religious visit in Greenland," and that Harrison Penny, another member of the Society, has voluntarily offered to be his companion.

——A German Princess, Maria Dorthea, took leave of a Christian missionary with these words: "Christians never part for the last time—Adieu."

——President Lincoln in his letter to Mr. Hodges of Ky. closed with these remarkable words: At the end of three years' struggle, the nation's condition is not what either party or any man devised or expected God alone can claim it. Whither it is tending seems plain. If God now wills the removal of a great wrong, and wills also that we of the North, as well as you of the South, shall pay fairly for our complicity in that wrong, impartial history will find therein new causes to attest, and revere the goodness of God.

——An iron church has been erected in London, for the accommodation of the Congregational Society, of which Rev. H. D. Northrup, formerly of New Haven, is pastor.

——The Catholics in the year 1851 constituted just one-half of the population of Canada, according to the census 49-65 per cent. of the whole. In 1861, it amounted to 4,790 per cent.

——A Chicago exchange says on the manuscript of Rosini's new mass is written in his handwriting the following prayer: "I hope this mass will be reckoned above against all my sins, and will open to me the gates of Paradise."

——The *Methodist Recorder*, of London, England, at the close of an article noticing Dr. Cumming's latest prophetic work, says, we have heard of a farmer, who was a regular purchaser of Old Moore's Almanac, on the ground that whenever Moore foretold rain, the weather was sure to be fair. We have the same opinion of Dr. Cumming's interpretation of unfilled prophecy.

——The *Christian Intelligencer* in referring to the heretical views of the Rev. Charles Beecher, says that New England was once upright in religious earnestness and robust orthodoxy, but it has found out many inventions. Its multitudinous speculations error-ward have eclipsed the lustre of its primative days, and men of late ask whether anything sound in theology can come out of New England. Alas! that there should be so many reasons for hesitancy in making reply.

——It is expected the British Wesleyan Methodists will contribute about as much for missions as last year through the ordinary channels which amounted to $700,000 The jubilee fund raised this year has now reached the additional sum of £180,000 or $800,000.

——The London correspondent of the *Episcopal Record*, gives an interesting account of the services at Westminster Abbey, when the new Dean preached from the text, "I am the way, the truth and the life," while the sermon was very eloquent and interesting, yet it was not altogether adapted to the congregation assembled, and partook of the same business in doctrine which characterizes Dr. Stanley's writings.

——From the same excellent paper we learn the Bishop of Oxford has been holding a confirmation in Mr. Gardiner's Church, Avenue Marbeuf, Paris, to the great delight of English residents and visitors.

——The American Tract Society at Boston, will celebrate its 50th, or jubige anniversary on May 25th. Historical address by Rev. Henry Ward Beecher. Music Hall is engaged, thus giving an opportunity for ticket-holders, to hear the grand organ.

——According to the return made by the Ecclesiastical Commissioners for Ireland, there are 1,605 benefices of the Established Church in Ireland, an average of about one to every 420 persons belonging to the Church. There are 2,428 parishes. In 619 benefices the enrollment does not exceed £100 a year. The deduction for tax to the Ecclesiastical Commissions, under the Church Temporalties Act, including the tax on bishoprics, amounted in 1862 to £14,623.

GRAND WELSH PRESBYTERIAN CHURCH FAIR.—THE WELSH PRESBYTERIAN CHURCH of Wylie street, will hold an extensive Fair, commencing on Monday, the 9th inst., and will continue open for two weeks, in Second Presbyterian Church.

D. WILLIAMS, Agent.

COMMERCIAL RECORD

PITTSBURGH MARKETS.

[Reported Expressly for the Pittsburgh Gazette.]

FRIDAY, May 6, 1864.

There is an active demand for Corn, and with limited receipts and an extremely light supply, prices may be quoted a shade higher; sale of 1,000 bush shelled, on the spot, at $1,50; 1,000 bush do, to arrive, at same figure, and 120 sks, in Ears, at $1,35.

Oats, also, are in active demand and higher; sale of 250 bush, from depot, at 87; also, small sales from store at 90a95. Nothing doing in Wheat, Rye or Barley.

FLOUR—Is dull and languid, though prices are without quotable change. Sale of 100 bbls Family, "Derwent" brand, from depot, on private terms; and 100 bbls do, from store, at $7,90a8.

PROVISIONS—Bacon is firm with a continued good jobbing demand, while prices have undergone no change. We continue to quote at 12¾a13¼c for Sugar Cured and 20a21¾c for Canvassed do. Lard is dull and nominal at 15¾c for country and 14¾c for city. Mess Pork and Mess Beef remain about as last quoted.

GROCERIES—The grocery market is less active, the demand being limited and local while prices have undergone no quotable change. One drawback to the trade, is the extreme rates now prevailing as small sales are feel timid about buying largely for fear of a reaction.

FISH—Firm, with a fair jobbing demand at full rates. We quote Mackarel at $10,50a11 D bbl for No 1 Shore and $12,75a13 for No 3 Large; $6,00a7,25 per half bbl for Lake Herring and $9 for White fish.

BUTTER & EGGS—Butter is in good supply and sold with a drop-ping tendency; sales on lots of 20 packages at 25 to 28, for common to prime Roll. Eggs may be to greater steady at 16a17 per dozen.

RAG—Firm; sale of lots "mixed" at 7¾ per D.

SOAP—Sales of 36,000 pounds "Magic Erasive," to go out of the market at 6c.

CORN MEAL—Steady with sales Yellow at $5,50 per bbl and White at $6,00.

DRIED FRUIT—The market is firm and the supply light; sales of apples at 10a11c per D, and Peaches at 20c.

WHISKY—Is quiet and dull, though nominally unchanged—$1,30 1,35 for common

SEEDS—Small sales Clover Seed at $9,00 to $10 per bushel, and Flax reed at $2,95; buying, and $3,00, selling. Timothy Seed is steady with small sales at $3,00a3,25.

Pittsburgh Petroleum Market.

MAY 6—The market for both crude and refined opened this morning as it closed last evening, firm and active, with a brisk demand and no reliable advance noted in our latest report. Late in the day, however, unfavorable advices were received from New York, reporting a material decline there, and this, as a matter of course, had a tendency to ease up the market here. It is but proper to remark, however, that notwithstanding, buyers were somewhat discouraged, and, generally speaking, ceased buying, there is, as yet, no disposition manifested in the part of holders to make concessions, as they feel confident that the market will soon rally again and that prices will be fully sustained. Sales to-day of crude comprise 1063 bbls, as follows: 360 bbls on the spot, at 20½c; 123 and 540 at 20; and 10 @ 21 at 30½c, free on board O & P cars. Refined was so wasted, that in the absence of sales we omit quotations. Several small lots of bond'd had been partially sold in the early part of the day, but upon the receipt of the New York newspapers we "backed down." There is no new feature whatever to notice in regard to Naptha or Residuum.

The receipts by the Allegheny river during the twenty-four hours ending this evening are as follows: 3 Ashworth, 600; Jas Gallagher, 18; Strickler & Bacon, 16; Fisher & Bro, 641; Hill & Thorn, 1135; J R McCune, 101; Clark & co, 0; Jonathan Gallagher, 101; M F Williams, 374; Fridoe, 657—total, 2,576 barrels.

New York Petroleum Market.

Special Dispatch to the Pittsburgh Gazette.

NEW YORK, May 6—Crude is dull, and the nominal quotation is 30c. Refined, in bond, is dull and prices have declined 2c; the nominal quotations, on the spot, are 57a58. Free oil, also, is dull and lower, ranging from 63 to 64.

Coates, Bro's Wool Circular, Philadelphia.

The past month has been characterized by one of those sudden fluctuations which are liable to occur during the present unsettled condition of the country. The decline in prices which had previously been experienced up to and during the early part of the month was arrested by the sudden advance in gold, and the prospect of an increased tariff on all imported wool. Manufacturers who, up to that time, had been working on short supplies, immediately came into the market for increased quantities, and a sharp upward turn commenced, which has continued until at the close of the month, prices have about reached the point at which they were previous to the commencement of the decline. The probability of an increased tariff on foreign wool has given increased confidence to many speculators in the west, who still hold a considerable quantity, and has prevented them from forcing it so rapidly, as it was thought at one time probable. A considerable portion of the wool alluded to in our last circular has reached market—while there is yet much remaining in the hands of buyers and growers, whose views are above the present market prices—it is probable that most of these lots will be held over until after the new clip comes to market—what effect this may have on future prices, it is difficult to decide.

From the coarse returns, the amount of the last clip was estimated at about ninety millions of pounds, and it is thought by those capable of judging, that the increase in the next clip will be about twenty per cent, although some have estimated eight millions, added to this the amount held over, and the total to commence the next season will probably reach one hundred and twenty-five millions of pounds, while with the large amount of foreign now on hand and coming forward, will make in the aggregate an amount greater than the ordinary demand in previous years, but may not be more than is required to supply the demand, consequent upon the large increase of manufacturers and woolen machinery.

Prices now having reached the point attained before the decline took place, there is considerable firmness in the market, considering the near approach of the new clip—but at present prices, manufactured goods are only disposed to buy to meet immediate wants, many having supplied themselves before the advance had taken place.

The low foreign and California wools continue to be largely used by the Kersey manufacturers, while the medium grades of domestic fleece are in active demand for flannel and fine ery purposes, the stocks on the market being much reduced.

Pulled wool have been sold largely and the stocks on hand been before accumulating, are brought down to a moderate figure.

The sales of domestic Fleeces and Pulled for the month, foot up about 6,870,000 lbs, at prices the range of 60 to 85 for fleeces, and 65 to 78 for pulled.

The Oil Excitement on Bull Creek and Vicinity.

We learn from a gentleman of this city, who has recently returned from the oil country and Bull Creek region that the excitement in regard to oil is great as it was three years ago in Wirtt county. Since Gilfillan & Co struck oil on Bull Creek some weeks ago, the whole country has been filled with speculators, who have wandered already all over Tyler, West-1, Pleasants, Ritchie and other counties in search of surface indications. Capitalists from New York and Massachusetts as d the oil regions in Pennsylvania have bought up and leased large sections of land at fabulous prices and are now taking the same on speculation However the researches and speculations of these gentlemen may terminate, some good has resulted and will result towards the development of the resources of this portion of West Virginia. The capitalists being attracted thither by the stories of the immense fortunes which were being accumulated by oil discoveries, have been induced to examine our timber, coal lands and water power, and numerous corporations are now being formed for the manufacture of the products of coal—*Wheeling Intelligencer*, 6th.

RELICS AND TROPHIES.

"OLD CURIOSITY SHOP."

The aid and co-operation of the patriotic people of Western Pennsylvania and Eastern Ohio, is hereby requested, in making the above named department of the coming Pittsburgh Sanitary Fair equally a credit and a success. Numerous relics and trophies of the present war, of the Mexican war, war of 1812, Indian and Revolutionary wars, curiosities connected with the early settlements of our region, or with events and men prominent in our history, curiosities of every description are stored away in private receptacles, and may, if brought together, render the "OLD CURIOSITY SHOP" not the least of the attractions of the Fair. The committee therefore ask that all who are willing to help along the good cause, would send in such articles of the above description as they may have, or can procure from others, or notify the committee where they can be found. Articles donated will be disposed of as the donors may direct, or under the direction of the Executive Committee. But articles merely placed on exhibition, receipted for by any member of the committee, will be carefully preserved and returned. A latter should accompany each article giving name, date, history, etc—and if it be donated, its value. Give everything you can, and lend us the rest.

On behalf of the Committee,

JOS. S. MORRISON, Chairman.

GEORGE H. CHESNEY, Secretary.

Articles either donated, or left for exhibition, can be left with, or addressed to either of the following members of the committee:

W. D. M'GUNNAGLE, Sec'y Ex. Com., 96 Water st. Pittsb'g.
HON. JAS. VEECH, corner 4th and Grant streets.
