More recently we have had a runner that Fort Darling had been taken, which could only have been fected by a force much larger than this whole. adopted. The will of the people has been heard and cloped at Ballimore in the adoption of a substantially radical platform; a unanimous and cordial welcome of the Badicals of Missouri; an tenhanic excommunication of the Conservative faction of the country; a pointed and scathing replace of the fossilism and "old forgism" in the National Coshinet, and the nomination of an eminent Badical statesman for Vice President.

"We can designate points in which we would have amended the action of the Consention. The nomination of Galay, Burken or Grass would have pleased us better than that of Mr. Liscolk. But it is now our plain duty, which we accept with cheer/timess, and latend to discharge to our best ability, to seek the re-election of the fairly designated nomines of the Ucionitis of the country, and to carry to a triumphant conclusion the Badical policy to which be is committed."

If defeated in a field fight, the virtual destruction of his army, which is, after all, what General Gaars alms mainly to accomplish, would be assured. And that he would be defeated in such a context is highly probable, if not mirrilly certain, when the fact is considered that his army is numerically infector that of the first place the draft and the committed that his army is numerically infector that of the first place the draft by various protponditude that his army is numerically infector that of the first place the draft by various protponditude that his army is numerically infector that of the first place the draft by various protponditude that his army is numerically infector to that of General Gaars.

Will Gaars be permitted to cross the James without molestation by Lux? The series of worked with great beautiful that the crossing is performed will probably answer the inguishom. We may be sure of one fact, that, if Lux is rash enough to come out of his intrenchments, he will take nothing with his writ. A fair stand up fight in the open field is what Gaars most of all degisters.

In connection with the crossing of the James, he campaign conducted by Horsus, Crooks and Avariat becomes significant. By the capture of Lynchburg, which it would now seem to be certain is thirty objective point, the cavalry of Gaars is effectually nided in the work of cutting of Lux from all his sources of supplies, while the channes of a successful retreat sentime ward by Lux are correspondingly diminificate.

These are, of course, mere speculations, and we give them as sunch. The crossing of the virtual course, and these veterans to give the any of the veterant of give the proper mensus.

He received an academical entire of the sake of unity in the United Batter of the sake of unity in the United Batter of the sake of unity in the Union party and the glorious principles laid down in the platiform at Baitlures. Not preferring Mr. Lincoln as their first oboics for the Presidency, they yet see that he was fairly nominated; that he stands upon a Redical price was a grant of the content of the properties of him with sarnestness, and that, if he is not elected, a Copperhead will be. Hence they go for him with sarnestness, and that, if he is not elected, a Copperhead will be. Hence they go for him with sarnestness, and they will carry the flate for him. Farkort has precious few friends among them, and the number is daily "growing small by degrees and beautifully less." His palpable bid for Copperhead support has opened their eyes.
