RYE—Firm with but little offering; the last sale from store was $1,70.

Pittsburgh Petroleum Market.

EXCITED—There was rather more inquiry for Crude to-day, but there is still room for improvement, as the market cannot be quoted otherwise than dull, and prices are a shade lower, ranging from 23 to 35, bbls returned, and 43@45, bbls included. The reported sales comprise 700 bbls, as follows: 200 bbls at 35, bbls returned; 230 do at 30½@30 do at 30, and 200 do at 43, bbls included. Refined is decidedly firmer, and holders of prime city brands are asking higher rates. We note a sale 100 bbls "Eureka" in bond, at 63 on the spot; 1000 bbls "Gonparell" for July—on Saturday—at 67; and 1000 bbls "Brilliant" for July, August delivery, at 82. On the spot, good straight city brands may be quoted at 63@65 in bond, and Lucas' extra, Naphtha &c, at 70@75 in store. The advices from New York were favorable to holders, and the market closed firm.

There was no movement in either Crude or Barley, and we must quote the market nominal for both articles.

Highwines were in active speculative demand, and on the closing prices of Chance yesterday an advance of 10c per gallon was paid. About 3,000 bbls changed hands at $1,25@1,27½—closing at $1,27½@1,27½ for city packages.

Provisions of all kinds were neglected, and quotations for anything would be entirely nominal.

Boston Wool Market.

JUNE 25—The sales of domestic for the week past foot up some 1,250,000 lbs, comprising nearly all the desirable lots in the market—as holders have generally sold freely and without reserve at the advance rates offered. This advance, amounting to some 6a6c ₩ lb, has been realized upon all grades, but more particularly upon good medium qualities, which have been scarce and much sought for by manufacturers, of all goods. The sales have been mostly to consumers,—who this season are not disposed to look beyond the Eastern markets for supplies,—though a few speculative lots have changed hands and are not now offering at any price.

We quote the range of domestic fleece at 80a85c, and 90@91c for super and extra pulled. Included are lots of Illinois and Vermont at 84a86c; Wisconsin and Iowa at 81a83c; Michigan and New York at 83a87c; large sales of Ohio and Pennsylvania at 85a90c, and some choice lots do at 95c. In foreign, the sales have been limited by the extreme views of the holders, and comprise 321 bales Cape at 65a70c, with some holders asking 75c for choice grades, and 100 do Mestiza, below average quality, at 46c, now generally held at 50c ₩ lb for good lots.—*Com.
