Hardes charged the nurse core, and it our corps accuple or evenings since, and it was the grandest sight I ever new on the battle-field. They were three divisions strong. We had a regular flash fire on them with our hardeness and we sent the skells into them lively, se did also a battery of the Third Division. The artillery did more execution than the infantry. Had it not been for the batteries they would have driven Gen. Williams, but as it was they lost two thousand mea in the charge, while qur loss will not exceed three hundred. It is impossible to tall when we may bring on a general engagement. It think we will have to drive the rabels out of their present position with the bayonet. Letter from sherman's Army, Georgin.
