Shall the Soldiers Vote?

Amid the excitements of the hour, we trust that our readers will not lose sight of the special election on Tarsday, the 2d day of August next. An act of the last Legislature provided that the following amendment should be proposed to the Constitution of the Commonwealth, in accordance with the provisions of the tenth article thereof:

"There shall be an additional section to be third article of the Constitution, to be designated as section four, as follows:

time other, but comparatively unimportant amendments will be submitted.

It is proposed by this legislation to do an act of simple justice to Pennsylvania soldiers, by permitting them to exercise the highest privilege of American freemen, the highest privilege of American freemen, the jight to choose their own rulers. There never existed any good reason why this privilege should not have been exercised by our soldiers at every State election held since the commencement of the war, but Judge Woonward and a majority of the Supteme Court having decided that there was an impediment to its exercise, an amendment of the Constitution, which should ret at naught their decision, was rendered necessary, and that amendment is now before the people in the language above quoted. It is hardly possible that there are any persons in our State, except the bold bad men who openly sympathize with treason, who will shame their mationality by voting against so righteous an amendment, but for fear that the confidence of the soldiers friends may be misplaced, we desmit not out of place to add a few words of caution.

record his vote on the 2d day of August.

Let there be a full turnout everywhere of all who do not believe that soldiers cease to become citizens the moment they take up arms in defense of the dear old fiag and of those who etay at home. What a crime it would be, if, by the indifference or over it would be, if, by the indifference or over the control of the contro of those who stay at home. What a crime
