The Pittsburgh Gazette.

FRIDAY MORNING.....JULY 29, 1864.

COMMERCIAL AND FINANCIAL.

PITTSBURGH MARKETS.

[Reported Specially for the Pittsburgh Gazette.]

THURSDAY, July 28, 1864.

WHEAT—There is no new feature to notice in this article. The receipts continue very light and in the absence of sales, we give the nominal quotations from first hands at $2,60 for Red and $2,65@2,70 for White.

CORN—Is scarce, in demand and higher. Sale of two cars this AM., to arrive, at $1,05; also, small sales from store at $1,10@1,00. At the time, perhaps, during the past thirty days, has the stock been so light as at present.

OATS—With continued fair receipts and a very good supply on hand, there is more disposition manifested by holders to sell—and a slight concession is now granted. Sale of 1800 bush, to arrive, at $1,00; and small sales from store at $1,07@1,08.

FLOUR—Continues exceedingly dull and depressed, and the transactions are mostly of a light and unimportant character. We note a sale of 100 bbls Country Extra Family—in two lots of 50 bbls each—at $10,00; also, small sales of well known western brands at the usual advance.

BACON—Is steady and firm with a continued fair jobbing demand at previous quotations. We continue to quote at 18 for Shoulders; 16½@17c for Sides and 19@19½c for Plain Canvassed, and 21c for Sugar Cured.

BUTTER—Continues to meet with a good demand, and, as the stock is very light, the market is firm and prices are well sustained. Sales of 3 tubs and 10 firkins, prime at 28. No sales of packed Butter reported.

EGGS—There is a slight falling off in the receipts, but there is no demand, and the market is dull at 17@18c per dozen.

HIGHWINES—We note 45 bbls Westmoreland county Highwines at $1,26 per gallon.

SALT—Is dull but firm, with regular sales of No 1 Extra at $1,00 per bbl on the spot, and $1,10 delivered.

ORTHANPOLIS—Steady with sales to a fair extent at $9,00 to $4,00 per bbl, a carding to quality.

Pittsburgh Petroleum Market.

JULY 28—There appears to be an entire absence of any demand for Petroleum or its products, and this has been the case for some days past. The principal cause assigned for this state of affairs is the steady decline in gold, and the unfavorable advices from New York, together with the stringency in the money market, all of which tend toward checking speculation. There is no inquiry for Crude, and holders finding it impossible to sell in this market, are thinking seriously of consigning their oil to Philadelphia and New York, where they hope to find a more active market and realize better prices. In refined both Crude, Refined, also in Cull and neglected, and as there is nothing whatever doing, it is impossible to give quotations. Naphtha is still held firmly at 25, and Residuum may be quoted at $9,75@7,00 per bbl.

The receipts by the Allegheny river during the twenty-four hours ending this evening are as follows:

2 T Steele's	35	Munhall & King	25
Fannock, Ball & Co	60	McKelvy & Miller	10
B D Dreiman	72	Beal & Hill	95
Clark & Co	80		
Total			402

New York Petroleum Market.

Special Dispatch to the Pittsburgh Gazette.

NEW YORK, July 28—There is a fair demand for Gold but at lower rates—the sales to-day, being at 1.43½, on the spot, and 56 for August delivery. The market for Refined is lend continues dull and prices have still further receded—closing at 31@32, for immediate delivery. Wool is in very firm, and holders are asking higher rates —the selling prices ranging from 87 to 89.

Allegheny Cattle Market.

Reported Exclusively for the Gazette.

ALLEGHENY CITY, July 28—Notwithstanding there were a good many Cattle in the pens on Monday morning, the market opened brisk, and continued so throughout the day. Even the soaking rain that came down in torrents during the greater part of the day, did not seem to slacken the progress of business, in the least. Our butchers had a pretty good market for their meat last week, and they, consequently, bought very liberly this week, for notwithstanding there was but a limited eastern demand, there were but very few Cattle left over.

On Tuesday there was but little done, and while there were but few arrivals of fresh Cattle, there was but little demand for those that did come in, as the butchers bought pretty much all the Cattle on Monday. This being the case, sales were very slow and at lower prices especially to the poorer grades, the supply of which was largely in excess of the demand.

There has been a moderate demand for Sheep during the past week, and with a tight supply the market ruled steady. Though prices, generally, were a shade lower. Stock & sup sold at from 4 to 4½, while prime heavy, suitable for the retail trade, brought from 5 to 6c.

Hogs there is but comparatively little doing. The demand seems to be quite as large as usual, entirely to the wants of the retail trade, and the transactions are almost entirely of a jobbing character.

The following is a full and accurate report of all the leading sales of cattle, during the week:

Wm Bee retailed to local trade 50 fine Western Steers at 6c in the store.

Hamilton & Dodd retailed 26 head small Ohio Cattle at 5@6½c.

Mr Bee & Co sold on account 75 head of Chicago Cattle to the retail trade, at 5@6½c, per gross.

Geo Smith & Co retailed a mixed lot of 20 head of Cattle at 5½@6c.

Mr Bee retailed 25 head at from 4@5c.

Conley sold 20 head of small Ohio Steers at 5½@6c.

Mr Bee sold on account 70 head of fairish Southern Cattle to the retail trade at 5@6c.

Hutchinson retailed to local trade 40 head Western Steers at 5@6c.

Robb & Hutchinson sold one retail 25 head of 90 lb Cattle at 5½@6c.

Mr Bee & Co retailed a mixed lot of 40 head at from 5 to 6c.

Conley & Co sold 35 head of the smallest and poorest Cattle we have seen here for a long time, at 4½@5c.

Nicholas Carr retailed 18 head at 5@6c.

Hamilton retailed 16 head at 4 to 5c.

Mr Bee retailed 25 head small Belmont Co, Ohio Steers at 4½@5c.

Rags to Recognize Reckless Speculators.

Very little but first class commercial paper was offered to the bankers, and it is owing to this kind of security the generality got what they wanted. Reckless speculators have lost courage, and they will undoubtedly soon retire from the field entirely. No respectable banker pretends to recognize them in any way. Letters from New York, Philadelphia, Cincinnati, St Louis, &c, are to the effect that the specula ors receive no more encouragement from bankers and capitalists in those cities than they do in Chicago. We have several extracts from the New York papers, verifying this fact. The Philadelphia Inquirer of Saturday says: "Speculation is dead, and the bold and reckless operators of the last two months who have not been shrewd enough to realize, will retire from the field rather the worse for the conflict." The Cincinnati Gazette says: "The demand from speculators and merchants carrying produce has ceased almost entirely. They having formed almost impossible to obtain accommodations at the banks have turned their attention to the street, where loans are obtained at 12@18 per cent. The demand from this class of borrowers has also fallen off considerably during the past few days." The St. Louis Democrat of Monday says: "The combined efforts of speculators generally, and those parties in particular who have been attempting to 'corner' gold, have not succeeded by reaching a gradual but sure decline in almost every commodity. A popular loan will soon place the Government in the possession of funds to meet its liabilities, and will put it out of the power of the stock jobbers, speculators and brokers of Wall street banks to embarrass the Government by enhancing prices.—Chicago Tribune.

Rain During the Last Three Months.

The Secretary of the Smithsonian institute, at Washington, gives the following as the quantity of rain which fell at that place during the last three months, as compared with the same months of the five preceding years:

	May	June	July
	Inches	Inches	Inches
1859	3.921	6.016	1.656
1860	6.660	2.870	3.840
1861	3.492	3.016	2.214
1862	2.926	4.913	5.378
1863	3.289	2.648	8.079
1864	5.123	9.805	0.906
Mean	4.102	3.216	4.011

This quantity is what has fallen up to date.

From this table it appears that the quantity of rain which fell in May last was greater than the mean amount for the last six years; and that the quantity which has fallen since the 1st of June is much less than the average for the same time in six years; and also less than for any one year since 1859.

Philadelphia Provision Market.

JULY 26—The market generally rules very inactive with but little disposition on the part of buyers or sellers to operate to any extent, and rates are nominally unchanged. Mess pork is quoted at $40@41, and bids or Prime Mess. Beef is also very quiet at $20@30 ₩ bbl for country and city mess. Beef hams are held at $30@33, without sales. Bacon moves off slowly at 24@25c for plain and fancy bagged hams, and 16@24c for shoulders. Green meats are scarce and held above the views of buyers, with small sales at 18@24c for salt and picked hams, and 16@17c for shoulders. Lard is firm, and further small sales of tierce are reported at 20@20½c for kegs. Butter is in request, and 24@30 pkgs Penn'a and Ohio have changed hands at 28@30c for common to prime. Cheese is scarce and firm, prices ranging at 15@16c for old to prime. Eggs are lower and quoted at 20 cents a dozen.

Crops in the North Western States.

From a large number of reports sent by the agents of Wheeler and Wilson's Sewing Machine to the general office of that company in Chicago, a circular has been made up respecting the crops of the present season in the northwestern States, namely Minnesota, Wisconsin, Michigan, Iowa, Illinois and Indiana. There are about four hundred and fifty of the reports embracing more or less principal places in these States. The crops seem to have been somewhat diminished by the drought, and the wheat has suffered in a particular manner by the depredations of the chinch bug. In a few places the appearance of a total failure, in others it is half the usual quantity, in others it is equal to the average. Hay will be a very light crop. The rains which came about the 9th of this month, after a long drought, have revived the Indian corn, which everywhere looks promising. Of potatoes, buckwheat and sorghum, the crops promise to be fair.

Review of the New York Grocery Market.

(From the Shipping List, July 27)

The market for Rio, remains very quiet, buyers for consumption hesitate to purchase at the present unusual prices, while holders whose stocks have in many cases cost each more than the rates now current, do not to part with their supplies in the midst of affairs and operations are almost entirely nominal. For West India descriptions there is again some inquiry for export, and the business has been mostly in these goods in bond. We notice sales of 1112 bags St Domingo at 29c; 200 Laguayra 29½; both cash in bond; 500 bags do do, 120 days in bond; 100 Costa Rica, and 200 Maracaibo, on terms not made public. The shipments to Europe are light, but have been 12 20c bags. The stock of Rio in this country, as made up by Edens Wm Scott & Co, is 190,261 bags; Java 174,11 bags; Laguayra 19,000 at Baltimore, and 11c at Philadelphia.

Sugar—Notwithstanding an advance of ¼ cent in the premium on gold and a tooling of much greater ease in the money market, buyers have not come forward, and the demand is still very limited, held rs, however, are firm, and previous quotations are sustained. Refined descriptions remain dull, and are again for white soft, quarter of a cent lower, we quote other than Stuart's, hard white, 19½@22½c; soft do, 27½@27½; and yellow, 25@27 net. The sales of raw are 500 Brazil Cuba at 21½@22c, and 60 do New Orleans, private. Total, 1 mos. The shipments to Europe since last date have been 6121 hhds, 2806 bags, and 1000 bbls.

Molasses—The market remains very dull, and the business is unusually small, holders, however, refuse to further depress their views, and we retain previous quotations. We have only to notice sale of 75 hhds Cuba at 74c, and 75 hhds New Orleans, $1,13@1,14 a mos.

Provisions in New York Market—Mail Report.

JULY 27—The pork market has been comparatively quiet during the period under review, and prices, except for New mess, which is 50 cents dearer, are without material change. New mess continues to monopolize the attention of operators, while other descriptions are inactive, and prices are more or less nominal. Specimen entries are to be marked by the money pressure. Sales include 1 bbls—yesterday's transactions at $40,00@41 for new mess, closing at $40,75; $35 for old mess and $37 for new prime, and prime mess, $25. 2500 bbls are now in Jersey delivery, buy exception, $42 @42,75—the highest figure yet asked. Lard has ruled dull and irregular, with a few demand, in part for export, and the entire price is an advance of one cent —2,700 bbls and tcs, being 1 bbls bonds yesterday, at 24½@25c for common to prime, also, 1500 kegs for August delivery, at 25@25½c. Buyers of 60-pkg per tce for 30 days choice kettle rendered. Other hogs products are inactive, and prices nominal. The sales of meats have been sold at 24@25c for shoulders and pickled; 27@28c for hams, also, 250 tcs hams, in canvas, at —. The beef market continues dull and nominal; sales 500 bbls at previous prices. Tierce beef and beef hams are dull, and prices wholly nominal. Butter is scarce and dearer—the drought having caused serious apprehensions among with regard to the approaching short supply, as quite Western, Canadian and State, shall. Cheese is also firmer from the same cause, with a good demand at 12@12½c for common to prime. Eggs are plenty and dull at 18@19c per doz.

New York Wool Market.

JULY 27—The market for domestic is wholly without animation, yet prices are well sustained, despite the depressing influence of active money market here and in the principal Western cities, where large quantities were purchased on speculation at extreme figures. The sales include hardly the domestic at 85c for inferior heavy fleece, Slate, for Michigan and State $1,05@1,10 for Ohio, and $1,15 for a heavy choice lot of Pennsylvania; also, 500 lbs pulled, 150c for black and 95@97c for white. Foreign remains inactive, notwithstanding a moderation in prices of at prices relatively cheaper than domestic. The English markets, at last dates, were very firm but quiet, pending the public sales of colonial to take place in London and Liverpool latter part of this month. The sales of Cape of Good Hope, bought up quite freely at an average of about 2s 3d per lb. The fact that yet of domestic were opened thus high would it was believed, direct increased attention to foreign wools, in order to reduce the cost of manufactures.

Exports from New York.

Since the 1st of July inst., we have exported to Europe in addition to very la ge shipments of domestic produce, provisions, breadstuffs, oils, beeswax, &c, the following articles—Coffee, 42,378 bags; sugar, 6191 hhds, 2636 bxs, 9632 mats; molasses 857 hhds; tea, 14 sat.pkgs; indigo, 215 pkgs; gunny cloth; 200 bales; pepper, 2052 bags; gl, ger root, 1076; gum arbe.gal, 117 drs; rum, 151 puns; linseed oil (English), 29,778 gallons; rosin, 1635 bxs; lead, 2557 pigs; India rubber, 952 cases; and cutch and gambier, 1561 bags. The total value of goods exported to foreign countries, for the week ending Monday, 25th inst, was $8,010,936; and last week, $7,879,920.—Com. Adv.

GRAY'S PATENT

MOLDED COLLARS

Are not simply flat pieces of paper cut in the form of a collar, but are *Molded and Shaped to fit the neck*, having a perfect curve *front from angles or back*, which is obtained by our patented process, which also secures another *advantage over all others*—the turned-over edge, the inside of which is perfectly smooth and free from pockets, making this collar the most natural and durable ever introduced.

They are made in turn-down style, in front two inches high, and in Gents' sizes, from 12 to 17 inches, and, when in use, look like linen collars. This collar is a very handy package for travelers, and very cheap.

☞ EVERY COLLAR is stamped

"Gray's Patent Molded Collars."

Sold by all retail dealers in Men's Furnishing Goods. The trade supplied by

VAN DEUSEN, BOEHMER & CO.,
