The cill is very pure, of a deep reddish color, and burns with great brilliancy in its oral estate. It its claimed that there has been no old discovered equal to it in purity, except some samples from Smith's ferry. Capt. Saint burns, it in his own house, and finds it equal to the refined articles. Others are using it in the neighborhood. The discovery has put all the land owners in the vicinity on the scent for oil, and we may expect to hear of other springs being discovered in that section of the county. It is a dispatch from the front, and reads:

"We have builed 642 rebels. Six hundred will occur our less." Here we have a known fors to the rebels of 4,000 killed in two of three battles lest. by them in eight days. At this rate there will be few of the enemy to surrender at the end of the siege.

Among other facts given in the above dispatch is a shatement that Blowart, Luring and some other generals were severely wounded. Kill or wound Hardes, and the brains of the rebel sarny will be knocked out. Hundreds to Fertress Menoe was at the direction, not of Grant a unually represented by the journals heatile to Datler, but of the authorities at Washington. On the other hand, the removal of "Bildy" Smith and Gen. Gillmore, and the return of Batler to command, with a force increased by 20,000 men, was by the direction of Grant. The entire loyal recepts of the Northhave an exthusissis appreciation of Bitler's civiland administrative abilities. ATTORNEY AT-LAW, W:124m DIVIDEND NOTICE OR SALE-Thirty Acres of choice A very important decision was made August lat at the Internal Revenue office. In reply to several inquiries, Acting Commissioner Rulling decides that seven three-tenth bunit and cartificates of indebtedness are not included in the term "United States bonds," as defined in the bank esction of the revenue law, but that the term "United States bonds" is confined only to that class of securities known as registered and ecupon bonds, of various dates and denominations, bacable in ten verys or more, though re-Mo. 106 Fifth Street, Pittsburgh, Pa. The Darlish question has been given a new turn by the action of the King of Denmark. Wishing apparently to bring England and France to the point of Intervention, he proposed not coly to annex his territory to the German Confederation, but also his navy. This was conching England and France in a tender point. They notiter want Germany to be, aggrandised nor the German Confederation to become a marritime and naval. power, and possibly a rival of theirs. Both governments have, therefore, sont a protest against the scheme, which is probably all that Denmark wanted to effect. With this mew disagreement, and the jealousy between Prussia and Austria as to the disposition of the annexed Duchles, it seems likely that the question will be settled more in accordance with the wish of Denmark than seemed probable when the German armies friumphed over her. It has a thousand beautifying precesses to accomplish, and so far, porhaps, its office is raintary. But it has also a thousand patrial possibilities to suggest, and so far its work is purely evil. It torments the heart in which it is born, but this is not the worst without swere control it will torment the object of that heart's affections.

What THEY ARE DOING.—The Atlants (Ga.) Register discourses as follows regarding the "perce" men:—
"We can gain nothing by denouncing them. We may lose much by presenting a hostile front to their peace movements. Live with them under the same Government we may relil.
