WAR DEPARTMENT,
WASHINGTON CITT, August 18.

To Hon, William D. Relley:

Six—The application in behalf of the persons engaged in the manufacture of clothing for the Quartermaster's Department, in Philiadsiphia, has received the attention of this department, and directions have been given to increase the wages of those in the employment of the Government twenty per cent.

In respect to those who are not in the Government service, but who are employed by contractors, much difficulty has been found in adjusting a system which will scarse a fair rate of componation to the operatives, without an unauthorised exercise of power over Government contractors. The department has sought information from such sources as were within reach, finding it difficult to organize a commission, as was originally designed. The unified continues under examination, and I hope that a satisfactory solution will be obtained before long. My own disposition is to employ all the power that properly belongs to the department to obtain the desired object,

WASHINGTON, August 28. Headquarters, Apmy or Potomac, }
?. m., Aug. 24, 1861.
On Tuesday afternoon, about six o'clock, quite a severe engagement took place at Reams' Stai'an, between the 1st and 2d divisions of the Second Corp: and Hill's and Longstreet's Rebel Corps. The 2d division was marching down the treak to the position about three miles below the which the lat division was withdrawn on Wednesday night, when they were attacked by a strong force under the Rebel General Anderson. They retired till their right conrested with the ist division which, under Genes al Miles, occupied the entrenchments in front of, and around the station. Our line was a crescent, the right flank being nearly at right angles with the railroad, the centre a little beyoud and nearly parallel with it, and the left re crossing and recoding from it. Two regiments belonging to the 1st brigade, 20th division, were posted outside the works upon the extreme right, as d take any comming party from that direction in the flank or rear. Four assaults were made upon our position—the first directly upon our cent. This charge, as also the next two, in which the enemy threw themselves upon our

more extreme right was repulsed with a fearful claughter of the enemy.

The fourth assault was one of the most desperate struggles of the war. The maszed troops of the enemy were thrown with wild impostnesity upon our extreme right, while a vigorous attack
was made simultaneously upon our loft. Hardly
a slot was fired by the enemy, who were now instructed to reserve their fire till they reached our works. Two regiments on the outside of the works at the right were driven wildly back, but otherwise our line did not move. We poured a cad-dealing fire of musketry and artillary into their ranks, and their repulse again seemed cortain. Forward, however, they came, driven by a reckless frommy to the very front of our infrenchments, but some new recruits upon the right centre became panic stricken and fled, and before Gen. Miles could fill the gap with reserve troops, the enemy were within our works. A brisk hand to hand encounter ensured. The snemy were in an overwhelming mass against the 2d corps, the 2d division crowded in, and our men were forced to retire.

In attempting to get away, Clark's battery on ur loft, the homes were all shot, but men enough were left to work the guns. The 4th New York heavy artillery, acting se infantry, railied round the guns, and turned them upon the enemy almost in their very teeth. Seventeen of its offi-cers, with a great perties of the command, were wounded or lost, after inflicting a feerful pun-lehment on the foe. Our whole line fell back a few rods in abelier of the week Paternia. few rods in shelter of the weods. Reforming few rods in shelter of the weeds. As the aban donners of the position had showly been insti-a ed the position was unimportant, except to defend the Jestruction of the railroad, which had already been accomplished.
