We merely wish to call public attention this morning, in connection with the result of the Countries which are above stated, to the fact that, during its entire deliberations, and during the two or three days of street oratory which imme listely preceded its sitting, not a speech was delivered, nor a resolution, offered, which arraigned Just Days and the other Retal leaders before the bar of American Public Opinion for the great and manifold crimes they have committed against the Union, the Constitution and the Laws—against Liberty itself—against every household in the land. Oh, no; the Rebels were spared, and the man and the party who are trying to cave the Union and preserve its bleesings were denounced as if they were public. This fort should be a managed. blessings were denounced as if they were public enemies. This fact should be remembered by Union men, and when they are asked to believe that the Chicago Convention was a Loyal and a patriotic body, let them point to the speeches of Bigles, SEYMOUR, VAL-EARDIGHAR and the rest, and demand the

know, demand a vigorous prosecution of the war. Henor, a weak President, elected by the present Democratic party, would naturally be in danger of becoming an instrument of Disupion. It is such a President that the country has now most of all to fear.

Ir the draft should take place in New York city next week, as is expected, twenty thousand men would be drawn to fill its quota. On the other hand. Philadelphia and Pittsburgh, obief office of Pennsylvania, have shout filled their quales with volunteers, thus wirtually avoiding the draft. If the New York Times and one or tyo other journals of Gotham desire to bear truthful testimony of their meighbors, they will make a note of the above, and credit the "seared Pennsylvanians" they were in such haste to hold up to ridicule two months ago, with the possession of far greater pairiotism and self-denial than are possessed by either the wise or the foolish men of their

Own city. On Saturday Vallandigham's friends introduced him to Dean Richmond, and the former, while urging his claims upon the party, alluded to his record during the years 1862 and 1868, when the Dean out him short by saying "Damn your long record—no man now needs a receil more than a week old."

General McClellan Having first recommended the draft, what guarantee have his supporters, who are opposed to that mode of filling up the army, that

Ohio and other Northern States: McCLELLAN would have to fight him in self-defense, course. But where would he get his armies? He would be restrained by common decency from asking any members of our party to "volunteer in such a war is this," and he might as well attempt to call "spirits from the vasty deep" as to summon members of his own party to volunteer. What could be do but order a very large sixed draft, or allow JEFF DAVIS to be judging from his haste in 1861 to have a draft "made at once," is it not natural to suppose that he would order the wheels to be turned everywhere without giving either party a chance to volunteer? Democra's who are "down on the draft" will doubtless derive much pleasure from the consideration of these

SEUTING MACHINES.

OF INTEREST TO LADIES.

GET THE BEST. In these days of practical ideas, nobody will dany that a Sewing Marbine is an indispensable institution i every well regulated family; that the work made upon a good machine is quite as durable and more beautifu han the best hand sewing, nebody will doubt; and that it will go through as much work in a day as could be

performed in a week by hand, ten thousand workshops and ten times ten thorsand firesides will testify. But amid the variety of machines which are offered to the publ c; it is sometimes difficult for the purchaser to de cide which is the best. A trial of over two years onebles us to say with the greatest confidence that there ne better machine for general family use than that man ufactured by the Grover & Baker Sewing Machine Usmpany. It makes a beautiful clastic mean that does not rip or wear with washing, runs almost noiselessly; plain, simple, nasy to work, and not liable to get out of repair; fastons the ends of its own thread, and ame threads and slike directly from the specison which they are bought. In this opinion we are sustained by the the Grover & Baker Machines the first premiums at all the State Fairs to date.—Prank Leslie's Rustrated News
