CITY AND SUBURBAN.

Coal Stocks. The mining of coal, whether by individual terprise or by stock companies, is a most safe, and profitable business. But the coal, n order to be profitably worked, must be of good quality and eligibly located. These two paramount advantages are possessed, in an eminent degree, by the Mingo Coal Company, re-cently organised in this city, and whose adver-t rement appears in another column. This comcently organised in this city, and whose advertement appears in another column. This company owns asvern hundred and fourteen news of good ceal land, and has a capital stock of 1300,000—12,000 shares at \$15 per share. The isned is located on the third pool of the Monongahela Siackwater, about a mile and a half below Monongabela City, and is always accessible for boats except when obstracted by ics. The viver front is from one-quarter to three-eighths of a mile in extent, and the depth of water is ample at all times. In addition to these excellant facilities for working the mines, the company owns forty-eight houses, on the premises, suitable for miners, which guarantees to the company regular and reliable workmen. It is estimated that with the facilities at hand, at least 1,000,000 bushels of cal per anaum can be mined, and placed in the different markets Coal was sold lest week, in Cincinnati markets. Coal was sold lest week, in Cincinnati market, at a profit of the new handome preal would be nested, and that even at this reduced figure the company could pay a dividend on the stock at par value of sween, in the reduced figure the company could pay a dividend on the stock at par value of sween, it would be nested, and that even at this reduced figure the company could pay a dividend on the stock at par value of sween, it would all leave a dividend of 12½ per count. In the stock at the filteen deliare. Of course much depends upon the manner in which the differs of the company are managed, and on this point the character of the officers of the Mines Coal Company will form a sufficient guarantee to those in this community who with to invest. Life suphatically a buliess pempany, formed for business purpores, and there cannot be a chadow of doubt about the investment proving sasisfactory and profitable to all concerned. ving satisfactory and profitable to all concerned But read the advertisement in another column The Subsistence Committee. We extract the following from the report of Subsistance Committee for the months of July and August: "At City Hall meals have been furnished to 24-150 coldiers who have passed through our city east and west. At the Soldiers' Home, 8,691 coldiers have been fad and 13,225 furnished with lodging, making 24,177 during furnished with logging making strikes of the passitive months. Over three-fourths of these entertained at the Soldiers' Home, were sick and wounded and required medical care and attention. To attend to their wasts, and supply them with such articles as they required, has involved a large onlies of money. And as there will be during the coming months a larger number of sick passing through aur city, the Committee sak their friends for a continuation of the mittee sak their friends for a continuation of the liberality which they have shown in the past. The expenses during the past swo mouths have been \$7,940. Transportation has been forushed to forty one sick and wounded soldiers. Fifty-three have been sent to the United States General Hoppital. Three have fied at the Home. We bedies of which have been forwarded to their friends."

A Correction. We inadvertently stated yesterday that the doubt of Miss Addio T. Miller, of Alleghony, was caused by chloroform inhaled to deaden the pain attendant upon a dental operation. They were released upon the payment of a fixe of two dollars such and costs. Charles Couway wished to enter Nesly's taver on the North Common, after hours, and being refused admittance, commenced an onsingite upon the hours. The police arrested him, and after a hearing, the Mayor fixed him five dollars and the costs.

DEATS OF A RESUL.—John Patrick, son of Dr. Spicor Patrick, of Kanawha, West Virginia, Speaker of the last house of Delegated, died a few weeks 1850, near Rimyrs, New York, of wounds received in a raifroad splittion near than places. He was in the Mist year of his age. Young Patrick, at the time of the breaking out of the war, belonged to the Kanawha Ridas, and went into the rebel army with that company. He was captured at the battle of Gold Harbor, and received the wounds which resulted in his death while being brought to a Northorn prison.

SEEDDDLESS DETECTED.—Two young men appeared at the Girard House yesterday afternoon, and profited their services to the Government to "fight for the Union," While their papers were being made out it was discovered that they were taken into custody and placed in the short worm. Their names were Richard Descring, of the Ninth reserves, and Henry Husband, of the 96th Pennsylvania Regiment. They descrited from their regiments some months since, and a reward had been offered for their arrest. They are still in the custody of the Provost Marghal.

FIGHT AT BERRETILLE. The following failed to get through last night by the rebels, but the 9th Virginia and 36th Unio

barged and drove them back. The rebels then massed at least two divisions and charged and recharged our lines, by this time supported by Durall's and Thaburn's divisions, but were repulsed in every assault, the fight lasting till after dark. Our men spent the pight in constructing earthworks, and new occupy a strong position. The fighting was done by Crook's command, losing some three hundred. The loss of the enemy is known to be much greater, including battle flags and fifty that Averili's advance was so opposed. FLISTMENTS CEDER THE PERSIDENT'S LAST CALL-Under the President's call for 500,000, the onistments for the first nine days of the fifty days between the call and the time fixed for the

draft to day, enlistments averaged less than 200 per day, during the next nine days they averaged 300, and steadily increased until on last Saturday they reached 6,000 per day. It is estimated that during the last fifty days 50,000 men have been recruited, an average of 1,000 per lay. I latomewhat tingular that to aw men enisted for two years, nearly all of them for either one or three years. It is understood that the President has determined to issue orders to Inspectors of arms, at private arsenals, to inaugaate a new system of inspection that shall be nore liberal than has been the rule heretofore, even to the extent of receiving all serviceable arms. The stringent inspection that has been imposed upon arms manufactured, inaugurated by the West Point element of the ordnance department was fast becoming an unbearable oppression spon the proprietors of private assensis, and was having the effect to discourage the workmen. It is gratifying to notice this improve-ment, as the manufacturing of arms is becoming an important industry in this country. In 1861 arms could be produced in Europe cheaper than here. Since that time the heavy tariff, abundance of currency, and the extraordinary home demand, has so stimulated this business, that not less than twenty millions of capital have become engaged in it. We can now pro duce arms for fifty per cent, the cost we could in 1851. Hereafter we shall furnish arms 1861. Hereafter we shall furnish arms of a quality that can nowhere be equalised, and shall undoubtedly supply the whole world, and as the manufacture of arms have before had but one customer, because of the prohibition of exportation, and as more arms are produced than are now required by the dovernment. He has also determined to paimli the exportation subject only to some necessary restrictions. Workman also in private assensit are to be permitted to organize cinbs and offer substitutes to be aworn into the United States cervices. The persons for whom the minimizes are to act are not to be a named until after the draft, when they will rained for these of the slub who before bear directed.

Mr. Fenton seems the strongast, being well backed from most seations of the St. to. (in Dix has many adveroals but seems of .btm. : o changing their action, being based upto a rumor that a telegram was recoived from him positively refeasing to present the see of his name. A latter said to have been written by bim to Iraac Shorman, of New York, pending the Beltimore nominations is also being made use of by the friend of the other and datas.

It is alleged that in this letter declining the use of his name in connection with the namination for Vice President, he takes the position that white as a military officer of the Government he can support the Administration. There is much or its political policy with which he differs. New York sgain appears with a double delegation. It is anticle ats i there will be a sharp-cultrat between the Weed and the radical branches of the party it secure a majerity of the new State Convention. There is a likelyhool of greater strife upon this point than on candidates. Among the notables present are Thurlow Weed, Herace Greely, Geo. Opdyke, D. C. Little, John R. F. Anderson, Lyman Tremain and others.

Enthusiastic Union Meeting in Boston Enthusiantic Union seeting in Bostor, Sept. 6.—The first great gathering of the Presidential campaign took place in Fannell Hail to night. The call was addressed to those who defand the integrity of the Republic and favor a vigorous war as the only path to peace. At any early hour the old Hail was packed (cil.) and hundreds were unable to gain admittance. At any early hour the old Hall was packed uni, and hundreds were numble to gain admittance. Gov. Andrews presided, and made a stirring speech. Senator Wilson addressed the meeting, being received with much anthurissm. Speeches from other gentlemen followed. Altogether it was a great demonstration. Among the speakers with Senator Sumner were Geo. Senato, Gen. Cutter and Ex. Gov. Boutwell. A latter from Edward Everett was received, strongly endorsing a vigorous of the war. The Pursuit of Wheeler—The Late|Pight at Atlanta—Sherman Pushing South

at Atlanta-Bactush running account ward.

NASEVILLE, Sept. 4.—A dispatch received this morning reports that Rousseau pursued Wheeler south of Duck river, and charged upon the rebels was had dismounted to fight. We captured five hundred horses.

Official dispatches received at Nashville, and monorethat in the late fight before Atlanta the rebels lost three thousand killed and wounded, and two theusand princers; including a brigadier general, ten gene, and a large amount of camp couplage. Our loss was trifining. The rebels are retreating in great hatte.

Official information from the front, dated Sunday, 37 miles below Atlanta, reports Sherman pushing rapidly southward of Atlanta.

Constitutional Convention—Dispatches
from Berryville.

Basiness, Sept. 6.—The Constitutional Convention completed its labors and adjourned today. The new Constitution will be submitted
to the propie on the 12th of Ostobar.
A special dispatch to the Baltimore American,
dated Barryville, Va., Bept. 6th, says: The
cutting are still in Sheridan's front, and as far
as can be seen there are no indication of Barly's
retreat up the valley at present.
The cavalry corps which left Rippon's store
en Friday night, has returned, having accertained that the enemy was in strong force beyond
the Opequan.

tained that the enemy was in strong force beyond
the Opequan.

Recraits and convalescents from the hospitals
are arriving in great numbers almost every day,
and ere being repidly sent forward to the front.

It was expected that the enemy would have
attacked us in our position at Berryville yearint
day, and preparations were made at the field
hospital for the reception of 1,000 wounded, but
we were disappointed; and your correspondent
helds the opinion that the enemy have no idea
of arrunting the effective, but will be perfectly
content for the present with acting on the defensive and holding the valley.

tive also of that intense yearning for a worthy idol of the marculine specie: which this the female heart. The tale is original in every sense of the word, and is written with great power, but the author has fallen into the too common mistake of novelits, the depleting of perfect characters—men and women so pure and good that they rise above the standard of humanity. In Quest we have two heroes—both of them models of virtue and manly beauty, uttarly irresistible, such as it has never been our good fortune to behold, and the like of whom are not to be found upon earth, we verily believe. Strange to say, even such men as Thackery and Dickens are not above the weakness of making their heroes free from ordinary vices, and is this respect mach of modern faction is deprived of its utility as "cholding a mirror up to nature."
