Each may, in its corporate capacity, contract such debts as are as therized by the set, relating to the payment of beunties to volunteers, and its supplement. This may, in my, opinion, be done, through either the school, directors or the election officers. It is made part of this small that the sended, therefore the first and Second wards. That the quots of the latter has been filled while the former is deficient. It would be highly unjust and probably illegal to dupose a tax on citizens of a ward which has compiled with its selligations to the Government in order to relieve one which has falled, and it is contended that the School Board must in pose taxes on extensive with the school district.
