The Remarkant Properties of Brown's Bronchial Trockes have been thoroughly tested since first introduced. The demand for them has steadily increased, and purely upon their own merits, they have found favor with those, who, from Palmonary, Bronchial, or Asthantic complaints require them. For Coughs, Colds, Broachitis, Asthana, and Influence, they are antirely affections, remeving all obstractions, and increasing at once the power and faxibility of the voice.

The Bunner of these Gaoasa—
The Richmend papers groun everthe riskil disaster at Atlanta. They denounce, and mourn, and criminate, and advise all in one breath. Their cause is desperset. This they admit. But it will be observed that the cause of the sharpest pang is the disactrous effect of this defeat, upon the prace party of the North! Mark how the sympathetic cord extends from the rebels South to the rebels forth; and see what barmony of feeling there is all along the line.
