How MANY of our returned soldiers have es-caped the dangers of the battle-field to find a more invulnerable foc in the makeris of a south-ern edimate. They bring with them the seeds of dimense, which, if not early eradicated, break down the strongest constitutions, and render life but a burder. The great restrict re is 0.8000 D/S INDIA CHOLAGOGUE. It neutralises the missimal polson, gives activity to the liver, pur-ifies the blood, and lays the foundations of re-turning health. Sold by all druggists and medicine dealers. ENTHUSIANTIC MENTING. Beveral influential parties who arrived from New Orleans by the last steamer, are endeavoring to obtain a medification of the policy of the vernment in regard to the cotton trade in rebal districts.
