The citizens of the Second Ward, having filled heir queta for the draft, determined, last evens ing to have a julification to celebrate the event. At ten b'clock, the citizens of the ward assem-bled at the Mayor's office, where a procession was formed, headed by the Greek Western Band. was formed, headed by the Greek Western Band, and marched to the house of Wm. Phillips, Erq., when a magnificent gold headed cane, suitably it so:thed, was presented to that gentlemen, as a test mental of his liberal and praisevorthy official saving the ward from the draft. Thomas Ewing, Eqq., made the presentation speech, and, the glit was received by the recipient in a few feeling remarks. Mr. Phillips not enly subscribed three thousand dollars to the bonny fund of the ward, but was a faithful and energetic member of the recruiting committee. After leaving Mr. Phillips' house, the procession proceeded to the residence of Mr. John Wilson, where its was because of mr. John Wilson, where its was pre-

After leaving Mr. Phillips Bouse, the procession proceeded to the residence of Mr. John Willen, where in Slaharataly engraved cup was presented the Mr. Wilson by J. H. Baldwin, Heq., on behalf of the enrolled men of the ward, as a tastimonial of their appreciation of his services in the same good work.

After the presentations, the procession marched to the residence of the following gentismen, who were chiefy instrumental is relieving the ward from the draft, and serenaded them, with Meeter-George Wilson, John J. Martin, John Bradies, Wm. Woods, John Marshall, Hon. Hony A. Weaver, J.-H. Baldwin, Thos. Ewing, Thos. Steal, Jes. U. Cury, D. Kinsey and Geo. F. Gimore where appropriate receptions were accorded the assemble ge. The speeches of Meeter. Marshall, Weaver, Martin and Gimore were particularly happy, and were rapturously chered. Mayor Lowry was also visited at his residence, in the Sixth ward, and invited the party to particle of the hospitality of his dwilling. The affair was conducted in a very creditable manner, and refacted great credit upon Meeter. Jos. C. Curry, Clarvnes Shannon, and the other members of the jolification committee. We congratulate the Second ward upon their happy escape from the draft, and hope that they may never be sailed upon to exercise their liberality in a similar manner.

Gathering and Keeping Prutt. that passe are improved by being gathered be-fore fully ripe. Some should approach nearer maturity than others. But early apples should be fully ripe, as a general rule, before gethering. Late fall and early winter apples should not be eatable when picked, and all the late winter varieties thou! be gathered when too hard to yield to the pressure of the thumb, and always before heavy fall frosts. A dry time should be related if a with the same through the best with before heavy fall frosts. A dry time should be selected if possible. Apples should be kept cool, barely so as not to freess. A minimum temperature of thirty-feur degrees is probably about right, with as little fluctuation as possible. The ripening process cone commenced, goes on, no matter how cold, if frost is not present, slowly, perhaps, but not uninterruptedly, until full ma-turity. Hence the importance of a cool cellar, which should always be dry and dark. It should be frequently aired, when the outside tempera-ture will allow it.

State Fair. The Pennsylvania State Agricultural Society will hold its next Fair at Easton, Pa., Sept. 27th, 28th, 19th and 30th, 1854. The most ample so-commodations, we are informed, are being made. Capt. Kirker, Provest Marshal of the 23d District, received an order by telegraph last evening, ordering him to commonce this draft on Monday, the 19th inst. The idea appeared to prevail among our citizens that the draft would not take place, but this order will have the effect of dissipating that impression. The conscrip-tion is inevitable, unless the requisite number of volunteers are obtained. We understand that Capt. Fertor, the Provost Marshal of this Dis-rict, has received a similar order. 8th-districts whose quotas have not yet been filled, should endeavor to recrit the number required during the present week. All that is necessary to es-aspe the draft is prompt and energetic sotion, as men are plantiml, and can easily be obtained if the necessary funds are speedily forthcoming. f dissipating that impression. Reep the Pavements Clear. Since the melon season has commented, a number of accidents have occurred by persons thoughtlessly throwing the rinds upon the pavements. Yesterday we noticed two persons re-ceiving severe falls on Fifth street, by stepping mon melon rinds, one of the parties being so soversly injured that it was necessary to have him carried to his dwelling. Persons who visit our fruit stands and after partaking of their contents, should be careful that the reface is not thrown upon the footways, otherwise they may find themselves responsible for a serious injury, o relessly indicad. A slight exercise of caution is all that is necessary to remedy an ovil, which, otherwise, may be attended with serious results.

THE Eric Disputch says: "The Brst successful oil wall in our city is on Mill Crock, and is called the "Fortune Oil Well," and not as formerly stated, the Althoff well. THE OYSTE SELECT.—It will be interesting to the lovers of cysters to tarm that the bivalves are more plentiful on 'he shores of the Chesspeake this reason than they have been for a number of years. The creeks and bars are said to abound with those of the best quality, which are in most excellent order. The instalments which have already arrived here are superior in quality to any which have been received in quality to any which have been received in the company of the company of the company of the present of the measurities of this market, and our citizens will be rieszed to learn that they may expect that necessities of this market, and our citizens wi be pleased to learn that they may expect the g ley will be both cheap and plentiful.

Describes Armered.—Since the first of January last, four hundred errorise for describin and straggling have been made by the energetic detectives connected with Captain Foster's office. A number of the describers adprehended were old offenders, and it required considerable tack and caution to arrest them. We are under the impression that no district in the country has succeeded in sending back to their duty such a number of renegades, and we congrutaliste Captain Foster upon the efficiency of his officers.

FROM NEW YORK. THE CLOSING OF BONDED WARKHOUSES.

Alleged Extortion for Storage

NEW YORK, Sept. 13 .- Collector Draker has name orders for the closing of bonded watehouses, whose owners or lessoes charge extorticnate rates for storage, and accordingly Depuly Collector Studwell has closed two of the
buildings. A similar course, it is understood,
will be pursued in all other like cases. It appears that in consequence of upuscally heavy
imperiations, the fluctuations in the price of
gold, and the general rise in prices, the rates for
storage were increased, and attained in some
cases to axunordinary figures, so that complaints
were frequent. The late Collector, after a full
consideration of the circumstances, decided that
no more than the rates approved by the Chamber
of Commerce in 1857, with the addition of 150 per
cent, should be charged for storage. This was
satisfactory to the merchants, but many of the
storakeepars did not abide by it, and continued
charging heavy prices, claiming they could obtain from merchants on private account as much
money as they charged for public storage. Resently a case, it which eight times the enhanced
rates allowed by Mr. Barney had been enforced,
came before Colloctor Draper, and another case
in which nearly three hundred dollars were
charged, where the legal amount was less than
one hundred dollars. The alleged extortions
caused the closing of the stores, and Mr. Draper
has sent to Wash ngton for further instructions.

The Manner of Mergan's Death-Who Killed Him-Brownlow on Mis d Life and Public Services." In the Knowillel Whig of the 7th, Brownload gives the following sketch of the "life and public services" of John Morgan:

mules should be notified that they may now repose in quiet at night, and graze in peace in the
day time.

Morgan leaves a large amount of gold and
greenbacks, cotton and real estate, the proceeds
of his thieving exploits, resulting from untiel
murders and robberies, through a space of three
years. Who his legal heir is it will be difficult to
rettle. His first wire was the sixer of Coionel
Bruce, of Kontucky. She died in Luxington
from the negicet and had treatment of her deseased, gambling and thieving hasband. His
second wife was the negrowench he had with him
during his residence in this city. She is in
Kontucky. His third one is the daughter of
Charles Ready, of Murfreesboro, and she is at
Abingdan in Virginia. Our own opinion is that
the negrowench has the oldest claim upon his estate, but we jave this grave question of law to
be settled in the Qunfederate Courts, or by special
act of their Congress.

Gen. Gillam is in our town, and brought with
him sighty-sis of Morgan's men, on Monday
evening, who we saw turned over to the jail we
were once an inmate of. Some of them were
bur footed, and bare-handed and bare-backed.
All looked dirty and mean, as though they were
fit subjects to be commanded by a common horse

McClellas, in scoeping a nomination for the Presidency from a Convention demanding that "immediate efforts be made for accuration of hostilities," says that "the is happy to know that when the nomination was made the record of his public life was kept in view." QUANTRELL.—The men arrested here on Solurday night, supposed to be the marderer Quantical and another rebel, are still quasiter: and another recet, are still waving, their identity paving not yet born determined. A gentleman came from St. Lous, who said he knew quantrell, and that this is not the man. There are so many indications, however, that he is not right, that both will be held for further investigation.
