Union Mess Meeting in Allegheny-Spir-Pursuant to call, very large and spirited Pursuant to call, very large and spiritted mass mediting of the citizens of Alleghany was tary career at considerable length, and his critically considerable length, and his critical massing was called to order by J. F. Jennings, Enq., on behalf of the Committee of Airangement, who announced the following officers:

President—Col. James M. Gooper.

The speaker then reviewed McGlellan's must be an expected to a considerable length, and his citizensed the scans of the negro, and windicated the government in the policy of turnment, who announced the following officers:

President—Col. James M. Gooper. President Col. James H. Cooper. Vice Presidents Gen. Wm. Robinson, Capt.

Simon Dram, First Ward; Hon. Robert Mo-Knight, John Brown, Jr., Second Ward; Col. rst, James MoBrier, Third Ward; James Marshall, Lewis Moul, and John MoGraw, Bourth Ward. Source D. O'Niel, Wm. Anderson, F. H. Cooler, C. E. L. c. These numinations were unanimously confirm-

ed, and the gentlemen invited to take seats up-Col. Cooper, on taking the Chair, spoke as I feel greatly honored in being called to pre de at the first grand rally of the Union War

Party in Allegheny, in the Presidential com-paign of 1864. The issues between the two parvin: the Loyal Union Party, and the Disloyal, Disunion Peace party of the country are loyal, Distunce reace people. Each of these new fairly before the people. Each of these parties has announced its declaration of princi-les and calcated its standard-bearers for the parties has announced its declaration of principles, and selected its standard-bearers for the cening strife. By these principles, they must be judged, and stand or fall as the grand inquest of the people shall denide. Choose ye, therefore, follow clittens, whether ye will stand by your department; and custain by your votes its efforts to subdue this hellish robeliton, or whether you will submit your needs to the yoke of Jeff. Davis, or what is just as bad, that of his sympathia'ns friends, the Copperheads of the North. Our platform fully and fairly proclaims our determination to fights out, at all has ards and at every cost, until not an armed robol shall raise his impleas hand against the Covernment of

termination to fight it out, at all hassards and at every east, until not an armod robol shall raise his implous hand against the Government of these United States, or the time-houred day of our country. "Capplairs" It also declares thethe sa hid yicked rabellion was begun in the inferest of slavory, no peace shall be made, which does not wips out and forever oblivers and destroy, this foul blot upon the honor and fame of, the nation. It commends and applands the course of the Administration in its efforts to subdue the rebuillian, and pledges the Union party to anstain and encourage our soldiers and selfort at every sacrifice of men and money, until the start and stripes shall hold undiqued sway over every foot of our national domain. To carry out these principles we have nomineted for the Presidency for the next four years, that true and tried servant of the people, Abraham Lincoln, and for the second office, the Vice Presidency, the sturdy old war Democrat, Andrew Johnson of Tennesses. (Applaure)

Mow stands the case on the other side? What cassy the Chicago Plasform? That as the war to restore the Union has thus for failed to accomplish that object, they demand's eccention of hostilities, with a view to a convention of all the Sisters. What does this mean? Don't you we that as they say we hav'ns mean: Don't you've that is trey say we not it compared the robels yet—our only siturfactive is to make peace upon their terms instead of curs! Doesn't this mean dismino? Does any man in his remes believe that the robels will treat reaceably excipt their independence it seeknowledged? When so far, although beaton at all points and starving, and almost naked, they still hold out to see if their Northern friends and sympathises will not succeed in the couling election for President? Four out of the six recolutions of the Chicago pistorm are made up mainly of abuse of the Administration, while hey have not one word in the whole documen they have not one word in the whole document of confemnation of the robollion of of the infinance leaders. They do wind up with a word of pity for the soldiers, and promise them their probedits; provided; I suppose, the soldiers are fools enough to wote their miserable. The other candidate, of the so called Demorey, for the Vice Presidency, Geo. H. Pendietop, is a consistent and avowed Orpperheal, who
in all his varier in Orgress, bosst that he never voted a man or a dollar towards the suppression of the orbeithon.
Here these, fellow chizens, you have the plate
form and the candidates fairly presented.
The bondict is at hand and let us at oncar use
carselves to the full manitude of the occasion. The bondiet is at hand and let us at once ar use ourselves to the full magnitude of the occasion. For our country's sake—for God's sake, let us "shake off the dow-drop that gitters on our armor," Let us enter the lists propared to do or die, and let us desi such blows—Vin behalf of the Constitution and the laws, at the elections to take place in Octobar and November, that the enemiss of the country Worth and Sunt Shuth shall shrink back in utter dismay; and the scenared Copperhead, with whom we have now to contend, will sneak back into their holes, never again to show their villainous faces in the light of Heaven. again to show ment vinements.

Let us inscribe apon our banners, in the language of the immortal Webster—no such miserable interragatory as "winz is all this worth?" but all over, upon every fold, in chrusters thight, those better words, "Liberty and Union, now and for ever, one and inseparable." (Ap-

he complimented as one of the ablest and most
accomplished speaker of the present day.

This present campaign was one of the most important ever inaugurated. He would not be here

Or, in other words, that the victorious armies of the Union should bow in submission to the enamy. Not one word was uttered in condamnation of the rebellion; but the white first was raised, and the whole nation was saked to disgrace itself in the eyes of the world, and for sill ims to come, by getting down upon its kness and ruing for "peace." The issue, then, simply was, life or Death. He who was not with us was against us. There could be no next raity in such a crisis. Every blow aimed at the rebellion was ablow at the Chicago platform and the Opperhead candidates. The rebellitum was now in its death agonies. The rebellitum was mow in its death agonies.
