There has been a moderate degree of activity in the stock market, although the sellers as yet very much predominate, and keep down prices. Those who are forced to sell shares even at a loss from subscription prices will soon be cured of the market, when we look for a partial recovery from present ruinous rates.

Sheridan's victory in the Shenandoah caused another tumble in gold, with which stocks generally sympathized. From all our eastern exchanges it is evident that values in merchandise and stocks have been greatly unsettled. Trade is contracting; the wiser class of merchants and stock jobbers are cautiously closing down and selling out. We advise this caution on the part of capitalists in this vicinity. It may seem to them, but it is not their interest that the present inflation in prices, should continue. A certain and reasonable profit is far better than sudden gains by speculation. Guard against the fevered dreams of the gold hunter vanishing into disappointment and bankruptcy. Speculation is like the "deep sleep," calm and quiet, that fell on Adam, and awakening to see charming visions, beam, conspicuous, content, to see, bring down your business; speedily to your means, and strangle the speculative thought ere it has birth.

The Philadelphia Price Current, in an article on the present mania for speculating in oil stocks, remarks:

The present mania for speculating in oil stocks comes at the head of the hour. It is founded upon exaggerated ideas of what has been done, at the moment when the prudent would be withdrawing from all interested in the subject. There have been undoubtedly very splendid operations performed by those persons who invested early in the oil territory. They worked out the rich veins, and are leaving the gleanings to those who are now rushing in, with the hope of doing as well as they did.

We might specify a few cases upon the strength of which much of the present excitement is based. We know of one case where $4,000 was invested a few months, and sold well for $32,000, paying down only $200 cash. In one year, from the same property, it yielded $120,000 net over and above all expenses, and was sold for $115,000, yielding to the proprietors $170,000 clear profit, while they owned it. Another case of which we have the details, is that of Noah Kun, producing two hundred and sixty barrels a day, was bought for $150,000. It has yielded a splendid profit, and is now held at $275,000. Another is that of Jones & Egbert, eight wells near Oil Creek, and within a stone's throw of Tarr Farm, the wholy product of which is but scarcely developed, a price which has paid for the two hundred and sixty acres upon which they are located, and left the owners of the property in this city who has made half a million of dollars by oil stock within two years; and we know of two other gentlemen who have made two hundred and fifty thousand dollars each. There are well known cases where small investments of from $15,000 to 100,000 have been made in oil operations with splendid success. Knowledge of the wise course were to weight on the anticipations of the present excitement to a very great extent. Each one argues "why can't I do it too?" There is an easy answer: "You have come to it." The longest has been known. If you skip out to make a hearty dinner a single day.

Every probability points to a decrease in the value of oil. The production is increasing, and will be more than sufficient to supply the demand. Even though diminished production may partially support prices, yet companies owning a unit producing wells, the consequence of which must be disastrous. We say again, to all and every one within the fascination of this mania, be careful!

There is an improved demand for 7-30 currency notes the subscriptions on Friday reaching $1,321,100. The total sales are $25,455,850; against $25,250 on the 20th of August. Thus far the payments of interest upon the 6-20 bonds are about four millions at New York alone, as $10,200,000 of interest is paid at that port; the disbursements do not indicate any great rush for gold. The premium on the 20th of August, when the payments commenced, was 2.50; against 2.37 on Saturday. Some foreign bankers in New York are offering 6.37½ at sellers option, upon the idea that a large amount will be sent home for re-sale, to make the profit on exchange. Balances sold at 2.30 and 2.32½. This may be done, but renewed orders would be a more natural result of the reduction in gold, and the improved political and military situation. With gold at par, United States 6's would be the most profitable and safe national security in the world, and where the foreign holder sells can open a decline in the balance of the income of the bonds, in proportion to their cost, above will buy up on the increased security at the principal.—Phila. Press.

The Chicago Tribune of Tuesday says: There is little or no change to note in the money markets since Saturday. Now legitimate purposes, the bankers have an abundance, while speculators, with some show of reason complain of a remark; able stringency. They are shut out from present and prospective use, and they might as well give way with proper grace. There will be a large amount of paper to be sold and money must be had for these purposes, and it is a vital necessity that it should not be obtained by an accession to the amount of currency, but by running the large amounts which are shut up in whisky casks and wool sacks, for specie native purposes; to the detriment of legitimate packers and grain operators.

PITTSBURGH MARKETS.

(Reported Specially for the Pittsburgh Gazette.)

WEDNESDAY, Sept. 21, 1864.

The general markets continue quiet and exceedingly dull, while values have undergone no material change. The demand for the leading articles produce is very light and the transactions are almost entirely of a local and unimportant character.

Sale of 175 bush at 85; and 200 do do at 90. Corn is quiet, and, in the absence of sales, may be quoted at $1,20, on track, and 1,25@1,30 for small sales from store. Rye is selling from wagon at $1,45.

FLOUR—Is quiet but steady with regular sales from Mayer's at $10@10 25 for Extra and $11@11,50 for Extra Family. Some 1500 bbls "star of the West" were sold to the trade on Tuesday, at 11,25 per bbl, delivered at the depot here.

BACON—Is steady with a fair jobbing demand, and we note sales to a fair extent at 19½@20 for shoulders; 21 for Sides and Sides, and Plain Hams at 23@24 for Plain Canvassed and 27@28 for Sugar Cured. There is but little inquiry for Hams, while shoulders and Sides sell pretty much at quotations.

SEEDS—Sales of 80 bush Timothy seed at 6,50 per bush. Flaxseed is in fair demand and would sell readily at 2,25 [No inquiry for Clover seed.

EGGS—Steady; sells a fair demand and prices are firm but unchanged—22@24 per doz—scarcity at 23.

New York Wool Market.

SEPT. 19—This staple is without material change in prices. There has been rather a better inquiry for the last few days, but very little sold has taken place; buyers are awaiting the push sales of Rose, which is announced for Wednesday next. It does seem probable that very fair prices will be realized, as it is exceptionally scarce. Even those who are pressed for money. From good authority we are informed that sold at a fair article to 105¢ (withstanding the heavy decline in Gold and Exchange), an assortment of stock—in a large. We note sales of 18,000 lbs. Domestic—fine at $1,05@1,10 for Saxony fleece; $1@1,05 for one-half to full blood and Native Merino; 90@95c for three-quarter blood, and 75@80c for Common. Fine go do do pliant and easier, and the market is sustained by this circumstance. Pulled and Factory 45@65, and many holders are disposed to submit to a decline in order to realize. MINGO COAL COMPANY,

Capital Stock, $300,000

12,000 SHARES AT $25 EACH.

PRESIDENT—JOHN GRAFF,
SECRETARY—CAPT. JAMES GORDON.
TREASURER—J. R. McCUNE.

DIRECTORS:

JOHN GRAFF, J. R. McCUNE,
WM. McKEE, P. FAWCETT, (Phila.)
J. H. LYDAY. JESSE SMITH, Superintend.

This Company owns the property known as the "Mingo Coal Works," together with the "K" coal farm, adjoining, and containing in all about 300 acres. The property is situated on the west bank of the Monongahela river, about one and a half mi es below Monongahela City, in the "Mingo" coal vein, which are situated 48 miners' dwelling houses, store house, shops, &c., together with a rail way running to the river, with a large abutment and all the necessary arrangements for loading coal.

The mines are already opened, drained and ventilated and in good working order, with entries driven, across forward, and all necessary facilities for working it, by no one hundred men, and the coal is well known to be of the very best quality. The "Mingo" is believed to be one of the most valuable coal properties in the Monongahela Valley.

The Company now proposes to increase their facilities for mining by the construction of an additional railway, and have set apart $30,000 in cash for the purpose of making contemplated improvements and providing a working capital for the new organization.

With facilities which the Company will possess, the Directors confidently believe that the "Mingo" will prove to be one of the most substantial and remunerative stocks to the country.

A limited number of the stock is now offered to the public at $25 per share. Books will be opened at the UNION BANKING COMPANY, on september 7th, 1864. se17

DIRECTORS AND TRUSTEES:

Wm. Bagaley, Chas. W. Hickston,

The remaining $75,000 of the capital stock will be used in building a short railroad, erecting new tipples and other necessary improvements, to develope the situation of the property to the best advantage. The mines of the coal already opened is but fifty feet. At a low stage of the river there are twenty feet water at the Company's Coal Wharf.

From these facts the Trustees and Directors have no doubt this with proper energy the stock of the company will be worth par, by the first of November last, from 10 per cent. on subscriptions will be called in, payable on or before the 15th of September, 1864; balance of installments as may be ordered by the Trustees and Directors, as the company require it.

The Thrift Institution offers, especially to Clerks, whose earnings are small, the opportunity to accumulate a fund, by depositing from time to time, which will be a resource when needed, their money not only being safe, but bearing interest, instead of remaining idle and useless.

DOLLAR SAVINGS BANK, No. 64 Second Street.

CHARTERED IN 1850.

Open daily from 9 o'clock A. M., also on Wednesday and Saturday evenings, from May 1st to November 1st, from 7 to 9 o'clock, and from November 1st to May 1st from 6 to 8 o'clock P. M.

Deposits received of all sums not less than One Dollar, and a dividend of the profits declared twice a year in April and October, and if not withdrawn are added semi-annually, in June and December, since the Bank was organized, the rate of interest per cent. per annum.

Interest is not drawn out, but is placed to the credit of the depositor as principal, and bears the same interest as the principal, thus compounding it, and is payable twice a year without troubling the depositor to call, or even to present his pass book. At this rate money will double itself in about ten years.

Books containing the Charter, By-Laws, Rules and Regulations, furnished gratis, on application at the office.
