NASVILLE, Sept. 27, 1864. a little, but it was at any rate inevitable. Mr. Blodgett of the Treasury Department has been preparing some isbels showing that only From Athens Forrest moved up the railroad, destroying bridges and tearing up the track. The Elk river bridge and Sniphur branch traction have the mistakes and omistions have made the enhibit of our trade with Barops foot up with a

balance against us. He shows that the balance was really between fifty andja hundred millions in our fever for the last year. Blair continues o give an eye to the working of the Departmen until his successor shall arrive. He is also pat-ting on a good face over the matter by taking the stump in Maryland for Lincoin. Both of the assistant Secretaries of the Treasury are absent,

ying sick in Baltimora. Harrington is off on a raise for his health along the coast. OUR PRISORES AT BIORMOND. The officers just released from Libby prison, ame of whom arrived in town to-day, repar hat the prisons in and about Bichmond contain about five thousand of our men. Most of those on Bells Island are suffering much from want f dothing, two-thirds of them are without tent

nd many of them have no other covering than heir drawors and shirts. Even in Libby many I the prisoners are compelled to keep walking t night in order to keep warm. The prison guards are made ap of man over 70 and boys of 14, all the able bodied men are at the front and annot be spared to guard prizons. The belief scems to be as general there as here that the war draws near to its end.

* BUNOBED CARINET ORANGES. Rumors of other Dabinst changes continue, bu here is no known foundation for them, save the general uncertainty with which the Conservative nen here regard their soats, since Mr. Lincoln's anceremonious notice to one of them, that his time had come. It is said that the assistant constary of the navy, Fox, sits uneasily in his he traitor nainder. bair. He is a brother-in-law to Blair, and is not shair. He is a brother in the state of Stanton or Lincoln either.
