The Canadian Confederation.

Quance, Oct. 19.—After a long discussion, the Canadian Confederation has been decided on. Its main principles are arranged; only about settlement remains. The great diffaulty was the preportionate representation of the colonies in the Upper Hours. It is now decided that Arcadia, that is, Nova Scotia, New Branswick and Prince Edward's Island, are to have 24 members, of whom It are for Nova Scotia, 10 for New Brunswick, and 5 for Prince Edward's Island. Rewicondiand is to have 4; and Upper and Lower Canada, 24 each; tetal, 75. These are to be selected from the expiring members of the Upper House, by the crown, which it to fill up the vacancies, securing by death. Representatives in-title Lower Hours of the Federal Argistants are to be in adordance to the population periodically revanged. sentaives in-tr's Lower House of the Federal Angistante are to be in addytdance to the population periodically rearanged.

The Constitution will be such that the chief power will reside it the Central Legislature. The provinces will have few seprent erights. It is decided that the whole scheme shall be submitted to the arising parliaments in all the citiques without a direct reference to the people, which is a very summary measure, as none of the parliaments were elected with reference to this question. The local legislatures will not necessarily be alike in their constitution. There is no deciden as yet whether the local government shall be negimened or elected. This point will likely be left to the Impurial government. It is believed that Ottawa will be the seat of the federal legislature. The only difficulty remaining is as to the constitution and power of the federal inguisature. The question as to the millitary army to be maintained by the colonies will likely be settled by a convention with Eagland. How. John Alischond has been the leading man in the conference. His views have been adopted in almost all cases. Mr. Gest and Mr. Carrier are also much booked up to.
