The result of the elections gives great satisfaction to all Pennsylvanians, and we may say the entire army. It is a noble trimuph of the people over treacon and malignant principles in the North. We led intuitively that the results control to the North we led intuitively that the reselection of Abraham Lincoln is certain. Indeed, how could it be possible for a change to court in the Administration at this time, without the inference that past efforts and past policy had been error? By a unanimous divursion that its present administration is right and must be continued, the loyal element in the North will be united, while that-which is latent in the Bouth will be encouraged; and at the same time cowards, while that-which is latent in the Bouth will be encouraged; and at the same time cowards, while that-which is latent in the Routh will be continued, the loyal element in the Routh will be continued, the loyal element in the Routh will be continued, while that-which is latent in the Bouth will be continued, while that-which is latent in the Routh will be continued to the robe armies.

"At the hour announced, 12 o'click, for the first leading of the hearlost place of ordnance in the world, the parapote of the Fert were throughed with distinguished officers and ladies and gentlemen, all anxious to winess the tital of the great gun. Considerable delay was experienced in the propur adjustment of the place, as it was not until half past two-clock the first discharge, a blank cartridge of one handred pounds of powder, was fired. The concussion following the discharge was slight, and the recoil of the gun much less than was anticipated. The place was next loaded with a charge of fifty pounds of powder and a thousand pound shell. The late taken in loading was about half an hour. The second trial was as uncessful as the first; the ball, in consequence of considerable depression of the gun, striking the water at a quarter of a mile distant, richeting several times. The gun, or maximation, being found to have received no strain, preparations were made for the final tost.

At 5 o'clock the place was again loaded with a charge of one hundred pounds of powder and a ball weighing one thousand and sighty pounds—cast. Owing to the rather impromptia arrangements of the place, and the place was anything but as easy take to adjust it. However, at the hour mentioned, the place was loaded, and everybody shood clour for the basing grand trial. The gun was raised to an elevation of twenty fire degrees, and the distance of about three miles and a fall at the distance of about three miles and a fall at the distance of places of the place's ware warmly congratulated.
