The following interesting and statistical items are from the New York *Journal of Commerce* of Monday: The foreign trade of the past week was very light in the imports series, and on a moderate average in the export shipments of domestic produce. The payments of gold interest from the Treasury Department on the public debt were unusually large, a good portion of the 1st November coupons being collected for foreign holders. This operation increased the demand for sight bills on Europe, paid for with the gold thus drawn from the Treasury, and also the export movement of *gold itself*. The speculations in the gold room were quite active and generally upward through the week, and while on the average advance in price, some very heavy sales were made by capital holders, producing at one time a fall from 250 to 222 per cent, the movement was again carried up at the close of the week to 244 per cent.

The stock exchange also continued the lively transactions and the close of the previous week. It was partially checked on Wednesday by a turn in the money market less favorable to time loans to the brokers, but as this apprehension passed away in a day or two, the railways on Saturday were again firm and the speculative stocks in demand. Quite often the presidential election is some cause to-morrow, it seems, prophet that outside operators will feel more disposed to enter the market. Thus far speculation is mainly confined to the members of the regular and open Stock Board.

The import entries at New York, exclusive of foreign specie, from the 1st Jan to the 5th of November, inclusive, by our weekly statements, amount

To $193 372,615
Against same time, 1863, (monthly) 159,260,259

Increase to date 34,082,356

The export clearances of domestic produce and miscellaneous goods including foreign articles re-exported, current, from 1 to 5 of November,

To $18,665,519
Against same time, 1863, (monthly) 14,687,257

Increase to date 33,528,262

The export of gold and silver from New York, from 1st Jan to 5th November amounted to $59,623,877
Against same time, 1863 39,668,960

Decrease to date 563,000

The customs gold revenue at New York, specially pledged to the payment of the interest on the Funded and fundable gold bearing public debt of the United States, from the 1st Jan to the 5th November,

Amount to $59,623,877
Against same time, 1863 49,668,960

Increase at New York alone 11,141,336

The import entries of the past week, including the dry goods table in our last paper, amount to $1,860,87 against $3,759,753 the corresponding week last year. The export clearances of domestic produce amount to $2,207,598, against $2,210,547 same week last year. The export of specie amounts to $3,227,000, against $402,000 same week in 1864. The customs for the week are $778,000.

The New York *Commercial Advertiser*, of Monday 14th, says: There is a very general impression that, after to-morrow's excitement of the great political question, we shall again witness a series of speculation, such which prices will largely advance. That it, however, probably much less certainty about this "prospect" than is generally imagined. It must be taken into account that the market is now charged with securities that had no existence last March. Gold, coal and petroleum stocks, representing literally hundreds of millions of par capital, have been placed upon the market within the last nine months; they have passed, in all these, into the hands of the original makers, who are waiting their first symptoms of improvement in the market to press them for sale. The holders of these stocks have, in many cases, persons was either since dead have speculations in forced sales, but who are precluded from forcing it ordinary work, managements by having either placed this "Pet" sale, there is the important consideration that while the last July returns to the Treasury showed that $200,000,000 of United States bonds have been absorbed by the market, while there is every prospect that, for some time, the same demand will continue at the same rate. With such enormous additions to the floating upon the market, it is not easy to see how the most skillful manipulation of operators can accomplish a successful movement for a rise.

On the contrary, the natural tendency would seem to be toward lower prices. Moreover, the coming of Congress will quite probably be the beginning of a period of great uncertainty in financial affairs. Many reasons for deeming it probable that legislation will be strongly pressed for removing the gold premium that have created the existing high premium if gold, such measures could only tend to put down the price of gold, and of course, in sympathy. That there will be a great increase of activity in stocks after the election, there is, we think, no doubt; for many large holders are in such a position that they must soon bring the market early, but that the increased transactions will be accompanied by a material improvement in prices, appears very uncertain.

At the Petroleum Board on Monday the principal transactions were in Germania and Highgate, both of which were in active demand. The sales of Germania amounted to 8030 shares at $1,25@1,37½. Highgate sold at 1½. Both stocks have declared a dividend of one per cent for the month of November, which is equivalent to nearly 50 per cent per annum upon the present market price of the shares.

Chicago Market—Mail Report

NOV. 7—The leading markets to-day were very quiet and with the exception of wheat there was no material change to prices.

Flour was dull and almost nominal, with light sales of spring extra at $5,00@5,25 for good to choice grades.

The wheat market was dull, and advanced flat cents under a speculative inquiry. No 2 spring sold at from 1,87½@1,88½ cash or at 1,83@1,84 Winter wheat was dull at 1,95 for No 2, and at 1,80 for rejected red.

There was little or nothing done in corn owing to the limited offerings. Small sales were made at 1,39 for No 2, 1,28 for rejected, and at $1,00 for new corn in store.

Oats were in good request and sold to the extent of about 80,000 bushels at 64@65 cents for No 1 in store.

Rye was quiet and steady at 1,15@1,18 for No 1 and at 1,10 for No 2 in store.

Barley was dull at 1,54@1,57½ for No 2 in store.

There was nothing done in highwines, and the market was entirely nominal.

Provisions were steady and quiet. Pork was principally sold on private terms, green hams at 15c, and Kettle rendered lard at 16c.

PITTSBURGH MARKETS.

TUESDAY, Nov. 8, 1864.

Our business houses were all open to-day as usual, but few all the business that was transacted, we understand, was in the line of that they might as well have been closed. Our merchants, generally, were all at the polls and there were but comparatively few strangers in the city. There was nothing done in Grain, and the only new feature to notice in Flour, is that it is held at an advance, well known brands of Extra Family being quoted firm at $8-11. The oil and Groceries remain quiet and unchanged. Butter is in better supply and rather dull, though without quotable change, 23 to 25c for good to prime Roll. Eggs firm at the advance, 33 to 35c, and receipts continue light. Cheese is steady at previous rates—22 for Western Reserve and 23 for Hamburg. Apples and Potatoes, of good quality and in good condition, sell pretty readily at previous rates. Petroleum quiet, the only sale reported being 200 bbls Crude, light gravity at 35c, bbls returned. Hay is firm with sales of 4 tons prime baled on wharf at $38. In other articles of less importance, there is no new feature worthy of notice.

Philadelphia Stock Market.

Special Dispatch to the Pittsburgh Gazette.

PHILADELPHIA, Nov 8—The market for oil stocks was dull and unsettled early in the day, but closed buoyant and active. The latest sales were as follows: Ourtis, 15½; Coro Pioneer, 17½; Oil Creek, 6¾; Bridge, 4; McElhany, 6½; M'Clintock, 6¾; Deanmore, 8¾; Maple Shade, 42; Story Farm, 8, 1-16; Philadelphia and Oil Creek, 8; Egbert; 8¾.

Boston Dry Goods Market.

The demand for cotton goods is moderate, seasonable fabrics are selling in small lots as wanted at full previous rates; and there is a perceptible increased firmness in the views of holders, which denotes a rise whenever buyers make up their minds to come into the market and take hold in earnest. Everything in this line is, of course, now selling at a large sacrifice, as the bulk of stocks offering were made up of raw material approximating two dollars a pound. Indeed the present selling rates of plain goods do not more than cover the cost on a basis of cotton at $1,10. Hence, whenever it becomes necessary for manufacturing agents to replace their supply, they will, even if no other cause shall intervene to produce the same result, be compelled to materially advance their scale of prices.

Standard brown sheetings may be quoted firm at 56@56½ cents/ma. 42@50c; other grades in proportion. Pepperell Es, 67½c; do Is, 46c; Boott Os, 37½c; do Hs, 32c. Bleached goods are scarce and firm. We quote Wamsutta 64, 62½c; Bates do, 57c; Lonsdale do, 51c; and Androscoggin do, 50c; do 7-8 40c; Red Bank 4-4, 57½c; Cornet Jeans are selling at 85c for Amoskeag, and 45c for Pepperell. Cotton flannels are much reduced in stock owing to the demand for army wear, and sold at 45 cents for Hamilton and 55 cents for Pemberton Co. Printcloths quiet at previous rates, and some of the popular makes are out of the market. Ginghams are in less active demand at 49 cents. Lancaster ginghams, 40c.

Woolen goods are firmer with a decided advance in the raw material and a better inquiry from the retail and jobbing trade. The fall business in heavy woolens is now about over so far as first hands are concerned, and manufacturers are preparing to apply their machinery to the production of spring goods. But the demand for choice styles of fancy cassimeres is yet unabated, and the product of a few of our mills, especially the Scotch green plaids, is scarce and sold ahead at very full prices. We quote Warrenstocks firm at $1,12½@1,25. Satinets are dull, especially the low grades which are undesirable and not made up to the ordinary standard of weight and fineness But really substantial goods, which sell for $1at $1,25, are scarce and firm. Flannels, shawls, clothings and coatings are quiet at first hands, but selling well in the jobbing and retail line.

Foreign dress goods are firmer and more active, with the higher range of gold prices. The late auction sales have materially reduced stocks, and the balance of desirable styles are selling off rapidly. Low and medium cost goods are most wanted of both plain and fancy patterns. Poplins, coburgs, all wool delaines and alpacas are selling quite freely. Black silks and other high cost fabrics are of limited demand.

Review of the Chicago Hog Market for the Week Ending November 5th.

The week now closed has been the most active we have had during the present season, and the receipts have been heavier than we have yet had during the current year. A very present rate of weekly increase we may soon exp ct to make up for the lateness of the season, and the limited receipts with, which it has been characterized.

The opinions we had formed and expressed of the high prices that would it is misfortune, at all events for some time, appear to be fully sustained by the daily transactions of the market, and the increasing confidence which is manifested by the principal operators in our trade yards. With the increase of over 15 per cent. upon the receipts of last week, and that of fifteen 25 per cent upon the corresponding week of last season, prices have advanced 25@50c per 100 lbs upon the quotations of last Saturday's market, and at the close of the week there are comparatively few Hogs remaining over unsold.

During the past week there has been a great shipping demand. Shippers had previously stayed more than ordinarily active, and their purchases were generally very limited. They undoubtedly arose from a conviction that prices would decline, and we fully justified by the fluctuations and frequent depressions which had characterized our Eastern markets. But with an unprecedented demand for Mess Pork and Bacon, our shippers have manifested their utmost endeavors to meet the wants of the market; the result of which is, that we have at present a demand fully equal to the supply. Our shippers have apparently recognized the fact, the if Western packers are not disposed to take Hogs at present prices, Western ones are; to this may be attributed the confidence so generally expressed.

There were in the yards this morning about 14,000 Hogs, including the daily receipts; the aggregate since during the day amount to 12,259 head; of which 8,000 were bought by considerable activity, and the current rate of the market yesterday were fully sustained. Last Saturday's operations amount 8,000 Hogs, previously unsold, were all disposed of, and will be weighed to-morrow morning. Two or three heavy trains are expected to arrive this evening, or some time to-morrow.

Philadelphia Cattle Market.

PHILADELPHIA, Nov. 7.—The demand is limited and the market dull; about 2,800 head arrived and sold this week at prices ranging from 10@16½ cents for to good, and the latter for choice—13@14½ cents for to good and fat; common at from 8@9 cents per pound as to quality.

Cows—Prices have advanced and the offerings are very light. About 75 head arrived and all sold at $35@70 for Springers, and $45 up to $80 per head for Cow and Calf.

Sheep—Prices continue firm and the demand is good; about 4,300 head arrived and sold at from 7½@8¾ cents per lb, gross—and to-quality.

Hogs—have declined 3,000 head sold at the different yards at from 11@11½ the 100 lbs., nett—markets dull.

GLAD NEWS!

FOR THE UNFORTUNATE!

THE LORD SOVEREIGN HAS DISCOVERED AT LAST

CHEROKEE REMEDY
AND
CHEROKEE INJECTION.

Compounded from Roots, Barks and Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhea, and is especially recommended in those cases of Fever Albus (or Whites in females,) where all th old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose being from one to two teaspoonfuls three times per day.

It is diuretic and alterative in its action—purifying and cleansing the blood, causing it to flow in all its original purity and vigor, thus removing from the system all pernicious causes which have induced disease.

Cherokee Injection is intended as an ally or assistant to the Cherokee Remedy, and should be used in conjunction with that medicine in all cases of Gonnorhea, Gleet, Fluor, Albus or Whites. Its effect are healing, soothing and demulcent; removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain, that is experienced with nearly all the cheap quack injections.

By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars, get our pamphlet from any Drug store in the country, or write to us, and we will send free, to any address, a full treatise.

Price, CHEROKEE REMEDY, $2 per bottle, three bottles for $5.

Price, CHEROKEE INJECTION, $1 per bottle or three bottles for $5.
