SATURDAY, Nov. 12, 1864.

The stock market is livelier than usual. The violent fluctuations in gold, since previous report, appear to the most of all things on hand. Confidence in Government is returning and 6-20's are much sought after at 112@112¼.

Money market comparatively easy. Philadelphia telegraphic report says easy at 6 @ 7 per cent.

The past from the large Movie Grade well are very encouraging. A gentleman arrived in this evening that he has actually tried salt, reliable information that he has actually tried salt, reliable information that he has was yielding 60 barrels of good oil. Considerable enquiry for Wallingford at 75@76; sales of Fleming & Bond at 85; Eldorado at 35¢.

The demand for Money eases the Chicago Boston Journal, of Friday, quite easier. Call loans remain at 7@8 per cent. Stocks in the Bank-tanks during the six days ending at 1 month ago are steadily diminishing. Rates are low, the principal reason, that is talked about, Seattle the amount of Money to carry on their business that it did a year ago, is the idea to presume that we might have a panic. It certainly is a very marked a month hence. The current rate of interest is 10 per cent. And the Banks say that on the 15th instant the old system of 6@7 per cent will be restored.

The New York Times of Friday says: The Gold Room reacted to-day 6@10 per cent against the extreme rates of yesterday, and near the close was weak at 2½@2¾ per cent. The theory that the popular tendency would be downward, after Lincoln's election was chemistry would necessarily and rapidly advance the price of gold, mixed with less practical soundness in the Gold Room than the revolutionary manipulations in the market for the Electoral candidate's. The public at large have no confidence in it, or they might not be bears enough to carry out upon that view, for the 7,300 packages since Nov. 1, is unprecedented. The era of good feeling is coming when the people of this country, who have known to hope, will return to such honest than was anticipated by the political opponents of the Administration, and the reaction will be felt quickly, followed by the return of the Southern States to their allegiance under the Constitution, the fact will not be found with the Presidential election, the general spirit in which he can now afford to meet all overtures made, or even solicited, in the proper spirit, by the rebels in the field.

We are glad to meet with an authorized introduction of a report from Washington, that the Treasury Department was about to invite a new loan, and instead, by setting gold out of its hands, to depend to a market to buy per cent premium. This is the first act of the Government which is authorized to contradict, and adds that Mr. Fessenden, the United States Treasurer there before, is not in favor of the measure. The first act of an advance instead of a decline in the premium upon it, and the Treasury's rate agrees with this opinion that this would be the best thing to do. The Government has not said to agree to such a report, as that it would effect the desired object, and then the people would compel the Department to do it as the result predicted by parties who urged it, that course is not likely to be adopted. The Government is not in the habit of offering loans on the part of all to support heavily every attempt of the Secretary to supply the needed funds, even if that attempt does not coincide with the views of the Secretary, but the best plan, will stone prevent any further advance in the currency per of gold. This support is the duty of all parties to the ballot box. The duty of the administration, they confidently say upon it. This being conceded, it is hoped that the country of all will have their faith brought with the head of the Treasury.—Phila. Ledger.

Review of the New York Grocery Market.

(From the Commercial List, Nov. 12.)

Coffee.—There is more inquiry for Brazil and West India descriptions for home use, and though the market is at times somewhat unsettled by the violent fluctuations in Gold, the close quite steadily at the full currency of Tuesday last. The sales are 1849 bags Rio, per Company, at 40 cents; 1613 do, on note, 43@47; 188 Java and Mocha, Glenning, at 50; 4 mats, 1860 Rio, half the cargo per Tyson, in bond, for export, for gold; 75 Maracaibo, on private terms; 1700 Maracaibo, 46@ 0 cents 9 mos from Saturday; 491 do Gibraltar and 1 Rio, part 37 or small lots, 45@46; 254 do, 45¼ more; and 150 bags St. Domingo, 46@48, cash.

Sugar.—The market for Raw is quiet, strong and steady at last week. Fair Refining Cuba is the current at 12¾ cts on the cost and 60 at 13¢. The clearings consist of 1000 hhds and 3 and 4 tcs qualities of all kinds are scarce and wanted. The stock of New Orleans is light, and prime qualities about out of market; the quality expected to end of January next, is supposed, will not exceed 5,000 hhds; while 37,000 hhds were received the corresponding month of 1863 4. Refined remains in request, and has advanced 1@1½c; we quote, other than Sugars, 20 cents for Hard, 17½@ 18¢ for Soft and White, and 16½@17 for Yellow. The sales of the week are 2776 hhds Cuba at 12 7-16@c; 61 Porto Rico, 12@13¢; and 1 Sandwich, chiefly 12¾ @ 13¢, and 1,000 Old Government Java, 20¢ cash; 200 Manilla, 12¢; 20 Penang, 20¢ cash; 241 bags (equal to 1000 bags) Batavia, on terms not transpired. Besides the large sales of Cuba Muscovado, reported in our previous quotations, there has been a large number of other transactions have taken place, the particulars of which are not given, amounting, it is supposed, with those noticed above, to 7000 and 8000 hhds, all for Refining. The stock yesterday was about 84,023 hhds, 32,934 bxs, 26,078 bbls and 1500 hhds Manilla.

Molasses.—We notice a continued fair demand for home use, and though not active the market is very steady, and prices are well supported. The sales are 374 hhds and 31 bxs Clayed Cuba at 31 cents; 103 hhds Cuba Muscovado, 30@32; 50 bbls do, 70; 157 Porto Rico, 33 @34 1-2¢; 4 mos and 227 hhds New Orleans, 31 1-2@32 cents. The stock yesterday was about 8193 hhds Cuba, 3159 Porto Rico, and 1250 hhds New Orleans.

Rice.—The business is quite moderate, but we notice more inquiry and a firmer tone to the general market. The sales are 6 casks and 25 casks No 1 Rangoon, at 11 and 11 7-16; 20 casks Hade, $1.80; 2750 bags Pepper, at 20@20½; 4,000 do, for export, 20¼@20½; in-bond, gold; 500 bags Cloves, 19@20c, cash; 1350 mats Cassia, part in bond, 19 bags Pimento, on terms not made public

Tea.—There has been less activity and less inquiry in the market than on Tuesday last, with a disposition to shade the prices, but the changes are unimportant. The business in bond for immediate use continues pretty large. Among the sales we notice 1500 Uncolored Japan, 3000 Oolong, 650 Green, &c. Current prices are about 5 cents higher than our notations.

Pork Packing at Louisville.

The hog market for packing has not opened here, and we hear of no purchases on the part of packers. Prices are pretty well sustained, and we quote a sale to a speculator of 9,000 hd hogs at 7,95¢, on Sept 10 to Jan 1, weights on delivery at the farmers' posts, on the railroads and Louisville, Nashville and well fixed, sold at 8½ to 10¢c, gross. The clerks at the Shelby House were of good qualities. The offering at the Shelby House were of good qualities. but no sales made at higher than 8 to 8½¢, which was the best price paid by packers for good corn-fed hogs, delivered. Sales of heavy hogs were made as high as 10¢.

PITTSBURGH MARKETS.

SATURDAY, Nov. 12, 1864.

The week which has just closed has not been characterized by any new feature in a business way, worthy of special notice. The violent fluctuations in gold has had a tendency to keep the general markets unsettled, and while some few articles have depreciated slightly in value, others have advanced materially; and, judging from present indications, the reverse will be equally true. There has also been an improved demand for some of the leading commodities, and as a general thing, this may be taken as the rule rather than the exception.

GRAIN—The demand for Wheat is fair and the market is better, attended with regular sales from store at $1 for Red, and 2,05@2,10 for White. Barley is not very active, but prices are unchanged; sales at 1,60 for spring and 1,65 for fall. Corn is in good demand and firm with sales from store at 90@92. No change to note in corn, but little offering and not much wanted.

FLOUR—The general impression among dealers is that the price of Flour must still further advance as they allege that they cannot bring it here and sell at current rates. It is, yet, however, the demand continues quite moderate, and sell known brands of superfamily may be quoted from store at $11@11,25 per bbl—the bulk of the sales being at $11.

GROCERIES—The grocery market is quiet, but steady with sales in a jobbing way at previous quotations.

BUTTER—Is in pretty good supply and the market is, in consequence, a shade easier, though prices are unchanged. We note sales of roll at 39 for fair and 40 for prime.

EGGS—Continue scarce, and, with a good demand, the market may be quoted firm at 35c per dozen.

VENISON—Sales of 8 saddles at 25c per lb.

POTATOES—Are coming in pretty freely, and the market is a shade easier. We note sales of "Peach Blows" from depot, at 90c, and small lots from store at 1,00@1.

CHEESE—Steady with regular sales at 23 for W R and 25 for Healthy.

LIME—Sales of 60 bbls at 2,25.

HAY—Is firm with a fair demand and light receipts. Sales from scales at 20,00 per ton.

APPLES—Steady with sales to a fair extent at $2a 2,25 per bbl, as to quality.

DRIED FRUIT—Not much inquired for. May be quoted at 8 cents per pound for apples, and 22 cents for Peaches.

Pittsburgh Petroleum Market.

Nov. 12—The Petroleum market has been tolerably active and pretty firm throughout the past week, and while, at times, its movements have been retarded by the fluctuations in gold, the receipts have been very light, and the demand has been fully up to, generally, in excess of the supply. As compared with the closing rates of last week, the prices of Crude show a material advance, the ruling figures to-day being Stable, barrels returned, and 28@29, barrels included—some holders asking the even 30 and 40. In Refined, there has been less activity than usual, which is owing mainly to the extreme views of to days. Some sales of bonded for Dependent delivery in New York, were effected at 71 and 72¢, and we understand, 50c was offered free on board cars, here, and refused. Free Oil is firm with some few sales at 77 and 78¢, for 50, and 100 barrel lots, and 2@3c more in the small way. Naptha has ruled quiet, the only sale reported being 100 barrels, "Brilliant" brand, at 41c. Benzine is still quoted at firm at $7 per barrel.

The receipts of Crude by the Allegheny river since our last report comprise 1270 barrels, as follows: 700 for B C Cochran; 231 for Fisher & Bro; and 339 for Lyons & Co,

New York Petroleum Market.

New York, November 12—There is a fair demand for Crude and prices are firm but unchanged; sales at 44½ on the spot, and 45 for all this month. Refined is bond is steady with a fair demand at 71, on the spot. Free Oil is very firm and holders generally are asking higher rates—83, on the spot. No new feature to note in Naptha.

Baltimore Market.

Nov. 11—Sugar—There is a good inquiry from the trade, but the advance in gold, together with light stocks and few arrivals, prices are held several cents higher at the close, restricting transactions. The sales for the week amount to 600 hhds Cuba at 12¾@13¢ for grocery grades; 50 hhds prime Porto Rico at 12½; 200 barrels muscovado at 17½; now held at 18@19¢. At the close prices asked range as follows: Cuba 6 and 8 hhd fair to good 12½@12¾c; most do do grocery at 13¢; do to prime, 13¾c; new Porto Rico, fair to grocery 13 ¾c; not do do prime to choice, 13¾@13¢. Brazil, current quotations, 12½c; Havana No 12, 13¾c per lb. Arrivals this week 900 hhds, 11 tres 500 bbls, 83 bxs and 17 mats from Cuba.

Refined Sugars—On Wednesday prices were advanced 1 cent on hard and 2¢ cents on soft—rushed On Thursday, further sales at the advanced figures were refused, and prices at the close were unsettled, though tending still higher.

Molasses—Supply is fair, and demand good for prime qualities. Western Reserve we quote at 46@48c; Southern Ohio 38@42c; Glades in the dairies are scarce, and command full prices, very choice now sold at 50¢; some of sales at 45@50c; New York State prime tubs, 1 hhds good firkins 45@50c; Boston, same; common to good at 42@45c, and prime 43@45 per gallon.

Cheese—With fair supply and moderate demand, we report sales of western cheese at 20@21c; New York at 19@20c, as to quality; a lot of 500 boxes was offered on the inside factory, without being taken; eastern cheese is quite scarce and readily at 22@23 cents, and New Jersey at 21@22 cents, and choice, in small lots, at 23 cents per pound.

Rice—Are scarce, and command 7@7½c per dozen, as they run according to marks.

Coffee—The further advance in gold has caused another rise in Coffee. Sales in the week to date of 500 bags Rio were reported at 45c, but the past day or two holders have been very firm at 46@46¢, as to quality, but without sales worthy of notice. We have to report the arrival of 603 bags from Rio, ex-ship Grey Eagle, Stockton in first hands, 17,000.

Chicago Market—Mail Report, Nov. 11.

Wheat opened at $ 2@$1,84 for No 2 Spring, with a fair inquiries demand, but the decline in Gold caused sellers to withdraw, and the market receded to $1 80@1,81—selling quiet. Winter Wheat, and No. 2 spring were declined almost nominal.

The Flour market was tolerably active, but the sales private have been firmer, as to prices.

Corn was scarce and in demand, with an advance of 1@1c per bush. No 1 sold at $1,24; No. 2 at $1,20@ 1,21, and Rejected at $1,22 in store.

Oats were in fair demand and without any material change. No 1 sold at from 73@74c—principally at 73¢.

The market for Rye was quiet and 1@2c lower, with sales at $1,13 for No 1; $1,09@1,11 for No 2. In store No 1 Barley was still and heavy, and it was difficult to effect sales except at favorite localities. Sales of No. 2 ranged from $1,40@1,50.

There was little or nothing done in Hay wires, and the market was almost nominal at $1,25@1,50.

The Grocery market rules firm, and sales and advances on Coffee, Syrups, Molasses and Sugars. Spices rule firm with an upward tendency.

Provisions are held with more firmness on account of the advance in Gold. Mess Pork sold at $16,00; Prime Mess at $14,00@14,50; Prime at $12,00@12,50. Pork Packing in Milwaukee on the Old—Mail Report.

The hog market was very dull to-day, probably owing to some degree to the severe storm prevailing, and although receipts were not large, the market was fully 25c lower, and even at that decline buyers were hard to be found. The latter were, no doubt, glad of the excuse which the state of the weather afforded them for leaving out of the market until they could see what effect the result of the election would probably have upon gold. A thousand or more hogs remain in the pens unsold to-night. The following are the only sales made to-day:

No.	Av.	Price
63	218	$10,50
83	213	9,62½
45	230	9,50
