MINERAL VEIN DIVIDENDS.—Notwithstanding the greatly reduced production of the mineral veins, and the virulent attack levelled on the price of raw material, some of the very rotten banks are making their affairs so as to pay large dividends to their stockholders.

The Lowell Manufacturing Company has declared a dividend of $50 per share, payable on December 1, to holders of stock on November 18. The Globe Steam Mill's Company has declared a dividend of 10 per cent payable Dec 1st. The Home Steam Mill's dividend for December is 10 per cent, which makes 33 per cent for the year 1864. The Bartlett Mills Company has declared a semi-annual dividend of 6 per cent.

The Richmond City Company announces a dividend of one per cent out of the profits of the company for the month of October; payable, clear of taxes, on and after the 20th inst.

Those who had looked upon the New York Commercial as the organ and mouth of the Presidential election, or a termination of the paralyzing suspense in which business has been so long kept, have now to acknowledge themselves disappointed. It is true that, so far as the future course of trade and finance depends upon the policy of the party in power, the election has enabled business men who hold it to estimate the chances for the immediate future, but it still remains sufficient cause to pity about the future to prevent them operating for anything proximate. With a monetary crisis, the value of which answers as rests truly to the sweetness and rumors of the hour, and fed by quick flying to the charges of the stock sphere, there is a h, nor can there be, that confidence in the markets which is necessary to a healthy condition of things. Those who, last month, were waiting for the result of the election, are now waiting for the indications of Secretary Fessenden's annual report on the finances; which, it is imagined, will supply terra firma to the merchant; the truth, however, will probably prove to be that, of Mr Fessenden it has spoken, the whole hood especially come unto everyone for waiting through a harassing, dangerous and expensive season of suspension by the evils developed by our false system of finance. Trade and commerce so have to contend against a monetary system that is daily changing the values of commodities and securities, and any legislative measure that fall short of restoring to the country a currency of fixed value will probably fail to improve the condition of business. Speculation has ordinarily been based upon changes in the supply and demand of commodities, and though often abused, has yet upon the whole had a beneficial effect upon our material interests. Speculation now would be based upon the fluctuations in the value of money. Fluctuations scarcely at all regulated by the supply or demand of commodities. A more unsatisfactory description of commercial affairs could scarcely be conceived.

The New York Journal of Commerce of Saturday afternoon, says: "The rumor that the government was about to sell five millions of gold out of the sub-treasury has, was at first started for speculative purposes and it has been repeated until many persons suppose that the recent decline was the result of such a movement. This is not a word of truth in it. The treasury has had no gold to spare for any other object than the payment of interest. Each mail from Europe now brings a large number of coupons from the 5-20's due November last, but which could not be cut from the bonds until after the date of maturity. A bond is not considered negotiable abroad. If the coupon be lacking, and the exchange payment is likely to be little benefit to a foreign holder. The steamers to-day took about one and a half millions to specie, a large part of which went as a courtesy for the interest taken from us."

### PITTSBURGH MARKETS.

WEDNESDAY, Nov. 23, 1864.

The general markets continue quiet and inactive, which is owing mainly to the fact that the receipts of produce are very light and there is no stock on hand to operate to to any extent. There is a firm feeling on the part of holders in regard to values, and the general impression seems to be that a still further appreciation is likely to occur.

GRAIN—Wheat is firm and in demand but the receipts are exceedingly light; we continue to quote prime lots from farm wagons at $2,00@2,10 for Red and White. Barley is firm; prime lots from farms at $1,70 for Spring and $1,80 for Fall. Oats in good demand and supply very light; sales of car lots from store at 95c. Corn steady with regular sales of ear lots from store at 1 50@1 55

FLOUR—Market firm and more active but prices remain unchanged. Sales of 700 bbl Extra Family from store at $11@11,25. The receipts continue very light and at no time this fall has the stock been so limited as at present.

BUTTER—Is firm with some inquiry from the East for prime Roll, but prices have undergone no change. Sale of 4 bbls strictly prime Roll, to go to Philadelphia, at 43

EGGS—have sit l further advanced, sales having been made as low as at 40c per doz. Receipts very moderate and stock almost exhausted

POTATOES—Steady, with regular sales of "Peach Blows" from store at 85 to $1,00 per bushel according to quantity and quality.

APPLES—The demand is fair and the market steady with regular sales at $3 00@3,50 per bbl.

HAY—Is firm but unchanged; sales from car loads of 10 bales at $20 per ton for Clover, and $45@50 for Timothy.

CHARLESTON—Is quiet but firm with regular sales at previous rates—$2@50 for Western Reserve and Hamburg and 25 for Goshen.

SALT—Is quiet and unchanged, being still quoted at $3 per bbl on the spot, and $3,10@3,15, delivered.

### Pittsburgh Petroleum Market.

Nov 18—The market for Crude continues to rule steady with only a moderate demand, however, yet the receipts are light and the stock on hand almost exhausted We note sales of 100 bbls at 34, bbls returned; 400 at 34½; 75 at 35, and 35 at 39, bbls included. For Refined in bond, there is an exceedingly "stubby" from the East but so far as we can learn there has not been a single operation this week. On the spot, 60c for standard as the nominal quotation, though but few buyers at present would be willing to pay this, and but few sellers would be willing to accept. Free Oil is quiet but steady with sales at 39@40. Naphtha is held at 37c in bond and 40c free, and the stock in first hands is very much reduced. Benzine is quiet, and in the absence of sales, may be quoted at 37 per bbl.

The receipts of Crude by the Allegheny river since our last report comprise 912 bbls, as follows: W H Byram, 507; Jas Wilkins, 125;—Clark 280.

### New York Petroleum Market.

Special Dispatch to the Pittsburgh Gazette.

NEW YORK, November 21—The market for Crude is again for new and holders are asking an advance, but buyers operate with great caution; the nominal rates on the spot are 47@47½. Refined in bond is quiet and rather dull, but prices are nominally unchanged—47@47½ on the spot. Free Oil, 60c, is dull and neglected but unchanged at 60c. Naptha remains substantially as last quoted, and quiet.

### Philadelphia Stock Market.

Special Dispatch to the Pittsburgh Gazette.

PHILADELPHIA, November 23—The market for Oil Stocks was less active to-day, and prices, generally, were irregular. ### Central Stock Boards—Weekly Review

Reported for the Pittsburgh Gazette.

STOCK EXCHANGE, Nov. 23, 1864.

The receipts of Cattle at these yards during the past week were comparatively small, the whole number being estimated at about fifteen hundred head.

The supply, however, was apparently fully equal to the demand, the real g for but few wanted for the east, and Government contractors—so we were informed—failed to make their appearance. The quality of those on sale was fully up to the general average, in fact, some fine cattle were placed in rather above, being mostly large heavy Western cattle, in good condition, and well adapted both for this and the eastern markets. There was but comparatively few sales effected here during the past week, and, while it is true that the bulk of the cattle were not intended for this market, it also is a fact that buyers would have experienced no difficulty in picking up several hundred head. Prices ranged all the way from 4 to 7c, the latter figure only being reached in a few instances, and a smooth heavy cattle.

John H Glass reports having sold 22 head of light Indiana steers, averaging about 800 pounds at 6½c, 38 head of same description, averaging 950 pounds to O F Clark, at 6c; 17 head of extra O. losts averaging 1570 pounds, at 7; and 17 head do do, averaging 1420 pounds, at 7c.

John M Rhine's who sealed 50 head of common light Indiana steers at 5c.

There were some few other sales effected during the week, the particulars of which we were unable to learn, but the great bulk of the stock was sh ped East.

HOGS.—The cold weather which has prevailed during the past few days, has caused a firmer feeling in the live market, and we consequently with last week may be quoted a shade higher. On Friday and Saturday the market was dull and heavy, with a supply somewhat in excess of the demand, but on Monday, Tuesday and to day there was a good demand for all kinds, and all of the heavy smooth hogs on sale were readily purchasers at extreme prices, say from 11,00@11 ½c per, gross, a little better only for extreme We were unable to learn exactly what the sales amounted to during the week, but those who ought to know, say about fifteen thousand head. The following is a more mode:

W M Tilson shipped cast principally to New York, through John Rosenbaner, about ten thousand head.

SHEEP.—The receipts for sale have been extremely light during the past week, reaching only about two thousand head, and the most of these were shipped east. The only sales we could hear of was 400 head sold by McPherson & Coat, $7,25. The demand seems to be limited, and while the market ruled rather dull, prices have undergone no change.

### Baltimore Market—Wall Report.

Nov 21—Cotton—Middling declined in gold has depressed the market several cents per pound for it. We have no sales.

Flour—We quote, but holders were rather firmer in all cases and toward street rates were reported at full 1 15@1 25 per bbl. A sale of 10 wagon extra was made, but the terms kept private. Nothing doing in city mill descriptions. Howard street family nominally unchanged.

Grain—Wheat 2,700 bush white, and 11 600 bush red in the market demand was active for home milling purposes, for which fine and choice red and prime new were in request; there was no improvement in medium grades. The stock includes 120,000 bush white, ordinary to prime, at $2 10 @2,80, and 1 000 do choice do, $2,90@3,00; white bush prime to choice, at $2,80@3,05, and 900 yesterday sold at $2,80@3,00 per bush. Corn, 6000 bushels old mixed, nearly white, demand good and prices unchanged, with sales of 2300 bush new white at 1 73@1,76, 1000 bush do for at 1,80, 3800 bush old do at 1,76@1,82, 200 bush new yellow at 1,75, and 1300 bush old do at 1,85 per bush. Oats, 4000 bushels offered; part only sold at 85c, weight

Molasses—We hear of nothing doing; prices in the absence of sales are best nominal.

Provisions—There is nothing worthy of special remark. New pork is quoted at 41,50@42 for old, and $43 @43,50 per bbl for new western. Bacon, hi-cents for sh sides, 23c for side, 20c for plain hams, and 24@25c per pound for canvas cured. Lard 22c, but nominal for western bbls; Baltimore refined steadily per lb for kegs and in tins.

Salt—With liberal stock of Liverpool the market continues inactive; the demand is confined to jobbing lots from store at 2,60 for ground alum, and $4,50 per sacks for fine. York Island steady at $1at,05 per bush.

## MEDICAL.

### GLAD NEWS!

FOR THE UNFORTUNATE!

THE LONG SOUGHT FOR DISCOVERED AT LAST

### CHEROKEE REMEDY AND CHEROKEE INJECTION.

Compounded from Roots, Barks and Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is especially recommended in those cases of Floor Albus (or Whites in females,) where all th old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose being from one to two teaspoonfuls three times per day.

It is diuretic and alterative in its action—purifying and cleansing the blood, causing it to flow in all its original purity and vigor, thus removing from the system all pernicious causes which have induced disease.

Cherokee Injection is intended as an ally or assistant to the Cherokee Remedy, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor, Albus or Whites. Its effect are healing, soothing and demulcent; removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain, that is experienced with nearly all the cheap quack injections.

By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars, get our pamphlet from any Drug store in the country, or write to us, and we will send free, to any address, a full treatise.

Price, CHEROKEE REMEDY, $1 per bottle, or three bottles for $5.
