al a second to be a second

THE DUTY ON PAPER. We have ever advocated the principle of protection to American manufactures, in all-cases where protection signing foreign competition was essential to; the establishment and development of, any manufacturing interest requiring it; but there are some branches of manufucture that do not require it, in order to enable those engaged n them to compete successfully and profitably with foreigners engaged in the same. asse. In such cases a protective tariff only operates to enrich a few at the expense of the many. To this last class of manuost emphatically, may be asactures : m signed that 'of paper an article which everybody uses, and in which rich and poor are directly interested.

For several years before and one year fter this war ibegan, printing paper, such as is used for newspapers, sold for 9 and 10 cents per pound. In another year it rose to 13 and 18 cents. The third year-it ad vanced to 15 and 16 cents, when gold was at nearly as high a premlum as it is now. So far there was nothing of which reasonable men could complain. But during the past eight months, the price has advanced rom the inst-mentioned figures to 24(a) cents per pound.

This enormous advance is the result of : on among eastern manufacturers, and is at least six to seven cents per poun beyond what would yield them a fair and legitimate profit. The fact is, paper can be manufactured in this country at a profit-no matter what may be the condition of the money market without any governmental protection against foreign manufacturers, Now as the duty on imported paper is twenty per cent., payable in coin and as minfacturers have graduated their prices just a shade below what the imported article after paying that tarif, would cost, it follows that this twenty per cent. goes to enhance their profits to just about that mount. The national treasury is not benefited by this impost, because little or.no paper is imported; but it does 'pour' some millions of extra profits into the coffert of manufacturers, who, by a combination, have rendered the wholesome principle of com petition inoperative. But suppose the duty m paper viere repealed, what would be the effect ? Would it stop our American mills ! Not at all; but it would at once reduce the price of paper about twenty per cent:every sheet of paper like this-but still ena ble the mills to make a fair profit.

We have said that paper can be profita bly manufactured in this country without the protection of a tariff. There is no coun try on the globe more productive of the raw -rage, straw (which now enter largely into the composition) and the othe cheap and simple ingredients, including the necessary alkalies. True; the cost of rags is very high now, but a very little importaufactured article will brin tion of the ma down the price of rugs to a reasonable figure, and then that importation may cease The manufacture of paper is by no means in its infancy in the United States, so as to ring hand of a paternal gov need the fo

great and now exacting interest is only injure the country, without any compensa-tiby benefit to the government. Neither on the principle of protection or of revenue is the duly on paper (which is really a tax on knowledge and intelligence) justifiable. It is not needed; it yields no revenue; it is a. direct tax upon publishers, and through them upon the whole people; it curtails the diffusion of general intelligence; and even enters the school house to levy its exaction upon the fountains of knowledge. And what fort . That a comparatively few rich men may grow enormously wealthy .... We most carnestly commend this impor-

tant subject to the attention of Congress expressing at the same time, our conviction that they cannot do a more just, beneficial and popular act than to repeal at once the on paper-a duty not needed to strengthen and build up a struggling interest, which yields no revenue, and is an onerous tax upon the people, at a time when, is all conscience, they are taxed enough,

AN ELOQUENT AND NOBLE UTTER-

It is one of the most cheering and hopeft signs of the times that the ministers of the Church of Christ-of every denomination have been constrained to take, their part. more or less openly and boldly, on the side of liberty, truth and patriotism in the great struggle in which this nation has been engaged for the past four years. Even those of the Episcopal Church-a church which has hitherto kept Itself the most aloof from the struggles and sirifes of the outer world. has come forward nobly to the rescue; of those sternal principles of truth and rightcourners which were involved in the late political canvass, and which were so gloriously windicated by the vole cast on the 8th of November. A friend put into our hands a copy of a

nched on the late Thanksgiving Day by the Rev. A. M. DE WOLF HOWE Rector of St. Luke's Church, Philadelphia. It is a noble utterance of a Christian and p patriot, and we cannot forbear quoting few of his closing sentences. He

EBys: Never was there a national expression there the world began, in which men and their pety ambitions and personal interests were more completely ignored; and only i more completely ignored, and con-ciples and purposes were avowed, con-d and determined. And I cannot sup-1 incipiles and purposes were arowed, con-itested and determined. And I cannot sup-poce that there is now an American heart, whatever may have been its yearnings while this issics was pending. that, does not thrill with adminition, in the view of a great peo-ple, and hey his own countrymen, fishing up out of their sorrows, like a Phennix out of the freekting in the struggle, which, they judge to be for national honor and right, must goon to a riumplant result. When I remember that this decree has been spoken from the sort in the high places of the field." when I reflect that it is the voice of a people already burdened with the necembra the times there not signification the their voice of the disting the times there are so of the field. "when I reflect the time indom lists for-ward, and consider the tremendous listbilities which this torrision invites, —the draught which this torrision invites, imposite upon the persons and estates of the geople, —I stand in a we of the minder, and the other of the country, fresh imposite upon the persons and estates of the geople, —I stand in a we of the arthquake, and feel ested and deter

Of course n ticket is all through rebel channels. It is plain that his campaign through Georgia has

an lickel. Pursuant to law the State Canvassers fact on the 28th inst. to count the votes cast for Electors of President and Vice President of the United States in the State of Kansas, which resulted as follows: licen a great success, and that so far he has had everything his own way. He probably which resulted as follows: Robert McBardney received 12,034 votes. W. F. Cloud i 13,709 (" Thomas Moonlight 8,652 (" Marcus J. Parroli 5,102 (" Nelson Colb ", 5,022 (" Thomas Bridgens ", 2,665 (" A. G. Ego ", 3,003 (" E. Chessbrough ", 112 (" reached Savannah yesterday.

Ravages of Wild Animals in Southern California. The San Francisco Bulletin says: "The destruction caused by wild animal

o the flocks and herds has been very serious bis year. We are informed of rancher n the lower counties who have lost hur fiels of sheep, horses and cattle by bears, lions and covoles. . These destructive brutes

E. Cheesbrough "112 " A nATLATE in England lately served a process from the court upon a poor man in Blackburn, the amount claimed being small. The whole of the family being out of work, and actually in want of, the common neces-saries of, life, they were unable to muster the payment of, one shilling for appearance, whereupon the balling selzed the family Bi-ble, almost the only remaining remnant of the household goods, with which he walked off in triumph. uppear to have heer deprived, by the exciasive stought, of their usual supplies of vicinition, squirnels, coops, hadgers, onts, norins and whild fruits and have endeavored for make up for their loss by warjaring the fattest and youngest ranch animals which have survived the senson. In August and Scottember past, the bears in the mountain pastures of Santa Barbara and Los Angelos, have killed them daily for weeks in great numbers, particularly cattle. The fam-lionses in the San Marcos, mountains have Leen rodcord often, night after night, by grizilies of the biggest breeds, and their tracks lie about next morning as thick as a band of horses. Their boldness is extreme, and not without much danger, even to the best huncers and requeres. off in triumph.

AsoLITION OF SLAVERY IN CUBA.—From information received from Cuba, it appears that a petition signed by over a hundred planters of that island was presented to the Captain-General, urging lift to use his best offices with the Queen of Spain for the abo-lition of slavery on that island. He receiv-ed the petition, and remarked that he would, wait before he took any action in the matter until after the Presidential election in the 'United States, as that contest would, in his Jnited States, as that contest would, in his udgment, decide the future of the slavery

adgment, decide the future of uestion in the United States. REFORT OF THE COMMISSIONER OF INTERNAL REVENCE.—The Commissioner of Internal Rev-ence expresses the opinion that the present years revenhe; including the additional income tax, will be at least \$25,000,000. If it is desirable to nears so this to \$300,000,000, he recommends a tax on sairs of one-half of one per cent. to make up the deficiency to be imposed for one year, only, as after that the present fax lists will yield the required amount. The only important changes recommended by the Commissioner, are taxes on petroleum and tobacco in the leaf, with corres-سنبه عنبه

a band of horees. 'Their opidates is extreme, and not without much danger, even to the best hunters and capters. "'Catig Tyrizes, 'Done and coyotes invo traly been death on sheeps and colts. But what is curious, the coons-during the sum-mer and fall have left the monstalps in great numbers, and descended to the cultivated lands in many parts of Los Angelos Santa Barbara, and eaten up culter cops of gar-dens and fields, and elemed out eggs, chick-ens, gophiers and squirrels. They are called Mapaches by the natives; and their holes and those of the badgers may be frequently seen exervated by the grizziles, in their sav-ace effort to get a taste of coon meat. In fact, the rancheros say they were driven out from their retreats in the higher cana-das and hill sides, and several fields were cleaned out by them. Singular to say, there has been a great mortality among the gophers and ground squirrels, and they have been tremendously thinned off by star-vation, and the predacious birds and quad-tupeds." recommended by the Commissioner, are taxes on petrolicum and tobacco in the jent, with corres-ponding reductions in the reflaced and manufac-inred products. The costinated receipts of the special idcome tax authorized by joint resolution of July 4th, 1864, are \$35,000,000. The tax by National Banks during the first seven months the current fiscal year, amounts to .- Boston Journal.

Chief Justice Chase.

In speaking of the project of arming the clares at the South, the London Thnee innocently remarks: " The South has no reason to doubt that the negre will gibt has as bravely in sup-port of the cause of slavery, which is the cause of his maker, as he will in the cause of liberty." And is adds of its particular friends the rebels "The man who would submit without a murmur to the impressment of his herese or his crores may very likely abrink back with a species of superskillous herror from the attempt of his own for expanses (at Richmond) to depting how of his every slaves for whom he has already jought a long and desperate war." A dispatch from Washington, dated Dec

Tur Governor of North Carolina says that de The determor of north chulm soft and setters in that State are numerous and edelant, fore about the country in squads, commit rob-pertes, and make themselves generally subshirt-outs. The Governor of Georgia, in his late inse-suge; announced the same state. of facts. Bimi-lar eridence, of the disorganization of sodely, hereins in all the States in robellion.
