"It seems a member of Company C, regarded his first Sergeant as incompetent, and inhuman; so he drew up a petition asking his removal, and was buelly engaged getting signers, when he was discovered by his Captain. (Erans) who ordered him to be bucked, (soldiers know what that means) for mutiny. It was done, and the poor fellow, placed upon parade ground, as a terrorto evil doers. But his fellow soldiers soon discovered him and gathered around, commiserating his condition and uttering curses against the author of his punishment. It was not long until his brethere in arms to the number of a thousand, gathered on the ground in knots and squads, discussing the propriety of releasing him by fores; but so well disciplined are they that no one would venture first; yet soon would human passion have but the bound, had not another personage come upon the seens in the person of our dearly loved Major. White, who waved his hand, when all was still. He walked up to the prisoner and cut the though which bound him, when my went the loud shouls and cheers for our noble Major, who walked away as if nothing had happened. All would havel passed thus, and all were satisfied, but the doughty Captain who had returned upon the seens; and fliding his victum gone, sought to find him again and punish him, but finding him not set he called out to the guard to clear the parade ground and to drive the men to their quarters; but it was more than they could accomplish, when this brave Captain rushed upon cut and shashed him with his sword. inity: Three years ago, when some few men had ie hardihood to claim that Franklin was the "Oil Centre;" of Venango county"they were laughed at and considered hardly sound in mind but to-day, the case is somewhat dif-ferent, and it is hard to see where the laugh ferent, and it is, hard to see where the laugh comes in. During the past three anonths the following wells have been struck in this vicinity: On the Allegheny river, below this place: The Keystone, No. 2, yielding 6 barrels; the Dale & Morrow well? 3, 50 barrels. Les No. 4, 40 barrels; the Phimer & Hover well, 70 barrels; a well on the David Smith farm. 10 barrels; a paying well on the Stephen Smith farm; one on East Sandy and a number of others at various points. On French Creek, a 10 barrel well on Suttey farm, which will probably yield 20 barrels per dor, Peeides this, the machine are most favorable on Sugar Creek and East Sundy, and there is reason to believe that oil will be obtained on they streams in large quantities. And still

The Oil City, Monitor records the following strikes: A Fhiladelphia company on the Wm. Alcora farm, on the east side of the Allegheny river, about two miles above this place (Mr. Loyd Superintendent,) struck a sylendid rein of oil last week. The well has been tuled and is yielding fifty barrels a day or more. A well has been struck on upper Walnut Island, and is yielding forty barrels a day. This is understood to be the Bruner oil company's well. Walnut Bend is still in great favor among oil men.

These women are charged with conhiring together to abduct a certain Maggy Ker-in lufant under the age of ten years, from the awful custody and care of her parent, Joh

Another information was made against Mary Brooks, charging her with maliciously cattelag or ferring said child from the custody of her father with intent to deprive him of its lawful rather with intent to deprive him of its lawin castody.

The accused denied having had any agency in the abduction of the child, and gave ball for hearing on Saturday. The child was taken away on Weducsday, and has not yet boot recovered it is alleged that she was sent to Tyrone, Blat country.
