THE SIGNS OF THE END. The dispatch we publish this morning, ontaining an extract from the Richmond Enquirer, indicates the zear approach of the end. The Enquirer, it will be seen, arges the arming of the slaves, and says that general LES is in favor of It. This is a candid confession that the Rebels have given up all hope of winning lence by their own hands. The Esquirer speaks by authority, and its confession is the confession of the Rebel Gov ernment. It is an acknowledgment that the war has used up the whites of the Bouth; that they cannot re-fill the ranks of their armies; that the contest is bopeless without other help; and that their last

esource is in arming the slaves and abol-

lebing slavery. The argument is held out that only by so doing can they obtain the intervention of European nations; but this is evidently the argument of despair. European nations will not interfere to save Slavery; but will they interfere any the more certainly when slavery is abolished? when the North has shown that it can conquer the South, and the South has demonstrated that it connot defend itself, European nations will be slower than ever to interfere in a quarrel that is so evidently settling itself without .Lheir aid.

If LEE and DAVIS succeed in carrying out ti cir policy of arming the slaves, it must be many months before they can make them effective even supposing the scheme to lie time, our victorious armies will have possessed themselves of Mobile. Savannah. Charleston and Wilmington, shutting them out from the sea altogether, while GRANT and Thomas, and Canny will have tight ened the lines around them closer and still find that, however well the scheme may work for the slaves, it will avail them noth-

revolutions characteristic of Paris, that the National Guard, when ordered to fire on the people, have recoiled from the task and 'fraternised" with them instead. It will be so with the armed slaves of the South when they meet our armed negroes face to face. masters think; and the latter may learn. to their intense surprise, some day, that the very thing the slaves have been patiently waiting for, is the arrival of int when the long-wished for arms shall be theirs.

We are content that the rebels shall try this scheme. It is their last card. They have no other resource beyond it. Slaver is a doomed institution, and we shall not resp over the fact that the rebels themselve have abolished the institution they went to war to save. Its abolition will do them no good; and when they find that they have exhausted their means they will perhaps begin to reflect what is now apparent t every one else, that submission or annihils tion is all that is left them. When it come to that it will make but little difference to the world which of the two they choose.

CANADA. The change in the feeling of Canada, since the release of the St. Albana raiders, is margone foo far; and that if they would say: the provinces from being overrun by smo tile army, they must give better evidence of is clarified, and is doing somewhat to geard:

Is clarified, and is doing somewhat to geard:

In the meantime, the President has so his modified Gen. Dix's order as that our force shall not invade Canada, in case of another raid without first consulting Gen. Dix. This is a prudent precaution, and will save the country from being embroiled through the tountry from being the hasty, ill-considered act of some subordinate on the border.

If the order of the Secretary of State. prohibiting the admission of any one from the British provinces without a passport, is intended to bring about non-interesurse, until the British provinces can learn to behave themselves properly, it is all right; but if it is intended to be partial in its operations, it will do no good. GEN. SHERMAN'S APPLICTIONS. General Burnway has been severely ted during the past fifteen months by the death of two children, while he was absent from home on duty with his command. The first was a sprightly lad, who was a favorite with all who knew him as well as with his parents. The other was an Infant son, Charles Celestine, aged five years and 23days, who died at South Bend, Indiana, on the 4th of the present month. That General BHERMAN is a loving parent no one can doubt, and who could have blamed him if he had preferred the bedside of his dying child to the perilons march from attents to Savannah? But his country's ris paramount to his parental try's a paramount to his parenta feelings, and he has never neglected for one moment his public duties on account of his domestic afflictions. He is certainly entitlod to the sympathy as well as the respect

HOX. R. R. REED. We were pained to note, in our local column, a few days since, the death of Hon. R. R. REED, of Washington county. 4 long personal acquaintance with him enables us to speak knowingly of his great worth. Pure, upright, conselentious and sincere, he brought the highest integrity into the discharge of every public duty. He represented the Washington and Beaver district for four years in Congress, and represented it ably. Last year he was elected to the Legislature, serving with marked dis-linction, and was re-elected this year; and it is much to be regretted that the State should lose his services at a time when she sorely needs faithful public servants such as he was. His death is a public loss, and falls like a heavy blow upon a large circle of

relatives and deeply attached friends.

How our Prisoners were Treated.

The Union prisoners received from Florence and Columbia are in as bad a condition as those from Andersonville, Millen and the Libby. They were guarded at Columbia, in the prison pen, by a line of scattries and a pack of bloodhounds. Licutenant G. F. Turtsyne 69th New York, was shot dead by a sentinel within the line, prescribed as the "tend line," and Lieutenant Young, of the 4ft Fennsylvanin cavalry, was shot dead with sitting at the camp fire. The prisoners were totally shelterless, their only protection being the pine trees which surrounded the prison. Not are once of meat was insued from Feptember 27th up to the time (theorem of the prison of th relatives and deeply attached friends.

THERE is great excitement in Canada on the St. Albana case. The Ministry have

The penalties of the Foreign Enlistment Act are all too weak for a people in our position. In any steps the Government may take thus to vindicate our neuffaility, they will assuredly receive the heavity support of the vast majority of the Caddians.

The property of this Company comprises the fol-pring described tracts, amounting, in the aggre-ate, to nearly Seven Hundred Acres.

MONTHLY DIVIDEND OF TWO PER CENT.

As every fract embraced in this schedule is con-tiguous to large producing interests, and the great-er portion free of "Royally," it is confidently and reasonably expected that with a working fund of FIFTY THOUSAND DOLLARS for the further development of their property, the dividends of the dereloyment of their property, the dividends of the Company will shortly be barrely increased. As a SAFE, PAYING INVESTMENT, whether permanent, of or speculation merely, it is believed the inducements offered by this Company are second to none. Particular attention is asked as to quantity, quality and location of the lands of this company, more fully described in the following

One-half the Working Interest In the well-known HOWLET WELLS on Blood Farm, Oil Creek, now producing from EIGHTY to ONE HUNDRED AND TEN barrels of oil per day, giving to this interest twenty to twenty-eight barrels per day. There is another well on this lot, to a considerable depth, with a fair show of oil; and still another well being bored with room for others.

THE ENTIRE WORKING INTEREST

LEASE OF EIGHTY AURES,

LEASE OF TWENTY-NINE ACRES,

A Lease of Thirty-five Acres, More or less, (J. Boshear,) on a run emptying inte West Branch of Duck creek, about one-half mile from its mouth, in Washington county, Ohio. A vein of conlain keet thick is on the property, and it is considered by competent judges first-rate oil ten-ritory. Lenk.

More or less, on "Long Run," a tributary of the Little Muskingum and about three miles from the same, in Washington ceausty, Ohlo, (John Wabright.) Property on this strong is regarded as very valuable. During the presentments two good paying wells were obtained on this stream by the Bergen Oil Company, of New York, a large and wenthy-corporation, whose efforts for the david popment of this section of the country are being richly rewarded. Length of lease, ten years; Royalty, one-fifth.

More or less, in fee simple, (Fleming,) on West, Hickory creek, Venango county, Pa, with good, producing wells in the immediate vicinity, both-above and below this property. This tract is very valuable, and would alone, being held in fee, be a sufficient basis for a company.

ONE HUNDRED AND NINETY ACRES. of the "Ohio Petroleum Co." of New York. Both these companies are producing, and the latter, though yet in its infansy, recently declared a dividend of three per cent. on a capital of one million dollars. The daily product of this company has for some time been over one hundred barrels per day. The Federal Company, though with a more limited capital, have been successful in obtaining oil, and its prospects are such as must be gralifying to its atcockholdern. Searcely an exception exists where a well kored on this stream has failed to produce oil, in paying quantity, varying from six to one hamired barrels per day. It is confidently believed that a moderate expenditure will prove the prop-

that a moderate expenditure will prove the property of the TRIUMPH OIL COMPANY as valuable an any of the lands bordering on Federal creek. Books for Subscription to the Stock
