THE GOVERNOR'S MESSAGE.

We give up most of our available space today to the Governor's Message. It presents a very satisfactory account of State affairs.

The people, however, will not be satisfied with the Governor's expansion of his record to permit embellishments to be made in the State for Hancock's corps. It seems strange that he should apply to Gen. Hancock for information as to the law authorizing the raising of this corps.

Annual Message of the Governor of Pennsylvania. The banks and other corporations refused to advance the money which I would pledge myself to see appropriated from the State Treasury to refund it.

The balance in the Treasury, for 1904, was \$1,117,213.21. Receipts during the fiscal year were \$1,373,713.21. Total in Treasury for the year 1904, \$2,490,926.42.

The operations of the sinking fund during the last year have been shown by my proclamation of the 27th day of September, 1904, as follows:

Amount of debt of commonwealth, \$1,000,000.00. Interest on same, \$100,000.00. Total interest received, \$100,000.00.

The fiscal year accounted for in the statement of the Treasury Department, embraces the time from the 1st of December, 1903, to the 30th of November, 1904.

The law on the sinking fund, and the law on the public debt, are the two principal laws of the year. The law on the sinking fund, passed in the month of August, 1904, provided for the redemption of the State bonds.

General.

Since my last annual message on the subject of the sinking fund, the following information is given against that company, seeking an injunction to prevent a continuance of its work and the persistence of its illegal course.)

The national taxation is heavy and unduly burdensome. It is a burden on the people, and it is a burden on the State. It is a burden on the people, and it is a burden on the State.
