 Status
 Automatical and the same based and t who were employed daily on an average of ten hours. The canal is 522 feet long, and the greatest width of excavation is 122 feet, and the depth is 45 feet. The width of the canal proper is 67 feet at the top and 45 feet at the bottom. At high water there will be a depth of 16 feet. From these facts some idea may be formed of the immensity of the work. Supposing that the water there will be a depth of a feet at the top the immensity of the work. Supposing that the canal, in consequence of the heavy batteries bearing upon it, cannot be completed at present, the work as far as it has been carried is so much gained in an enterprise, which when it shall be completed, will always be of inelectualitie im-mond. The explosion of the bulkhead of the canal, on the 1st inst., was witnessed by a large number of officers, and a strong body of trongs placed on-der arms to be friday for cuergencies. The Tribure's Arry of the James special says the butch Gap canal is regarded as a complete success, the result of the explosion in the bulk bead being all that was expected. A dredging machine will now finish the work. Sitteen feet of water has been in the canal since the 16th of last month.

From Cairo--Arrivals of Cotton. From Cairo-Arrivals of Cotton. CAiro, Jan. 5.--The steamer Fanny Oglen, from Little Rock, Ark, has arrived. She brought out 400 bales of cotton, eighty-five of which, be-ionging to the Government, were left at the month of White river, bound South. All quit talong the Arkansas river. One hundred bales of cotton, from Helena, ar rived at Memphis on the 2d.
