ture to incorporate "the War Horse Transportation Co.;" but were relieved in a day or two to find it was only a bill to incorporate "the Warehouse and Transportation

Company."

From affidavits taken in Liverpool and published in the Post of that city, it appears that the Shenandoah, late the Sea King, of London, is now a regular Confederate cruiser, and that her outlit was obtained in the way described in the newspapers at the time. The steamer Laurel cleared from Liverpool with guns, powder, stores, men way described in the newspapers at the stime. The steamer Laurel cleared from Liverpool with guns, powder, stores, men and officers on board. The Sea King at the time cleared from London for Bombay, in ballast. Both, of course, were under the British flag. The vessels rendezvoused of Maderia, the armaments from sthe Laurel were transfered to the Sea King, the latter was rechristened the Shenandoah, hoisting at the same time the Confederate flag, and setting forth on her mission to prey on the commerce of the United States. Such is the history as told by two men who were offered an engagement on board the Shenandoah, but who declined it, and came to tell the story of the transformation. They say that a bucketfull of sovereigns was brought on deck of the cruiser to tempt the men.

SOROHUM CULTURE.—Since it has been demonstrated that a fine article of granulated sugar can be made from sorghum, we have of large preparations for its culture the complex contents. the coming season. In almost every pape we open, we find that a large number of acres in each neighborhood is to be devoted acres in each neighborhood is to be devoted to the raising of that article. Nine hundred acres or more near Bloomington, so says the Panlagraph, are to be put into sorsiding this season. In other places, we have no doubt the quantity raised will be even larger. By experiment it is ascertained that it can be raised profitably in any section of it, and now that sugar can be imade at small cost from it, we expect to see it made one of the first staples of the State. Peoria Transcript.

THE CAPTURED CITIES.—It is a fac-THE CAPTURED CITIES.—It is a fact which must make an impression upon the robels themselves; that not one important place captured by us, and which we have chosen to occupy permanently, has been retaken. Memphila, Nashville, Chattanooga, Vicksburg, Port Hudson, Little Rock, New Orleans, Pensacoia, Norfolk, the woo Beauforts, and a score or more of other less important places, have remained securely in our possession, notwithstanding all efforts to recapture them. We have had Savannah but a short time, and so little faith have the robels in their own power, that the iden of rebels in their own power, that the idea of accovering it has never once been suggested —Phila. Bulletin.

THE Montreal Gazette, of Jan. 9, learns that Mr. Potter, U. S. Consul-General in that city, bas given notice to the Managing Director of the Grand Trunk milway that, on Monday next, a file of Federal soldiers will be placed at Rouse's Point, and another at Moor's Junction, to see that passport regulations are strictly enforced, and that all passengers not properly supplied will be passengers not properly supplied will be sent back into Canada. The transit of American's through Canada, says the Gazette, is now completely stopped. Both the Great Western and Grand Trunk trains west of Townto the supplies of the contract of the contra nto are running nearly empty.

A QUESTION SETTLED. - When the Diplo A QUESTICK SETTIKE.—When the Diplomatic Appropriation bill came up in the Senate yesterday, Senator Wade moved to amend the clause making appropriations "for diplomatic and consular expenses in Mexico," by inserting before the word "Mexico," he words "the republic of." He said there two governments in Mexico, and we could recognize none but the "Republic." We had nothing to do with the "Empire." The amendment of Mr. Wade was adopted. The Consular Appropriation bill was then passed.

Aw the camp of rebel prisoners at Elmina, N. Y., of the 8,000 confined there, 2,000 would gladly take the cath of allegiance. There are 1,400 in the camp between fourteen and eighten years of age. Many of them are just learning to read, and are eager for primers and spelling books. Eight thousand srift of clothing and 8,000 blank ets have been distributed to them. They have plenty to eat and covered by excellent turnarks.

MASSACHUSETTS has 17,802 business houses, with a capital of \$868,885,600, and New York has 30,032 business houses, with a capital of \$1,677,204,000. The late William Curts Noyes devised his valuable library, one of the largest in this country, to Hamilton College, New York.

Another Washington Peace Rumor.
[Correspondent of the N. Y. Tribune.]
WASHINGTON, Jun. 13.—An old hand at washington, sun. 13.—An old hand at peace negotiation declared to day to a committee-room full of Congressmen, that from his knowledge of what was and what would be done in Richmond, he knew that a cesation of hostilities preliminary to formal negotiations would take place within the

ce tone in recumond, he knew that a cessation of hostilities preliminary to formal negotiations, would take place within ten days. Mr. Blair has not yet returned Gen. Grant telegraphed up to night that the Richmond papers received at headquarters to day contain nothing of interest. The sir is full of a feeling of coming peace. All that talk speak of the close of the war as near at hand. Men feel peace in their bones, as they, say many shrewd men to day felt it in their pockets. More than one member of Congress sent orders. North today to instantly sell their stocks; they dreaded a speedy fall. The wife of Senator Footo was-looked to by the speculators in peace as a good mine of news to be worked, instantly that she was under. Chadwick's roof. But the lady was weary and depressed, and needed perhaps extensive shopping before she received friends. Tomorrow the hand of a new peace-maker will fall hearily on Jeff. Davis's obstinney.

BATHS IN FRANCE.—The Paris correspondent of the London Star says there is scarcely a street in Paris which does not contain its establishment of baths, which are daily crowded. The society for hot baths for the poorest children distributed last year 38,957 tickets, which was 1,125 above the number given away the scarce with the secretary. 38,937 tickets, which was 1,125 above the number given away the year pervious. In the city of Nantes M. Bonfils has created a society whose business it is to discover the inhabitant, male or female, who is most addicted to bathing or washing, and deliver him or her a piemium for good habits. The 197,000 inhabitants of clussic Rome in 1864, possessed but one bathing establishment, which they themselves scrupulously avoided entering, and which is entirely supported by foreign visitors.

THE OLD DISTRICT SCHOOL -- James Rus-TIB OLD DISTRICT SCHOOL.—James Russell Lowell, in a recent article, gives a most vivid picture of the ancient district school, where, he says, in passing the open windows, 'you hear whole platoons of high-pitched voices discharging words of two or three syllables with wonderful precision and unanitalty,' followed by "the voice of the officer in command reproving some raw recruit whose vocal musket hung fire;' the whole followed by "the pouring forth of the whole swarm—the boys dancing and shouting—the sedater girls in confidential twos and threes decanting secrets out of the ing—the sedater girls in confidential twos and threes decanting secrets out of the mouth of one cape-bonnet into that of another."

THE LEAVEN OF UNIONISM WORKING IN GEORGIA.—A prominent gontleman who has escaped through the rebel lines from Georgia, and arrived here, informs us that several Union-County Conventions were being held on his departure from the State. This confirms statements which we have received from other quarters to the same effect, as also partially the assertions of the Eavannah Republican. VICE ADMIRAL David Glasco Farragui

was born at Campbell's Station, not far from Knoxville. His father was George Farra-gut, a native of Citadella, in the Island of Minores in the Meditorman when the Island of this country in 1776, and served in the Continental army in the Revolutionary War. The Vice Admiral's mother was Elizabeth Shine of North Carolina, to who was married after the Revolution

Convented heathons often set excellent supples of liberality to those who have always processed to be Christians. The three hundred and ten native communicants of the Dutch. Reformed Church at Amoy, India, contributed last year for religious purposes at the average rate of \$2.25 per head. Most of these persons earn only from ten to fifteen cents for a day's work.

THERE are indications of a temperand THERH are immeations of a temperance revival in various parts of the country. Old organizations are re-appearing in the field, and others are forming, all, however, apparently looking to the employment of moral sussion rather than prohibitery legislation. An army correspondent thinks Gen. Howard is worthy the title of "the American Havelock." Every Sunday he present his compinients to his General officers and their staffs, and invites them to attend divine service at his headquarters.

A M. NTREAL correspondent of the New York T Bune says that a rehet hearer of dispatches, a weathly deorgian named Murray, roty, retently arrived in that city. Murray is a latter enemy of Governor Brown, and a zealous advocate of Left Davis policy. He admits, however, that these is a good deal of peace feeling in his State. Not long age two petitions, one signed by 12,000 male and the other by 15,600 female vesidents of the hopelessness of the rebellion and the fairly consequences of a continuance of the hopelessness of the rebellion and the fairly consequences of a continuance of the kindle before the Confederate Congress. The bearers of the petition—Mr. Crane, an old and prominent lawyer of Macon, and Mr. Whitelaw, a wealthy planter living near that city—were arrested and put in Casle Thunder. The ladies, who must living near that city—were arrested and put in Casle Thunder. The ladies, who make them some soft speeches, and told them to return home, assuring them that if in one year more the Confederacy was not recognized, he well confederacy was not recognized, he well coase to be President. Murray showed a copy of this petition to the correspondent, denouncing it as treasonable and absurd. Its opening sentence is: "The undersigned, mothers, sisters, wives and widows of officers and soldiers of the commonwealth of Georgia who are living or have died in the military service of their country, respect. cers and soldiers of the commonwealth of Georgia who are living or have died in the military service of their country, respectfully submit to your Excellency and pray." Then follows a recital of the horrors of war and a prayer for their cessation. Murray explained Davis' one year promise to mean that if within another year peace were not declared or the Confederacy recognized by foreign powers, he would be no longer President, but King, believing that foreign despots would recognize a Monarch if they would not a President. The same correspondent says that the leading rebels in Canada assert that the slaves will surely be armed, and that when this is done the black flag will be raised. They think that this would prevent their negro soldiers from secking to get taken prisoners and then refuse to be exchanged, and thus more fight be got out of them than in any other way.

At Silver City, Nevado, on election day, the Union men nailed a rebel flag upon the side walk in front of the polls, that every voter might trample it under foot, while the star spangled banaer was flying overhead. Georgia who are living or have died in the
