We have good reason to hope, judging from the signs of the times, that this will be the last heavy general call that the government will be required to make; although a strong military force will be needed, fo years to come, to keep In order the turbulent elements which this great conflict has aroused. One more vigorous and generous effort and the glorious work will be accom

We are now on the high road to peace. Wie all want peace; we are all tired of war; and nothing we can do will so quickly bring us what we want as this vast number of fresh men. The rebels are exhausted and well to remember that LEE has a purpose, and they know the negroes will not fight for them—they have no more money, no more foreign commerce, zo more outside aid; and when they see "three hundred thousand more" coming down upon them they must break down. It follows there fore, that the more men we have the less shed there will be, and the sooner we

RAILROAD ACCIDENTS.
When Solomon W. Roberts was Superintendent of the Ohio & Pennsylvania Rajlroad he invariably wrote out for the press a | that is before him. full and faithful account of every acciden that occurred on the road, and always furnished the accounts as promptly as it was possible to gather the details into an authentic form. He did not give a one-sided or partial narrative, colored to suit the interest of facts as they really occurred; and he maintained that this was the true interest of cyery railroad company, inasmuch as the public would learn the facts sooner or later, that occurred on the read, and always furnished the accounts as promptly as it was public would learn the facts sooner or later. and it was better that the information should be gathered from the railroad company at once, instead of being picked up through those likely to distort it to its injury.

In all this Mr. ROBERTS took the right view. Railroad companies, we know, act now upon just the contrary principle, and their best to suppress all accounts of accidents; but that does not militate against the correctness of Mr. Ronners' plan. If an accident occurs, and the comny proceed at once to lay all the facts by fore the public, the people give it credit for not attempting to conceal the truth; but if the facts are suppressed, the public are left. open to the belief of all sorts of wild re posts, and the company is more injured than it would have been by a prompt announce ment of all the details.

A bill was lately before the legislature to compel railroad companies to put up bulle-tius at certain stations of all railroad acciet dents; but the railroad influence has defeated it. The railroad managers seem to think that if they can keep their own mouths shut about accidents, that the papers will not find out more than half of them, and the public will not therefore think their fronds as dangerous as they are, just as ostriches, when they stick their heads in the sand, think no one can see them. They seem to ferget that reports of accidents wil fly from mouth to mouth, if not published; and that eventually they assume a much more horrible form, and do the roads much more injury, than if promptly and faithfully published. Travelers catch them up and repeat them with embellishments, until finally many a man is deterred from traveling over roads which thus get a ball repu-

THE DRAFT. Drafting is now going on in Philadelphia, in Brooklyn, and in some parts of New Jersey. This is a decisive evidence that the government is in earnest, and that the draft will enevitably come to those districts which are not active in putting in recruits. Those who fondly imagine that the draft would not take place, are referred to these facts, showing that the draft is already in operation.

WILMINGTON. -Through Wilmington the wilmstron.—Through Wilmigton the robellion drew three-fourths of its European supplies. It was a port impossible to blockade. Though we captured many cargoes of immense value, the blockade-runners unceasingly run. the gauntlet of our fleet, and so immensely was the rebellion benefited by she goods they brought that the expense of electeding the whole coast for the sake of Evilmieston was consomical. It is probable defending the whole coast for the sake of Wilmington was concomical. It is probable that Europe has sent through Wilmington more guns and powder than the entire Scuth has manufactured. In Josing that port the enemy must now depend upon the meatre resources of a few non-manufacturing and exhausted states for materialto repair the waste of war.—Philadelphia Press.

Pair the waste of war.—Philadelphia Press.

Now and Them.—When, four years ago, Port Sumter was compelled to succumb to the South Carolina insurgents, Gov. Prekens—he who once bossted that he "wastom insensible to fear"—delivered a congrafulatory address to the Charlestonians, in which he said:

"We have humbled the flag of the United States, and as long as I have the honor to preside as your Chief Magistrate, so help me God, there is no power on this earth that shall lower from that, fortress those flags, unless they be lowered and traited in a sea of blood."

The Evecution of Winnerson

THE EVACUATION OF WILMINGTON.—It is known that just after the fall of Fort Fisher, the rebels conspensed evacuating Wilmington and moving the cotton to the interior toward Italeigh, but that ten days ago there was still from thirty to fifty thousand bales left. It is believed at the War Department that most of this has fallen into Gen. Schoffeld's hands. It is hopes that, with the large ferms he may have the reserve.

PRIOR, THE SPY.—Roger A. Pryor, the rebel spy, is at large, and can be seen daily promenading the Avenue. To a man vho pointed out the large number of feserters passing along he remarked, "There is plenty more left where they came from."

SHERMAN. Although the public heart at the North has been made joyful by the news of the capture of Savannah, Charleston and Wilingion, and although the less of those places inflicts a heavy blow on the rebel unse, yet the fact that the rebel troops garrisoning those places have all retreated in one direction and for one purpose, viz: of

uniting and giving battle to SHERMAN OR the first favorable opportunity, is calculated to awaken anxiety and apprehension. The

This is a quettion that many people are asking but none answering. So far as the 22d and 23d Districts are concerned, it is only postponed from day to day, so long as volunteering shall go on briskly; but when that slacks off it will certainly be made. We warn those who think of follong teering, not to wait till the day is announced, for then it will be too late. The only way in which the postponement can be created is to keep the boards busy enlisting and mustering in recruits.

Some people are indulging a vague and groundless notion that, after all, there will be no draft; but there never was a greater delusion than this. It will certainly be made. I patice to the sub-districts which have already filled their quotas requires that the made and rigidly enforced in all those sub-districts which neglect or refuse to furnish their alloited number of men. The people carmat be too prompt, therefore, in doing the work before that me war is nearly over, and that, in all probability, the men now going in will nover be in battle, yet in order to finish up the work thoroughly, these 800,000 fresh recruits will be required. The terms of service of many thousands of our soldlers will expire during the present year, see that, after these 800,000 shall all be in, we shall probably not have as many men under arms by the first of October as well-ave now.

We have good reason to hope, judging from the signs of the times, that this will be the sub-post stated.

Possibly, it may have been on the view of Sherman's movements, as above stated, that General Lee based his recent letter, which expresses so much confidence in the ability of the rebel armies to sustain themelves amid dangers, that, to the commor ind, seem so imp

BEAUREGARD has 50,000 men under him, by this time; and although we do not allow irselves to doubt that SHERMAN will whip him; we cannot repress the nervous anxiety we feel to hear that the fight is over. It is all very fluttering to our prowess to believe that the enemy retreated from South Carolina because of cowardice; but it will be as nraged; they have no more white men, and that it is a part of that purpose to give hattle to Sherman as soon as the force: under BEAURECARD can be brought within supporting distance from Richmond. A battle, therefore, is imminent. Wilmington and Charleston have been abandoned without striking a blow, in order to gather an | which they receive orders. effective army for that battle; and we may therefore, make up our minds to look for it Our confidence in SHERMAN is unbounded, and we feel sure that he will win; but his b'oodless career, so far, through South Car-

o'lna, must not blind us to the heavy task Ballroads in the East. lem, and a religious enthusiast of Germany
—one Dr. Zimfrel—means to build the road
He expects to raise the necessary funds atom, two million five hundred thousand collars, at gold (par standard)—by an appeal to the religious sentiment of Jews and Je al to the religious sentiment of Jews and Unristians throughou Europe.

This railroad, though to be only forty niles long, will vastly hadilitate travel to Jerusalem, render the fourist's or pilgrim's journey thither as easy and prosaic as a tripitom New York to New Havon. An English writer on this sabject suggests that the lastrum may witness branches of the line to Jericho on the one side, and to Be Lichen and the Lived Second the three lehem and the Dead Sea on the other-

Be Lieuem and the Dead Sea on the otherwish, tunnels through the Mount of O jres rud the fulls of Esrgeddon; 't this seems a nostlyrofane; but arraitronal already convex plainting to Loretto, the sixth dring in Italy where stands the house of the Virgin Mary, transported, according to the oil legend, from Palestine, to its present locality. A railroad to Pompeli hardly harmonies with the reflections which a visit to that marvellous disinterred city suggests; but the very tourist to Naples finds the new node of conveyance highly agreeable. Inceed, by the year 1000 we shall probably leadle to reach by steam every frequented lace of resort sacred or secular—devoted to religion or fashion.

The President to be Trusted. The President to be Trusted.

The Washington correspondent of the Springfield Republican says:

"I feared two weeks ago, that the Blairs might negotiate a dishonorable peace, but I am new satisfied that Mr. Lincoln has his hand upon the helm. He telegraphed to Mr. Seward the other day: "Remember that the only terms are Union and submission to the lawa." Going down the Chesapeake lay, he said to a friend: "So long as I am President, no peace shall be made which does not save the Union and keep our promise to the slave!" I am no longer afraid that the President will make peace one mement too quick, for he will not aban-

afraid that the President will make peace one member too quick, for he will not abandon one of his principles for it. He said to a member of Congress the other day: 'Some of my friends in Congress act as if they were afraid to trust me with a dinner; yet I shall never compromise the principles upon which I was elected.''

The Mission in Ruemonn.—It is now stated that the wifit of Judge Hughes and G. n. Singleton to Richmond, is of a strictly private nature, and it bears no political significance whatever. The statement that they go to urge supplission to the government of the United State is therefore incorrect.

SHERMAN'S ABSENT OFFICERS TO REPORT AT or Sherman's army have been ordered to repor o Gen. Price, at Hilton Head, South Carolina. An immense number of wild animals still live n Maine, and at the present high prices of fore, rappers are having a great time among minks, tables and foxes.

A MONTHEAL paper states that ten gentlemen of the rebel pertuasion have on deposit in that city \$2,800,600. PUBLIC NOTICES. GOING OUT OF THE DRAFT!

FOR TRIMMING DRESSES, &c., ione in a superior manner, without injury to the PROSPECTUS OF THE

Pacific Refining Company, OF PITTSBURGE, PA.

Capital Stock, - - \$100,000. 22,000 SHARES, \$5 EACH.

Subscribers Not Personally Liable.

DESCRIPTION OF THE PROPERTY

SEVEN STILLS, Capacity : 600 Barrels Refined Dil Per Week, (IN ROUND NUMBERS.)

A Worthington Steam Pump in the Refinery: also one at the river, with tubing Troin river to works, for pumping Crude Oil in bulk; ample Agitator and Secting Pans. To guard against fire, blank brick walls separate the different departments.

All the machinery is new, and with the storage capacity both for Crude and Refined Oil, the favorable locality—has ling the river and railroad at command—this may be ranked as one of the most performance of the most performance of the most performance. The present cowers will convey this property, including the Refinery, with land in fees simple, (200 feet on Butier street, by 120 to Pine Alley, to the Company for the sum of \$45,000.

A correct plan of the property accompanies each bonk of subscription.

The success which has attended the prescution of the control of all observing minds, and it is deemed superfluous to urge any argument that would go prove how a company by laying ha a large stock of Crude Gil when it is low, retinue at and subling the herified until the price is promainly renductative, can pay a dividend annuality of to to 30 per cent. It should be observed that the company, and the company will be able to defair a quarterity dividead of to prove the times each year, and it is believed that with good management the Company, will be able to defair a quarterity dividead of to per cent, and that there is no better or safer investment for proving lank, is surrance, Railroad, and even Gold and the fills are company, and that there is no better or safer investment for proving lank, is surrance, Railroad, and the risk is more and the safe and the company. For proving lank, as surrance, Railroad, and even Gold and the risk is more and the safe and the company.

ne creater.

but has a refiner and dealer in Oil, will, if desired,
personally auperintend the business of the Compersonally superintend the business of the Comparty.

Altached is a certifical from Mr. A. T. Schmidt,
Altached is a certifical from Mr. A. T. Schmidt,
showing the value of the Retinery as near as it
can be estimated by one of the most experienced
and successful of Renners:

Phyricipal Feb. 99, 1995.

By request, I have made a careful of matter of
the Retinery called the PACTFIC OIL WORKS.
I consider it worth at least (89)000 PHry Thousand Boiliars. With the present high price of masard Boiliars. With the present high price of materials, it would probably cost a much larger sunterials, it would probably cost a much larger sunterials, it would probably cost a much larger sunterials, it would probably cost and high present
substances. ALGUSTUS T. SOHMIDT.

Superintendent of the Ardesco, Oil Works.
The above Certificate is given to satisfy persons
who may havest in the stock of this dompany,
that all who are been are on an equal footing,
and also to prive that the value is really in the
property.

Hooks of subscription to the Capital Stock of he Cempany are now open at PITTSBURGE.
